Throughout this month the South or alongshore wind with very unequal force prevails: it is accompanied with a profuse dampness and sultriness, which renders its effects highly prejudicial to health and comfort. On this account the sea breeze which sets in at noon, and blows till sun-set, is less courted than at other seasons: the sky is, however, beautifully clear for about twenty-seven days, the remaining four being cloudy. Dew less frequently occurs, and is less in quantity than last month. Rain and lightning are little known.

The hottest time of the day is at 0h. 20m. P. M.; the coldest at 5h. 0m. A. M.

The Sonth wind, which is mentioned as peculiar to the two last months, continues till the middle of this month, relieved sometimes by a land wind from the W. or S. W.: in this interval gales of wind of extreme violence have occasionally been experienced, commencing their career generally at the N. W. and veering to every point of the compass. About the left the regular land or hot winds set in, which are moderated in their effect towards the end of the month by occasional showers. The sea breeze sets in about mon and blows till 9 or 10 r. There are about mineteen days of clear weather, eight of flying clouds and laze, and four cloudy days, on two or three of which there is rain. The dew is almost imperceptible, and lightning with thunder occurs about four times.

The hottest time of the day is at 11h. 20m. A. M.; the coldest at 4h. 20m. A. M.

^{*} In this statement the rain which fell during the four gales of wind has been omitted. On the 21st May 1811, during the gale which then blew, there fell 5.5 inches; on the 8th, 9th and 10th May 1820, 17,56 inches; on the 7th, 8th and 9th May 1827, 23,30 inches, and on 16th May 1841, 3.0 inches.

The regular westerly winds which terminate about the middle of this month are succeeded by winds of a light and variable nature, mostly from the West and South. Calms, haze, and rain occur in about the same proportions as last month, leaving about eight days of clear weather. Lightning unattended by thunder is very frequent, but thus accompanied it occurs only once or twice. The sea breeze assumes much the same character as that experienced last month, commencing at 2 or 3 p. M., and continues till 8 or 10 p. M. Dew is sometimes discovered, but more frequently fails.

The hottest time of the day is at 2h. p. M.; the coldest at 3h. a. M.

The clouds now begin to assume a more dense appearance than heretofore. Calms, lightning and rain are very frequent till the 19th, when the N. E. monsoon, or rainys cason, sets in. From this time till the end of the mouth the atmosphere assumes a very disturbed appearance; extremely heavy rain with storms of wind, thunder and lightning, invariably occur, and gales of wind of a similar nature to those which occur in the earlier part of the year' are sometimes experienced. On these occasions a depression of the barometer of 4 or 5 tenths of an inch is observed. The sea breeze, or rather a slight modification of the N. E. wind, is perceived towards the middle of the day.

The hottest time of the day is at 1h. p. M.; the coldest at 4h. 50m. A. M.

* See remarks for the mouth of May. + On 30th October 1836, during the hurricane which then raged, the barometer fell to

The N. E. Monsoon continues with unabated force, and the state of the weather generally is much the same as that experienced towards the end of last month, save an increased dampness of the air and a less frequent occurrence of lightning. The number of clear and cloudy days in this, as well as in last month, is liable to great uncertainty.

The remarks relative to the sea breeze of last month apply equally to this.

The hottest time of the day is at 0h. 20m. P. M.; the coldest at 6h. 40m. A. M.

The heavy rains and violent gusts of wind are much moderated at the beginning of the month, and arrive at their close about the 15th. From this time the sky assumes an appearance of tranquillity and clearness which forms a strong contrast with the disturbed state of the preceding month; the N. E. wind, however, continues throughout the month without interruption. There are about thirteen clear days, eleven cloudy, and seven of flying clouds and haze: of these there are six days on which rain falls. The morning exhibits a copious deposition of dew, and sometimes a ground fog which does not reach more than two or three feet above the sur-And sometimes a ground of the face. The sea breeze sets in at 10 A. M., and blows till 4 P. M.

The hottest time of the day is at 0h. 50m. P. M.; the coldest at 2h. 20m. A. M.

THE CALENDAR AND ITS SUCCESSIVE REFORMS.

The divisions of time, such as they are presented in the Calendar, are composed of days, weeks, months and years. The modes of determining these divisions, have been various amongst the nations of antiquity, and there are still variations in these modes in the modern world.

The manner of reckoning the days by the ancient Jews, and which subsists amongst that people at the present time, is to commence the day at a certain hour of the evening, and to finish it on the next evening at the same hour. Thus their sabbath begins on the afternoon of Friday, and is completed on the afternoon of Saturday. The Roman Catholic Church also commences its festivals in the evening; and this custom is retained amongst ourselves in some of our popular observances, such as the eve of St. John and Christmas eve.

The civil day now commences at 12 o'clock at midnight, and lasts till the same hour of the following night. The civil day is distinguished from the astronomical day, which begins at noon, and is counted up to 24 hours, terminating at the succeeding noon. This mode of reckoning the day is that used in the Nautical Almanae, and it sometimes leads to mistakes with persons not familiar with this manner of computation: a little consideration will obviate the difficulty. Thus, January 10, fifteen hours in astronomical time. January 11, 3 in the morning, civil time. In France and in most of the states of Europe, as with us, the hours are counted up to 12, from midnight till noon, and from noon till midnight. In parts of Italy, and of Germany, the day is held to commence about sun-set, and the hours are counted on till the next sun-set. This mode is very inconvenient to travellers, as the noon of the "Italian hours" at the summer solstice is 16 o'clock and 19 o'clock at the winter solstice.

The English names of the days of the week are derived from the Saxons; and they partly adopted these names from the more civilised nations of antiquity. The following ingenious origin of the ancient names has been suggested in connexion with astronomical science. The planetary arrangement of Ptolemy was thus 1, Saturn; 2, Jupiter; 3, Mars; 4, the Sun; 5, Venus; 6, Mercury; 7, the Moon. Each of these planets was supposed to preside, successively, over each hour of the 24 of each day, in the order above given. In this way Saturn would preside over the first hour of the first day; Jupiter over the second hour; Mars over the third; the Sun over the fourth, and so on. Thus the Sun presiding over the fourth, eleventh, and eighteenth hours of the first day, would preside over the first hour of the second day, and carrying on the series, the Moon would preside over the first hour of the third day, Mars over the first hour of the fourth day, Mercury over the first hour of the fifth day, Jupiter over the first hour of the sixth day, and Venus over the first hour of the second professions throughout Europe. The present English names are derived from the Saxon:—

Latin.	English.	Saxon.
Dies Saturni,	Saturday.	Saturn's day,
Dies Solis,	Sunday,	Sun's day,
Dies Lunze,	Monday,	Moon's day,
Dies Martis,	Tuesday,	Tiw's day,
Dies Marcurii,	Wednesday,	Woden's day,
Dies Jovis,	Thursday,	Thor's day,
Dies Veneris.	Friday.	Friya's dav.

Tiw, Woden, Thor, and Friya were deities of the Pagan Saxons. Thor was the god of thunder, as well as the ancient Jove; and Friya was a goddess, the wife of Woden.

Almost all nations have regulated their months, in a great degree, by the evolution of the moon. Some have endeavored toganite this division with the annual course of the sun, by an augmentation of days at the end of each year, or by adding course of the sun, by an augmentation of days at the end of each year. The Jews and the Athenians a thirteen month at the end of every third year. The Jews and the Athenians of Idea and 31 days; the Turks and the Arabs have 29 and 30 days, the their months 30 and 31 days; the Turks and the Arabs have 29 and 30 days, the months of the Auglo-Saxons were governed by the revolutions of the moon. Their months of the Auglo-Saxons were governed by the revolutions of the moon. Their months of the four seasons; but every third year contained an additional linear months, each of the four seasons; but every third year contained an additional linear months either which was given to the summer season. The names of their linear months either had reference to their religious ceremonics, or to the natural appearances of the year.

A considerable variation prevailed, generally, amongst the nations of antiquity and still partially prevails, with regard to the commencement of the year. The Jews dated the beginning of the sacred year in the mouth of March; the Athenians in the month of June, the Macedonians on the 24th September; the Christians of Egypt and Ethiopa on the 29th or 30th of August, and the Persians and Armenians on the 11th of August. The Jewish civil year begins on the first day of the month Turi, which year corresponds with our 9th of September; the Mahomedans' begins on the first of the month Moharem, which year corresponds with our 14th of July. Nearly all the nations of the Christian world now commence the year on the 1st of January; but as recently as 1752, even in England, the year did not legally and generally commence till the 25th of March. In Scotland, at that period, the year began on the first of January. The difference caused great practical inconveniences, and January and February, and part of March, sometimes hore two dates, as we often find in old records, as 1711-12. This practice often leads to chronological mistakes; for instance, we popularly say,—"The Revolution of 1688," that great event happening in February of the year 1688, according to the then mode of computation; but if the year were held to begin, as it does now, on the 1st of January, it would be "The Revolution of 1689." In the aumiversaries given in the British Almanae, the alterations of style, made in 1752, have not been followed, as any correction of date would have embarrassed the reader in historical and biographical references.

The year, properly so called, is the solar year or the period of time in which the sun passes through the twelve signs of the Zodaic. The period comprises 365 days, 5 hours, and 48 minutes, 54 seconds, 6 decimals, and is called the astronomical year.

The Calendar is a table of the days of the year, arranged to assist the distribution of time; and to indicate remarkable days connected with devotion or business. If every nation had adopted the same division of time, and a uniform calendar had been general throughout evalued states, lestory would present much fewer difficulties and contradictions. The progress of istronomical science has necessarily produced great changes in the manner of diveling time; and thus, whilst some mations have been ready to give their calendar (v) by possible advantage of a scientific construction, the prejudices of others have tacked them unwilling to depart from their accustomed mode, however inaccurate. It may be curious and instructive to trace, very briefly, the changes of the calendar, ordinarily called, the changes of style.

The Romans called the first days of each month, Calends, from a word which signified called; because the Pontiffs, on those days, called the people together, to apprise them of the days of festival in that month. Hence we derive the name of CLESDAR.

The Roman Calendar, which has, in great part, been adopted by almost all nations, is stated to have been introduced by Romulus, the founder of this city. He divided the year into ten months only: Mars, Aprilis, Maius, Junius, Quintilis, (afterwards called Julius,) Sextilis, (afterwards called Augustus,) September, October, November, December. Mar, Maine, Quintius, and Octobe, contained 31 days, and each of the six other months 30 days; so that the ten months comprised 304 days. The year of Robulus was, therefore, of 50 days' less duration than the lunar year, and of 61 days less than the solar year; and its commencement of course did not correspond with any fixed season. Numa Pompilius corrected this calendar, by adding two months, Januarius, and Februarius, which

placed before Mars. Julius Cæsar, being desirous to render the calendar still mor correct, consulted the astronomers of his time, who fixed the solar year, as 365 days 6 hours, comprising, as they thought, the period from one vernal equinox to another. The six hours were set aside, and at the end of four years, forming a day, the fourth year was made to consist of 366 days. The day thus added, was called intercalary. and was added to the month of February, by doubling the 24th of that month, or according to their way of reckoning, the sixth of the Calends of March. Hence the year was called Bissextile. This almost perfect arrangement, which was denominated the Julian style, prevailed generally throughout the Christian world, till the time of Pope Gregory XIII. The Calendar of Julius Cæsar was defective in this particular; that the solar year, consisting of 365 days, 5 hours, and 49 minutes. and not of 365 days, 6 hours, as was supposed in the time of Julius Cæsar; there was a difference between the apparent year and the real year, of eleven minutes. This difference at the time of Gregory XIII., had amounted to ten entire days, the vernal equinox falling on the 11th, instead of the 21st of March, at which period it fell correctly at the time of the Council of Nice, in the year 325. To obviate this inconvenience, Gregory ordained, in 1582, that the 15th October should be counted instead of the 5th, for the future ; and to prevent the recurrence of this error, it was further determined that the year beginning a century, should not be Bissextile, with the exception of the beginning of each fourth century. Thus 1700 and 1800 have not been Bissextile, nor will 1900 be so; but the year 2000 will be Bissextile. In this manner, three days are retrenched in 400 years; because the lapse of the 11 minutes makes three days in about that period. The year of the calendar is thus made, as nearly as possible, to correspond with the true solar year; and future errors of chronology are avoided.

The adoption of this change, which is called the Gregorian, or New Style, (the Julian being called the Old Style,) was for some time resisted by states not under the authority of the See of Rome. The change of the style in England, was established by an Act of Parliament passed in 1752. It was then enacted, that the year should commence on the 1st January, instead of March 25th; and that in the year 1752, the days should be numbered as usual until Sept inber 24th, when the day following should be accounted the 14th of September, omitting 11 days. The Gregorian principle of dropping one day in every hundredth year, except the fourth hundredth, was also enacted. The alteration was, for a long time, opposed by the prejudices of individuals; and even now, with some persons the Old Style is so pertinaciously adhered to, that rents are made payable on the old quarter days, instead of the new. For this reason, and not in deference to the prejudice, the old festivals are mentioned in the British Almanac. The Russians still retain the Old Style, thus creating an inconvenience in their public and commercial intercourse with other nations, which, it is trusted the growing intelligence of the people will eventually correct.

During the period in which France was a Republic, the authorities introduced an entire chauge in the calendar, which was in existence more than twelve years; and it is important to be noticed, as all the public acts of the French nation were dated according to this altered style. The National Convention, by a decree of the 5th October, 1793, established a new Era, which was called, in the place of the Christian Era, the Era of the French. The commencement of each year, of the first "Vendiminire," was fixed at the midnight commencing the day, on which the autumnal equinox fell, as determined at the Observatory at Paris. This Era commenced on the 22nd of September 1792, being the epoch of the foundation of the Republic; but its establishment was not decreed till the 4th "Frimaire" of the year 11 (4th November 1793.) Two days afterwards the public acts were thus dated. This calendar existed till the 10th "Nivose," year XIV (the 31st December 1805) when the Gregorian mode of computation was restored.

25. Ash Wednesday.—The primitive Christians did not commence their Lent, until the Sunday now called the first in Lent. Pope Felix III. in the year 487, first added the four days preceding the old Lent Sunday, to complete the number of fasting days to foriy. Gregory the Great introduced the sprinkling of ashes on the first of the four additional days, which give it the name of Dies Cinerum, or Ash Wednesday. At the Reformation, this practice was abolished, "as being a mere shadow, or vain show."

MARCH.

- 1. Quadragesima, or first Sunday in Lent.—Ercombert, King of Kent, first appointed the fast of Lent in the year 641; succeeding generations marked the distinctions between the various foods. We find flesh to have been early prohibited during Lent, though Henry VIII. published a proclamation in 1543, allowing the use of relate meats, which continued in force until, by proclamations of James I., in 1619 and 1625, and by Charles I., in 1627 and 1631, flesh was again wholly forbidden.
- 17. St. Patrick,—St. Patrick, from the eminent services he rendered the Irish, in converting them from Idolatry, is called the Apostle and Father of the Hibernian Church, and is the Patron or tutelar saint of that i land.
- 22. Mul-lent Sunday.—This day received its appellation, because it is the middle Sunday between Quadragesima and Easter Sunday. It is by some called the Mothering Sunday, a term expressive of the ancient usage of visiting the Mother, or Cathedral Churches of the serveral dioceses, when voluntary offerings were made, which are now called Faster Offerings.
- 25. Annunciation of Lady Day.—The reformed Church celebrates this day as a joyful festival from the connection between the circumstance commenorated, and the incarnation. "Our Lady" is the ancient and popular name of the Virgin Mary.

APRIL.

- 5. Palm Sunday.—Palm Sunday is the Sunday preceding Easter, or the last Sunday in Lent. In the ancient Clurch, Palm Sunday, with the whole of the week, which it commences was held in strict devotion, and observed with greater rigour as to fasting and hundbation than any other part of the Lent season. The testival commemorates our Saviour's trumphal entry into Jerusalem, when branches of pulm were spread before him.
- 9. Maunday Thursday.—Edward III. in the year 1363, appears to have been the first English monarch, who introduced into this country the practice of feeding, clothing, and distributing money to indigent persons on Mannday Thursday. The custom has continued without intermission to the present period; and yearly, on this day, the Lord Almoner, or in his absence, the sub-almoner, attends for that purpose, in Whitehall Chapel.
- 10. Good Friday.—From the earliest records of Christianity, this day has been held as a solemn fast, in remembrance of the Crucificion. Its appellation of Good, appears to be peculiar to the Church of England. Our Saxon forefathers denominated it Long Friday, from the length of the Offices and fastings on that day.
- 12. Easter Sunday.—Is a moveable festival, held in commemoration of the Resurrection, and being the most important and most ancient in observance, governs the whole of the other moveable feasts throughout the year.
- 23. Saint George.—Edward III. at the battle of Calaise, in the year 1349 joined to England's then supposed principal guardian, St. Edward the Confessor, the name of St. George, both of whom he earnestly invoked to aid his arms. The next year, the order of the Garter was established, dedicated to St. George; and the Saint himself has, from that period, been considered as protector of England.
- 25. St. Mark the Evangelist.—On this day the reformed Church holds a festival in commemoration of the benefits the Christian religion has received from the exertions of thi≠Evangelist.

NOVEMBER.

- 1. All Saints.—All Saints, or All Hallows, in the Protestant Church, is a day of general commemoration of all those saints and martyrs, in honour of whom, individually, no particular day has been expressly assigned.
- 4. King William Landed.—"On the 3d of November," says Burnett, who was in the fleet, "we passed between Dover and Calais, and before night, saw the Isle of Wight. The next day, the 4th, being the day, on which the Prince was both born and married, he funcied, if he could had that day, it would look anspicious to the army, and animate the soldiers; but others, who considered the day following was Gunpowder Treason day, thought our landing that day might have a good effect on the minds of the English nation. And Divine Providence so ordered it, that after all hopes of our landing at Torbay were given up, and Russell bid me go to my prayers for all was lost, the wind suddenly shifted, and carried us into the desired haven. Here the Prince, Marshal Schomberg, and the foot soldiers, landed on November the 5th." The Almanae is thus at variance with the historian.
- 5. This day is commonly called Gunpowder Treason, and has been kept as an anniversary in commemoration of the great plot of 1605.
- Lord Mayor's Day.—Our Almanaes style this the "Lord Mayor's Day," in allusion to its being the period when the cluct magistrate elect of the city of London annually enters upon his high and important office. Until the 9th May 1214, the office of chief magistrate of London was held for life.

- 29. Advent Sunday.—Advent in the Calendar properly signifies the approach of the Feast of the Naticity. It includes four Sundays; the first of which is always the nearest Sunday to Saint Andrew, whether before or after Advent was instituted by the Council of Tours, in the sixth century.

DECEMBER.

- 25. Christmas Day.—Christmas Day is a festival of the Church, universally observed on the 26th December, in memory of the Nativity of our Saviour; and it has been denominated Christ Mass, from the appellative, Christ having been added to the name of Jesus, to express that he was the Messiah, or the Anointed.
- 26. St. Stephen.—He was the first martyr to the Christian faith. Lardner and Doddridge think his death was rather the effect of popular fury than the result of a legal sentence.
- 27. St. John the Evangelist.—This festival is kept to commemorate the slaughter of the Jewish children by Herod. This is also called Childmas Day (from Child and Mass) on account of the Masses said in the Romish Church for the souls of the Innocents.

CIVIL SERVICE REGULATIONS.

NEW RULES FOR THE GRANT OF LEAVE OF ABSENCE FOR REGULATING DEDUCTIONS FROM SALARIES AND DEPUTATION ALLOWANCES, AND FOR LIMITING THE PERIOD-OF SERVICE OF CIVIL SERVANTS.

FORT ST GEORGE, June 27, 1855.

The following Notification of the Government of India is re-published for general information.

FORT WILLIAM, FINANCIAL DEPARTMENT, the 8th June, 1855.

The following Rules for the grant of Leave of Absence for regulating Deductions from Salaries and Deputation Allowances, and for limiting the period of Service of Civil Servants, are published for general information, and will take effect in all the Presidencies and Settlements under the Government of India from the date of the publication of this Notification, in supercession of the Rules of the 17th May 1843 and the 25th August 1854.

CHAPTER I.

BULES FOR APPLICATION FOR LEAVE OF ABSENCE.

Section I. No Leave of Absence from any Office or Station can be granted, but by the Government under which the employment is held, and on the application of the party requiring such leave, saving in such cases as may hereafter be specially excepted. The Commissioners of the Land Revenue and other Officers have heretofore been allow-plicant may belong.

Section II. The official allowances of the holder of a Civil Office quitting his station without leave will entirely cease from the date of his quitting until his return, or, in the event of his subsequently obtaining leave, to the date of such leave being granted to him.

ed to grant Leave of Absence in Bengal.

Section III. No leave of absence shall have any retrospective effect, except in cases of severe illness, to be attested by Medical Certificate, conforming in every respect to the directions contained in Section V.

CHAPTER II.

RULES FOR SICK LEAVE.

Section IV. Upon application duly made, the Government may grant Leave of Absence on Medical Certificate to any Civil Servant, to any place in India, in Europe, or elsewhere, as he may consider most conducive to the restoration of his health, without any restrictions whatever as to the places to which he may resort.

Section V. When an application for Leave of Absence is made on the ground of ill-health, it must be accompanied by a Certificate and a Statement of the case from the Medical Officer by whom the applicant has been attended, distinctly stating, from personal observation, the nature of the disease, the symptoms by which it is manifested, the period during which it has existed, as far as the knowledge of the Medical Officer extends, and the necessity for temporary removal to some other place in India, or in Europe, or elsewhere, as laid down in Section IV.; and, in case of the applicant visiting the Presidency preparatory to obtaining leave, the Certificate must be counter-signed by the

Members of the Medical Board, on their being satisfied, on a perusal of the Medical Attendant's statement of the case, that the leave applied for is absolutely necessary towards his recovery. Should the Applicant's Medical Attendant be of opinion that he ought to proceed to a Sanitarium or other place without visiting the Presidency, the Certificate must, in the first instance, be countersigned by the Superintending Surgeon of the Division in which the applicant may be located, and afterwards submitted with the statement of the case for the consideration and counter-signature of the Members of the Medical Board.

The Certificate shall be given in the following form :-

I, A. B., Surgeon at or of———do hereby certify that E. F., of the Civil Service, is in a bad state of health, and I solemnly and sincerely declare that, according to the best of my judgment, a change of air is essentially necessary to his recovery, and do therefore recommend that he may be permitted to proceed to Sea, (or to such place as the Surgeon may think proper, expressing it in the Certificate.)

The following form shall be observed by the Members of the Medical Board or the Superintending Surgeon, in counter-signing the Surgeon's Certificate:—

We (or I) do hereby certify, that, according to the best of our (or my) professional judgment, after careful personal examination of his case, we (or I) consider the state of health of E. F. to be such as to render Leave of Absence for a period of——absolutely necessary (or highly desirable) for his recovery.

An application for extension of leave must, if the applicant be in India, be accompanied by a Certificate to a like effect from the Medical Officer by whom the applicant is attended, together with a statement showing sufficient reason for the extension solicited; and such certificate must be counter-signed by the Members of the Medical Loand, or by the Superintending Surgeon of the Division, in which the applicant may be located, as the case may be, on perusal of the statement. In like manner, if the applicant shall have proceeded beyond the Territories under the Government of the East India Company, he must furnish a Certificate and Statement to the required effect from a Surgeon or Physician at the place of his temporary residence by whom he has been attended, such attendance, and the period of it, to be stated, and the Certificate to be counter-signed by the Examining Physician of the East India Company if the applicant is in England, or if not in England, by the principal Medical authority of the Colony or the Country to which the absentee may have proceeded, or some sufficient reason stated for the want of such counter-signature if the Certificate be not so counter-signed. The Medical Board or Superintending Surgeon, before counter-signing a Certificate as above mentioned must either personally examine the applicant or state some sufficient reason why they, or he, have or liath been unable to do so. When any of the required particulars are neglected, leave will be refused.

Section VI. The following conditions will in future attach to Leaves of Absence granted to Civil Scivants who may be declared by a sufficient Medical Certificate to require such leave for the recovery of their health:—

1st.—The total period of absence, with the privileges hereinafter provided, shall not (save as specially excepted in Clause 5 of this Section and in Section VII. of these Rules) exceed eighteen months in the whole, nor shall it exceed fifteen months on any one occasion.

2ndly.—The office of the absentee will be considered to be vacated if he shall be absent beyond eighteen months altogether, or beyond fifteen months at any one time unless he shall obtain leave under Clause 5 of this Section, such absence to be computed, if he shall proceed to a Sanitarium within the Presidency, from the date of his arrival thereat to the date of his quitting the Sanitarium; if to any place beyond the Presidency, but within the Continent of India, from the date of his leaving the frontier of his own Presidency, to the date of his return thereto; and if he shall proceed to sea, from the date of the sailing of the vessel on which he may have embarked from any port in India which is not more distant from his station than the ports of his own Presidency,

to the date of his arrival at any port within the Presidency to which he belongs, or at any other port which is not more distant from his station than the ports of his own Presidency.

3rdly.—The absentee will be entitled to draw a moiety of his salary, and the same will be paid to him during such period of absence, provided that he shall in no case draw a larger sum than Rupees 10,000 (£1,000) per annum, during that period. In cases in which the emolument of the absentee's office does not exceed Rupees 5,000 per annum, no deduction therefrom shall be made for the period of eighteen months, nor shall such a deduction be made in other cases as shall reduce the allowance below Rupees 5,000 (£500) per annum. In cases in which the salary of the absentee may not be of that amount, the full salary will be granted.

Athly.—For the interval elapsing between departure from station to the commencement of reckoning absence or between the end of reckoning absence and re-arrival at station, the absence will be allowed a special leave for an additional period of one month, two months or three months according to the distance to be travelled as prescribed in Section XX. of these Rules, and during this additional period the absentee will be entitled to draw the same salary as is allowed by Clause 3 of this Section.

5thly.—If the absentee shall apply under Medical Certificate, to remain absent for a longer period than eighteen months or fifteen months at any one time, and it shall appear to the Hon'ble the Court of Directors to be absolutely necessary after examination by their Medical Officer in England, that he should do so; the leave which may have been granted in India will, under the orders of the Honorable Court, be extended to the limit of two years, with permission to retain Office, and half salary within the limits enjoined, during such extension.

6thly.—If the Absentee be compelled by the state of his health, under due Medical Certificate, to remain absent for a longer period than eighteen months, or fifteen months at any one time, or beyond two years in the case of an extension under Clause 4, he will, as before stated, vacate his appointment, but he will be permitted to receive an allowance at the rate of £500 per annum, if above ten years standing at the time when the leave was granted, or of £250 if not above ten years standing at the time when the leave was granted, for such further period of absence as shall not exceed the entire term of three years in the whole. At the expiration of that term, all allowance must cease until he reports his return to his Presidency.

Section VII. If a Civil Servant of more than fifteen years' service, after having been absent on sick leave for eighteen months in the whole, or for fifteen months at one time, at whatever period of his service such Sick Leave shall have been taken, shall be again compelled by the same cause to apply for Leave of Absence, the Government of India and the subordinate Governments may, on special grounds, grant Leave of Absence for one further period not exceeding six months, during which the absentee may retain his office, and half his salary under the limits above enjoined.

Section VIII. If a Civil Servant, after fifteen years' service, shall be compelled by ill health to apply for further Leave of Absence, he may be permitted on special grounds to obtain it, but his absence will involve the loss of office and salary; the Government of India and the subordinate Governments will however, respectively, exercise a discretionary power to grant, in such lastmentioned case, a sick absentee allowance, not exceeding Rupees 5,000 or 2500 per annum, for a further period not exceeding twelve months.

Section IX. A Civil Servant who has taken Sick Leave under the Rules the 17th May 1843, will not be debarred by that circumstance, from taking such leave again under the above Rules, with the privilege of retaining Office, provided the leave be not granted till three years have expired after his return from his leave under the Rules of the 17th May 1843.

Section X. None of the abovementioned Rules will be applicable to

Members of Council. Each Member may, however, with the special sanction of the Government, be permitted to be absent, under Medical Certificate, for a period not exceeding six months, retaining his office and receiving half his salary, which shall be paid to him during such absence, but if his absence shall exceed six months, his office will be vacated.

Section XI. Civil Servants who may desire to draw their allowances while absent on account of sickness under the above Rules, will be required to give security in such amount and form as may be fixed by the Government for the refund of any excess that may be drawn either by the Agents at the Presidency or by themselves in case of their coming under retrenchment.

CHAPTER III.

RULES FOR SHORT LEAVE ON PRIVATE AFFAIRS.

Section XII. The Government may grant to Civil Servants Leave of Absence to any place in India, Europe or elsewhere, without any restrictions whatever as to the place to which they may resort for one month in each year, without deduction from the salaries and emoluments drawn by such Servants—such leave, however, will only be granted when the Government is satisfied that no inconvenience will arise from the departure of the Officer seeking it. No second leave can be granted under this Rule until the completion of eleven months from the expiration of the last leave; but Servants not availing themselves of the indulgence in any one year, may obtain, under the like conditions, Leave of Absence for two successive months, to commence at or after the expiration of twenty-two months from the termination of their former leave; and if two years elapse without enjoyment of the privilege, leave for three months may, in like manner, be granted at the expiration of thirty-three months from the termination of the last preceding leave; but no leave shall be granted under this Rule for any period exceeding three months. If an Officer shall not return at the expiration of the period of leave granted him under this Rule, he shall forfeit all pay and allownaces during the time of his remaining so absent without leave, and if he shall so continue absent for more than one month beyond the term granted, his office shall become vacant.

Civil Servants absent fron their stations under medical certificate cannot be admitted to leave under this Rule in continuation of their sick leave; and if, while absent under this Rule, they be granted extended leave under medical certificate, they shall be considered liable to the Rules applicable to Leave of Absence on Medical Certificate for the whole period of their absence.

Civil Servants who have been absent on medical certificate during any portion of a calendar year are not entitled to leave under this Rule during that year; but in determining the interval necessary to entitle a person to leave under this Rule, no reference will be made to any intermediate Leave of Absence that may have been granted under Section XIV. Clause I.

Section XIII. As a general Rule, when leave is granted under Section XII., such leave will be in one period only, whether for a whole month or less, and not in detached portions to complete one month within the year, and the term year shall be held to mean the calendar year commencing with the 1st of January and ending with the 31st December, but as an exception to this Rule, it shall be discretional with the several Local Governments, where good cause is shown for the indulgence, and it is attended with no public inconvenience, to sanction Leave of Absence under this Rule to such parties as may not have occasion to apply for the whole at once, in instalments, not to exceed in the aggregate one month within the calendar year, on the understanding that no leave can be granted for any fresh calendar year until the completion of three months from the expiration of the entire leave or of the last instalment of leave taken in the past calendar year.

Section XIV. Clause I. The Government may, on sufficient cause being shown, grant to a Civil Servant special leave of absence on Private Affairs for six months, to any place in India, Europe or elsewhere, without any restrictions

whatever as to the places to which he may resort, provided, however, that if any Officer to whom such leave shall be granted shall be absent from his station for any period exceeding that to which he may be entitled without deduction, under Section XII., the absentee shall, for the period in excess, draw no more than one-half of his salary and allowances. After an absence of six months (exclusive of any period which may be granted under Section XII.) any office held by the absentee shall become vacant.

Clause II. The leave granted under this Section will be computed from the date of the Absentees' quitting his station to the date of his return thereto, and a second leave of the same description cannot be taken till the expiration of six years from the date of return to duty from a former leave. No portion of the half salary sllowed to be drawn will be claimable till the absentee shall have returned to his duty.

Clause III. It will be understood that leave under this Section is not to be granted as a matter of course to every applicant, but that it will be the duty of the Government to consider and determine whether the grounds of the application are sufficiently urgent to justify the concession of the leave.

CHAPTER IV.

FURLOUGHS ON PRIVATE AFFAIRS.

Section XV. In the place of the period of three years (in one term,) for which Furlough has hitherto been granted, Civil Servants will be allowed the option of taking a Furlough of three years as at present, or of dividing the Furlough into three periods of one year each, to be taken after successive periods of seven years' service or into two periods, which may either be of one or two years respectively, or of eighteen months each, provided that, in every case, the Civil Servant shall declare, on taking his Furlough, whether he intends it to be for twelve, eighteen, twenty-four or thirty-six months, in order that the Government may make its arrangements accordingly. In case of a division, into two periods, the first Furlough must be taken after a residence of not less than ten years, and the second Furlough after a further residence in India of ten years from the date of return from the first Furlough; but Civil Servants returning on Furlough to Europe will continue, as at present, to vacate their offices.

Section XVI. The Furlough Allowance granted during the periods mentioned in the last Section, will be at the rate of £500 per annum, and the receipt of it will not, on any grounds whatever, be permitted for any longer period than three years.

Section XVII. Civil Servants who may have been compelled by sickness to quit their duty under Medical Certificate, before completing seven years' residence in India, will be entitled to receive during their Furlough on Private Affairs, taken subsequently to their completion of that period of residence, the ordinary Furlough allowance of £500 per annum for three years.

Section XVIII. Clause I. In applying the foregoing Rules in substitution of those before existing, periods of absence to the limit of three years, will count as service in India in the twenty-five years entitling to the annuity, the present qualification of twenty-two years' residence being retained.

Clause II. Absence on Medical Certificate to the extent of one year will reckon as Service and residence in India, and be so computed in addition to the three years of absence which under the Clause next preceding are allowed to be reckoned as Indian Service. All periods of short leave of Absence on Private Affairs taken under Sections XII. and XIV. of these Rules will also count as service and residence.

Section XIX. Military Officers employed in the Civil Department, will be subject to the Rules laid down in General Orders No. 1180, dated 17th November 1854, for the grant of Leave of Absence and Furlough to Officers holding Military Staff Appointments.

CHAPTER V.

RULES FOR JOINING STATIONS.

Section XX. There shall be allowed to Officers

Note.—The time allowed for joining is computed from the date of the Order reaching the Officer appointed.

There shall be allowed to Officers appointed to any new Office the periods of one month, two months, or allow-three months for joining, accordingly as the distance may not exceed 300 or 600 miles, or be in excess of the last-mentioned distance. Officers not joining their station within the said periods, respectively, shall forfeit their salary for the time delayed in excess of the above periods, and if such one month, the office shall be vacated, unless otherwise

excess shall exceed one month, the office shall be vacated, unless otherwise specially ordered by Government.

Section XXI. Upon the first appointment of any Civil Servant, who shall be reported qualified for Public Service by the Examiners appointed by the Government, to any Civil Station, there shall be allowed for travelling expenses to the station, an allowance at the rate of 8 annas per mile, by the direct Post Road, according to the Polymetrical Table of the Post Office, the bill for which allowance will be passed by the Civil Auditor, after the Officer shall have joined the station: if required in advance, an order of the Government shall be necessary.

Section XXII. The salary of office will be payable from the date only of the Officer joining, but in case of Junior Civil Servants, the salary of Assistants will be payable from the date of their being reported qualified for the Public Service, unless forfeited under the preceding Rule, through delay in joining the Station to which they may be appointed.

Section XXIII. In case of a change of office, when an Officer is appointed to a higher situation, he shall not draw the higher salary until he joins. For the period occupied in travelling, the Rule No. XX, regulating the time and distance for joining Station, shall be applicable, and the Officer will, for the periods allowed in that Rule respectively, draw out of the salary of the office he is about to join, a sum equal to that of his previous situation.

CHAPTER VI.

RULES FOR DEPUTATION ALLOWANCES.

Section XXIV. The sum of Company's Rupees 52,200 per annum having

Note.—This Rule will equally apply in case of a Political Resident taking a leave of one, two, or three months, for which in, other cases he would suffer no deduction. The excess above the maximum monthly salary will in that case be enjoyed by the person in charge.

been fixed, under the orders of the Court of Directors, as the maximum salary of Civil Office for the offices of Government under the situation of Member of Council, Civil Servants who may draw larger allowances than this annual sum, as a consolidated personal and sumptuary allowance, in consideration of the necessary expenses of their position, will, in all cases of absence, be treated in respect to deductions as drawing only the allowance thus limited, and the excess above the monthly salary yielded by that annual sum shall remain as a local addition the usual Deputation Allowance to be drawn by the Officer performing the duties, to meet the necessary

expenses of his position; provided however, that in the cases of Civil Servants appointed to offices of the description referred to subsequent to the 2d June 1854, the sum of Rupees 50,000 shall be held to be the maximum salary, under the Government Resolution, No. 563, of that date.

Section XXV. Deputation Allowances shall be granted to Civil Servants temporarily performing the duties of an office according to the following rates, and subject to the limitations and conditions hereinafter laid down:—

To Civil Servants not holding any substantive appointment, at the rate of 50 per cent, on the monthly salary of the appointment officiated in, such Deputation Allowance being in addition to the Subsistence Allowance of their respective ranks.

To Civil Servants holding an office of inferior emolument, when officiating in an office of superior emolument, at the rate of 20 per cent. upon the monthly salary of the appointment officiated in, in all cases in which the salary of such appointment shall not exceed Company's Rupees 2,000 per mensem, and in respect to all appointments of which the salary shall be more than Company's Rupees 2,000 per mensem, at the rate of 20 per cent. upon Company's Rupees 2,000, and of 10 per cent. on the amount in which the monthly salary may exceed Company's Rupees 2,000, provided however that no lower rate of Deputation Aflowance shall be given than Rupees 200 per mensem.

The Deputation Allowance shall in all cases be in addition to the salary of the substantive appointment held by the Officer on Deputation.

The above rates are granted provisionally, subject to future revision.

In the Punjab, Nagpore and other places, where appointments are by classes, the amount of Deputation Allowances, payable at the above rates, will be calculated, not upon the salary of the individual Officer holding the substantive appointment in which the Officer deputed may be temporarily officiating, but on the average rate of salary attached to the particular class to which the appointment may belong.

A Civil Servant acting for another shall have no claim to Commission or Fees, where any such sources of emolument exist. These shall be regarded as forming part of the income of the Officer to be relieved, subject to the prescribed deductions.

A Civil Servant acting in an appointment, the salary of which is to be reduced on the retirement of the present incumbent, will draw Deputation Allowance on the reduced salary.

An Officer officiating in more than one appointment will be entitled to Deputation Allowance, regulated by the aggregate amount of the salary of the Offices.

An Officer appointed permanently to a higher situation, but prevented from joining his appointment by an order of Government, and detained to officiate in a situation of still higher emolument than the one to which he has been permanently appointed, will be entitled to a Deputation Allowance in addition to the higher salary to which he has been promoted.

Section XXVI No Civil Servant, temporarily officiating for another, shall draw an amount larger than the entire emoluments of the office in which he is officiating, and if the amount of the Deputation Allowance, according to the prescribed scale, added to the permanent emoluments of the officiating Servant, would exceed the emoluments of the office in which he is temporarily acting, the excess shall not be drawn. But this provision shall not apply to the case of any Officer deputed for special reasons to act in an office of inferior emolument to his own. In cases where an Officer holding two appointments, on being deputed to officiate for another, shall be relieved only from one, he shall receive no Deputation Allowance, unless the emoluments of the office in which he is deputed to act exceed the united emoluments of his permanent appointments, and in that case the Deputation Allowance shall be limited to the difference.

Section XXVII. No Subordinate Officer acting for his principal or for any other person holding a superior appointment in the same office or establishment, at the same station, shall be entitled to any Deputation Allowance until after the expiration of one month, and then the allowance is not to be drawn in arrear. But a Servant previously out of employment, or who may be deputed to act from a different station, shall be entitled to Deputation Allowance from the date at which he may enter upon the discharge of the duties to which he has been temporarily appointed.

Section XXVIII. Civil Servants, if deputed to act at a distance from the Stations where they are employed, or if ordered by Government on special duty, shall be permitted to draw Travelling Allowances at the rate sanctioned in the case of a first appointment.

CHAPTER VII.

RULES FOR LIMITING THE PERIOD OF SERVICE.

Section XXIX. After thirty-five years' service no Civil Servant shall be appointed to any new Office, nor be permitted to retain an office which he has held for a period of five years and upwards, except in special cases, which are to be referred for the decision of the Hon'ble the Court of Directors. This Rule will be applicable to every Civil Servant appointed to office after its promulgation, and to the case of every other Civil Servant to whom it relates at the close of five years from the 25th August 1854.

CHAPTER VIII.

RULES FOR THE GRANT OF LEAVE OF ABSENCE TO LAW OFFICERS.

Section XXX. The East India Company's Law Officers may obtain Sick Leave and Short Leave on Private Affairs under the conditions prescribed in the case of Civil Servants, both as respects the periods of absence and the limitation of allowances during such absence. Leave will however only be granted at the convenience of the Government, and no additional expense will on any consideration be incurred by the Government on account thereof.

If any Law Officer shall quit his duty, save on leave under Medical Certificate, or on Short Leave on Private Affairs, he will be considered to have vucated his appointment.

CHAPTER IX.

RULES FOR CHAPLAINS AND ASSISTANT CHAPLAINS.

Section XXXI. Chaplains and Assistant Chaplains may take Furlough on Private Affairs and on Medical Certificate, also privilege leave and leave for short periods on Private Affairs, and on Medical Certificate in or out of India, on the same terms and conditions as Military Officers, with the following modifications:—

1st.—Chaplains being allowed to retire after twenty years' service, the period of Furlough on Private Affairs, is in their case limited to the present term of three years. The Furlough may however either be taken in one period, or be divided into two periods, whether of eighteen months each, or of two years and one year, respectively, and if divided, the first Furlough may be taken, as at present, after seven years' residence, and the second Furlough after a further residence of ten years in India. As respects Chaplains and Assistant Chaplains appointed before the 11th January 1854, when the period of Service was only eighteen years, their second Furlough, if they should exercise the option of taking Furlough in two periods, will be available after a second residence in India for a term of eight years.

2ndly.—No Furlough or Leave of Absence, whether on Private Affairs or on Sick Centificate, taken in Europe or elsewhere out of India, in excess of three years, will be allowed to count as Service in India in the twenty years which qualifies Chaplains for their retiring Pensions.

Section XXXII. The Furlough Pay of Chaplains will remain as at present. With regard to their allowance during Sick Leave to any place out of India, they shall receive salary (but at a rate not exceeding £600 per annum) for the first six months of absence, and, for the remaining twelve months, an allowance equal to the Furlough Pay of their standing. If the Leave be extended, an allowance equal to Furlough Pay may be drawn for a further period of eighteen months.

By order of the Hon'ble the President in Council.

(Signed) C. H. LUSHINGTON, Secy. to the Govt. of India. By order of the Right Hon'ble the Governor in Council.

T. PYCROPT, Chief Secretary.

MODIFICATION OF THE CIVIL ABSENTEE RULES.

FORT ST GEORGE, January 22, 1856.

MODE OF SUBMITTING TO GOVERNMENT APPLICATIONS FOR LEAVE OF ABSENCE UNDER THE NEW CIVIL ABSENTEE RULES.

No. 396.

FORT ST. GEORGE, PUBLIC DEPARTMENT, the 23d March 1855.

Notification.—Considerable inconvenience having been experienced from the present mode of submitting to Government applications from Civil Servants for leave of absence under the new Code of Civil Absentee and Furlough Rules, the Right Honorable the Governor in Council resolves, in supercession of the

13th Oot 1840, published at page 707 of the Govt Gazette. 30th Nov. ... 839 ... 839 ... 608 ...

orders noted in the margin, to direct that in future all such applications, as well as references respecting their

allowances and the interpretation of the Rules, be forwarded through the Civil Auditor, who will submit them to Government with his report.

- 2. In like manner all applications and references of a similar nature on the part of Officers in the Ecclesiastical Service, or Military and Medical Officers in Civil employ, will for the future be submitted to Government through the Military Auditor General accompanied by his report.
- 3. Applications for leave of absence shall specify the particular Section of the Absence Rules under which the indulgence is solicited, and the destination to which the applicant purposes to proceed—and when required to pass through one or more superior authority, they shall not be accompanied by a separate letter, but the original application alone shall be forwarded to Government with the opinion or recommendation of each authority superscribed thereon in the order of progress.
- 4. The Civil Auditor will see that applications from Civil Servants for leave of absence on account of sickness are supported by the required Medical Certificates duly countersigned—and that those for Furlough on private affairs are also accompanied by the prescribed Certificates, viz.: that there are no public demands against the applicants—and that they will receive no allowance from the Civil Fund. The Civil Auditor will further see, in all cases in which it may be necessary, that the Security to be furnished by applicants for sick leave under Sec. XII. of the new Absentee Rules provides also for the discharge of any demands that may eventually appear against them on the Books of this Presidency. The Civil Auditor will be careful that no avoidable delay occurs in reporting upon applications for leave of absence.
- 5 Civil Servants applying for permission to resign the Honorable Company's Service will invariably submit with their applications a Certificate from the Accountant General of there being no public demands against them.

By order,

RULINGS OF THE GOVERNMENT OF INDIA ON CERTAIN POINTS CONNECTED WITH SECTION VI. OF THE NEW CIVIL ABSENTEE RULES.

Letter from Secretary to Government of India, to Officiating Secretary to the Government of the North Western Provinces, dated 3d October 1856, No. 4538.

- Para. 2. "In reply to your first enquiry, whether an Officer taking Medical leave to the Hills can get that leave extended to go to Europe, I am directed to state that the Right Hon. the Governor General in Council has been pleased to rule that an Officer taking Medical leave to a Sanatarium within the Presidency may get his leave extended to proceed to Europe; but he will not be entitled to a fresh preparatory leave for reaching the Port of embarkation, having once been allowed such leave to proceed from his station to the Sanatarium. The Medical leave in such cases must reckon from the date of arrival at the Sanatarium to the date of return to the Port of debarkation.
- 3. In regard to the 2d point, whether an Officer taking Medical leave to the Hills and being again (after rejoinig his appointment) obliged to take Medical leave to Europe, can do so, retaining his appointment and half salary, or must an interval of 3 years elapse, His Lordship in Council does not think that the 3 years interval applies to leave of absence ou Medical Certificate taken

under the new rules. There is, His Loidship in Council observes, the 18 months leave that may be granted under Clause 1 of Section VI (capable of extension to 2 years under clause 5 of the same Section) and the 6 months special leave that may be granted under Section VII, but as that is all that can be given without loss of appointment during full service in India, and as there is therefore no inducement for an Officer to take leave if he can avoid it, the Right Honorable the Governor General in Council is of opinion that it is unnecessary to prescribe any fixed interval between Medical leave taken to the Hills and that taken to Europe under Sections VI. and VII."

No. 25.

FORT WILLIAM, FINANCIAL DEPARTMENT, the 27th June 1856.

Notification.—It is hereby notified for general information, that the Right Honorable the Governor General in Council has been pleased to resolve, that the special leave allowed under Clause 4 of Section VI. of the Civil Absentee Rules of the 8th June 1855, for the interval clapsing between departure from Station to the commencement of reckoning absence on sick leave, or between the end of reckoning absence on sick leave and re-arrival at Station, shall no longer be calculated in the manner laid down in the above Clause and Section, but at the rate of one day for every ten miles of the distance to be travelled, provided that the limit of three months shall in no case be exceeded, and that the whole time claimed shall have been spent bond-fide between the place of departure and the place of destination.

It is to be understood, that the Rule now laid down will not interfere with the Rule prescribed for joining Stations in case of Officers appointed to any new Office.

QUESTION CONNECTED WITH PRIVILEGE LEAVE UNDER THE CIVIL ABSENTEE RULES.

Resolution of the Government of India in the Financial Department, dated 26th September 1856, No. 4363.

- Para 1. The Government of Fort St. George enquire whether, when a Civil Servant may have had occasion to take a short leave so as to break in on the 22 or 33 months of continuous service required to qualify for two and three months leave respectively under Section XII of the Civil Absentee Rules, the whole remainder may still be taken; and they recommend at the same time that Officers be allowed to avail themselves of leave in such portions as they may find convenient, provided that the Public Service is not thereby deranged.
- 2. The Right Honorable the Governor General in Council is unable to sanction any deviation from the strict letter of the rule, which does not allow of more than one months's privilege leave being taken in instalments.

AMENDMENTS OF SECTIONS XII. AND XIII. OF THE NEW CIVIL ABSENTEE RULES.

FORT ST. GEORGE, May 27, 1856.

The following Notification by the Government of India, is republished for General information.

No. 18.

FORT WILLIAM, FINANCIAL DAPARTMENT, the 8th May 1856.

NOTIFICATION .- The Right Honorable the Governor General in Council is pleased, in conformity with the instructions of the Honorable Court, conveyed in their Financial Despatch No. 25 of 1856, dated 12th March, to direct the publication of the following amendments of Sections XII. and XIII. of the new Civil Absentce Rules, in supercession of so much of the Resolution of this Government in the Financial Department, under date the 22nd December 1855,

as regards the Sections in question :-

Section XII. The Government may grant to Civil Servants leave of absence to any place in India, Europe or elsewhere, without any restrictions whatever as to the place to which they may resort, for one month in each calendar year, without deduction from the salaries and emoluments drawn by such servants. Such leave, however, will only be granted when the Government is satisfied that no inconvenience will arise from the departure of the Officer seeking it. No second leave can be granted under this Rule, until the completion of eleven months from the expiration of the last leave, if taken at one time; or from the date of return from any Sick leave, or until the completion of six months from the expiration of the last instalment of a leave, if it has been divided. Servants not availing themselves of the indulgence in any one year may obtain, under the like conditions, leave of absence for two successive months, to commence at or after the expiration of twenty-two months from the termination of their former leave; and if two years clapse without enjoyment of the privilege, leave for three months may, in like manner, be granted at the expiration of thirty-three months from the termination of the last preceding leave; but no leave shall be granted under this Rule for any period exceeding three months. If an Officer shall not return at the expiration of the period of leave granted him under this Rule, he shall forfeit all pay and allowances during the time of his remaining so absent without leave; and if he shall so continue absent for more than one month beyond the term granted, his office shall become vacant.

Civil Servants absent from their Stations under Medical certificate cannot be admitted to leave under this Rule, in continuation of their Sick leave; and if, while absent under this Rule, they be granted extended leave under Medical certificate, they shall be considered liable to the Rules applicable to leave of absence on Medical certificate for the whole period of their absence

Civil Servants, who have been absent on Medical certificate during any portion of a calendar year, are not entitled to leave under this Rule during that year; nor can leave under this Rule be taken in connection with, or continua-

tion of, leave granted under Section XIV. Clause I.

Section XIII. As a general Rule, when leave is granted under Section XII., such leave will be in one period only, whether for a whole month or less, and not in detached portions to complete one month, but as an exception to this Rule, it shall be discretional with the several Local Governments, when good cause is shown for the indulgence and it is attended with no public inconvenience, to sanction leave of absence under this Rule to such parties as may not have occasion to apply for the whole at once in two instalments only, which are not to exceed in the aggregate one month within the calendar year.

PRIVILEGE LEAVE TO CIVIL SERVANTS.

FORT ST. GEORGE, July 29, 1856.

The following Notifications by the Government of India, are republished for general information.

No. 32.

FORT WILLIAM, FINANCIAL DEPARTMENT, the 11th July 1856.

Notification.—Extract from a despatch from the Honorable the Court of Directors addressed to the Government of India, in the Financial Department, No. 40 of 1856, dated the 21st May .-

Letter from, dated 29th Nov. 1855, No. 161.

Forward copy of Correspondence with the Government of Bengal, and with reference thereto submit for orders the question whether a Civil Servant should be permitted to receive his Allowances during privilege leave or only upon his return to duty.

Para. 3. You will observe from para 18 of our Despatch in this Department, dated 6th February 1856. No. 11, that a Civil Servant must return to his duty at the expiration of his "privilege" leave to entitle him to the advantages thereof. His allowances will therefore not be payable till he shall have rejoined his appointment.

Extract from a Despatch from the Honorable the Court of Directors, addressed to the Government of India, in the Financial Department, No. 11 of 1856, dated the 6th February:-

18.

Letter from, dated 18th July 1855, No. 91 .-Report Proceedings in this Department for the 4th Quarter of 1854.

(75.) Mr. R. Money, Officiating Judge of Moorshedabad, not having been absent from his post for two years, before the promulgation of the new Absentee Rules has been granted the benefit of accumulated privilege leave under Section XIII of the Rules, on the ground that service before, as well as after, the introduction of the new Rules reckoned towards qualifying for the privilege.

We observe that this "privilege" leave was granted to Mr. Money preparatory to his proceeding on Furlough; but "privilege" leave ought only to be allowed when it is the intention of the Servant to return to his duty at the close of it. The object of the indulgence should be kept in view, and the advantage of leave, with full salary, should be reserved for those Servants who, having been at their stations for eleven consecutive months, (or longer if the leave be accumulated) require a little relaxation, and after enjoying it return to their

duty. It is the Rule that if a Civil Servant, whilst absent on "privilege" leave, be granted extended leave, under Medical certificate, he shall be considered liable to the Rules applicable to leave of absence, on Medical certificate, for the whole period of his absence; and we see no reason for maintaining a different practice when a Furlough on private affairs is taken in extension of "privilege" leave. In the latter case, a moiety only of salary should be drawn up to the date of the absentee's quttting India on Furlough allowance.

CONSTRUCTION OF THE NEW CIVIL ABSENTEE RULES.

FORT ST GEORGE, August 10, 1855.

The following Extract from a despatch from the Hon'ble the Court of Directors addressed to the Government of India, in the Financial Department, No. 40 of 1855, dated the 2d May, is published for general information.

Letter dated 26th December 1854, No. 120. Forward correspondence with the Government of Madras on points regarding the construction of the New Civil Absentee Rules.

Para 3. Our decision has already been passed on some of the points referred by the Government of Madras and we concur in your replies to that Government as to the construction of the New Rules to the following effect.

We reiterate them for the purpose of preventing any misunderstanding.

- 1st. That a Civil Servant who has already done duty for a continuous period of 22 or 33 months without enjoyment of "privilege" leave may now obtain leave of that description for 2 or 3 months, i. e. without waiting the expiration of 22 or 33 months from the date of the promulgation of the new Rules.
- 2d. That Military and Medical Officers in Civil employ shall be subject, in respect of "privilege" leave and short leave on private affairs, to the same rules as Officers holding Military and Staff Appointments; and that Chaplains shall be granted such leave on the same conditions as Military Officers. It is scarcely necessary to say that privilege leave, &c., will not be granted except by the authority and at the convenience of Government or of the Lord Bishop as the case may be.
- 3d. That a Civil Servant who, as a junior of less than 10 years' residence has taken sick leave to Europe is nevertheless entitled to a Furlough for three years on £500 a year, after completing 10 years' residence in India.
- 4th. That a Civil Servant who has taken Sick Leave under the Old Rules, is not debarred by that circumstance from taking sick leave again under the New Rules. We have already provided, however, that the leave cannot be granted with the privilege of retaining office until a period of 3 years shall have elapsed from the servant's return from his former leave.
- 5th. That the new scale of Deputation Allowance be permitted to take effect from the 1st October 1854, the date of the promulgation of the New Rules, in respect of all acting appointments existing at that date.

APPLICATIONS FOR PREPARATORY LEAVE TO DECLARE THE OBJECT CONTEMPLATED.

FORT ST. GEORGI, October 5, 1855.

The following Notification of the Government of India is published for general information.

Foreign Department, Octacamund, 24th September 1855.

The practice, under which Officers, holding appointments directly under the Supreme Government, are entitled to obtain furlough on private affairs, or on Medical certificate, or otherwise, from the Governments of Bombay and Madras without any reference to the object contemplated by them when applying to the Supreme Government for preparatory leave, having been found to be productive of considerable inconvenience, the Most Noble the Governor General is pleased to direct, that in future all Officers in the position described above, to whatever Presidency they may belong, shall, in making application for preparatory leave, declare from what port it is their intention to embark, and whether they desire to obtain a Furlough on private affairs, or on Medical certificate, or with a view of ultimate retirement from the service of Government. A copy of such application will be communicated in due course to the Local Government, in order to provide against any other furlough being granted other than that contemplated.

2. In cases, in which Medical certificates may be produced, setting forth the urgent necessity of *immediate embarkation*, the Local Government shall be at liberty to use its discretion in granting permission for such embarkation. But

the term, for which leave is taken, and the conditions on which it is taken, must be understood to rest ultimately with the Government of India, and shall not depend on the Local Government.

ABSENTEE ALLOWANCES TO JUNIOR CIVIL SERVANTS AND ADMINISTRATORS GENERAL.

letter from, dated 26th January 1855, No. 10 Forward letter from Messrs W. J Hay and C J Jenkins, two junior members of the Civil Service, and submit for Court's orders the question, whether, in the event of junior Civil Servants obtaining leave of absence on Medical certificate under the new Rules, they are still en-titled as under the old Rules, to the grant of Rupees 2,000 as passage money to Europe.

Letter from, dated 15th February 1855, No. 18 Forward in continuation of letter No 10, dated 26th January, an application from Mr C J Jenkins, requesting, in the event of the Court deciding to grant him passage money to Europe, that the same may be payable to him at the India House.

Letter from, dated 9th February 1855, No 16

Submit for favourable consideration correspondence with the Government of Madras, enquiring whether the Rules for the grant of leave of ab-sence to Law Officers, contained in Chapter VIII. Section 31 of the New Civil Absence Rules, are to be held to apply to the Administrator General

Having in our Despatch, dated 28th March 1855, No. 25, admitted junior Civil Servants returning to Europe on sick certificate, to precisely the same advantages during absence as their seniors, who may have served for ten years and up. wards, and having also conceded the advantage which they did not before enjoy of taking furlough on private affairs after ten years' residence, notwithstanding their previous absence, it is not our intention to continue the passage allowance of Rupees 2,000 granted under the old Rules in such cases.

We have approved of the leave of absence to Europe which has lately been granted by the Local Government to Mr. Serle, the Administrator General at Madras, and we sanction the application of Section 31 of the new Absentee Rules to the Administrators General at the three Presidencies.

PERIOD WITHIN WHICH SERVANTS PERMITTED TO PROCEED ON FURLOUGH SHALL VACATE THEIR SITUATIONS.

Order of Government, dated 18th November 1828.

The Right Honorable the Governor in Council has been pleased to resolve, that all persons who may be permitted to proceed to Europe, with the benefit of the Absentee Allowance, shall vacate their situations, and avail themselves of the indulgence, within three months from the date on which it may be granted.

REGULATIONS REGARDING EXTENSION OF LEAVE UNDER THE ABSENTEE REGULATIONS OR ON SPECIAL LEAVE.

Extracts from a letter from the Honorable the Court of Directors.

Para. 1. We have to acquaint you that we have adopted the following Regulations, with respect to the grant of extension of leave to Members of the Indian Civil Establishments repairing to this country under the Absentee Regulations, or on special leave of absence, viz.

That Civil Servants coming to England under the Absentee Regulations, or on special leave, shall immediately on their arrival report themselves with their address by letter to our Secretary, forwarding at the same time the certificates which they receive in India.

That in all cases of leave, Civil Servants be required to join the Establishment to which they belong at the expiration of the term for which leave may have been granted, unless they shall have obtained an extension of it from us six months before the expiration of the said leave.

That extensions of leave will not in future be granted by us except in cases of sickness certified to our satisfaction, or in cases in which it shall be proved that a further residence in Europe is indispensably necessary.

That when under any such circumstances a Civil Servant shall have obtained an extension of leave to a given period, he must at the expiration thereof apply for and obtain our permission, either to return to his duty, or to reside a further time in Europe, failing in which, he shall be liable to be struck off the List of Civil Servants.

That the Act of the 33d, Geo. 3d, Cap. 52, Sec. 70, as it respects Civil Servants applies only to cases of sickness, or inevitable accident or infirmity, and that no Civil Servant be hereafter considered eligible to return to the service after 5 years' absence, under that enactment, who has failed to obtain from us agreeably to the foregoing Regulations an extension of leave under the circumstances referred to in the Act.

2. We desire that the foregoing Regulations be published for general information, and that each Civil Servant returning to this country under the Absentee Regulations, or on special leave, be furnished with a copy for his guidance

PUBLIC OFFICERS INTERDICTED FROM PECUNIARY DEALINGS WITH NATIVES RESIDING WITHIN THEIR JURISDICTION.

FORT ST. GEORGE, March 7, 1856.

The following Notification by the Most Noble the Governor General in Council is republished for general information.

No. 1070.

FORT WILLIAM, FOREIGN DEPARTMENT, the 20th February 1856.

With reference to the Notification dated the 25th July 1854, No. 3200, "absolutely prohibiting the Officers of Government, of whatever rank or class, from selling or being concerned in the sale of property of any amount or description to Native Princes and Chiefs, or to their relatives or Ministers, or to any Native Gontlemen of rank or opulence residing under the protection of the British Government," the Governor General in Council is pleased to notify that the Notification in question was not intended to apply in its full strictness to any but Political Officers, and Officers discharging Political as well as ordinary civil functions, whether employed directly under the Government of India, or under any of the Local Governments, and that in regard to all other Officers, the order of the 31st October 1821 is to be considered as still in force.

But His Lordship in Council is strongly impressed with a sense of the necessity for discouraging as much as possible pecuniary dealings of every description between Public Officers and Natives under their authority or residing within their jurisdiction, or in their vicinity, and the permission of Government will never be given to any transaction of the kind if it should appear to afford even a plausible ground for suspicion of improper motives on the part either of the buyer or the seller.

NOTICE.

FORT Sr. Grorge, Accountant General's Office, 19th April 1856.

- 1. In order to ensure the exhibition in the year's Accounts, of the Collectors and others, of all charges appertaining to that year which may be actually disbursed within it, it has been deemed necessary to instruct Collectors and others in charge of Treasuries to grant Bills to the Civil Officers permanently attached to their Districts, who may be officiating, or doing duty, or who may be absent on leave, in other Districts, or at the Presidency, for the net amount of *Salary, &c. due to them for their permanent Appointments; and to adjust their Abstracts in their Accounts.

- Under this arrangement Collectors and other Officers in charge of Treasuries, in whose Districts any Civil Officers may hold officiating appointments, or be doing duty or may be residing on leave, will not have to disburse to such Civil Officers cash on their abstracts for the salaries, &c. which may be due to them for their permanent appointments held in other Districts.

PRE-AUDIT OF BILLS ON ACCOUNT OF SALARIES IN THE CIVIL DEPARTMENT.

NOTIFICATION.

FORT ST. GEORGE, Civil Auditor's Office, 27th June 1856.

1. In pursuance of the orders of Government in the Financial Department, No. 298, dated the 24th instant, communicating their approval of the adoption of a pre-audit of all bills on account of Salaries in the Civil Department of this Presidency, the Civil Auditor requests the attention of all Officers in charge of Public Treasuries, by whom Civil Salaries are disbursed to the instructions already issued to them from his Office; and that they will be careful not to discharge any bill for Salary and other allowances that may be presented to them for payment, which has not been passed by the Civil Auditor. All bills audited and bearing the signature of the Civil Auditor will be regarded by disbursing Officers as authority for discharging the same.

2. Officers in charge of Treasuries both at the Presidency and in the Provinces will cease to furnish the Audit Office with Journals or other accounts except those mentioned below; but will forward to the Accountant General the audited bills bearing their initials and Treasury Stamp in token of their discharge, along with their usual monthly Journals, as vouchers in support of the charges entered therein. The disbursing Officers will require receipts in dupli-

cate of the amount paid to individuals for record in their Office.

3. The practice of furnishing Certificates of last payment made in the Civil Department by disbursing Officers both at the Presidency and in the Provinces, will henceforth be discontinued, as these documents will not under the new system be required for the purpose of audit. The CivilAuditor willin future on demand, furnish this Certificate to Officers only when quitting the limits of the Presidency and to Military Officers in Civil employ on every occasion of their removal to the Military Department.

4. Military Officers will as heretofore on transfer to the Civil Department obtain and forward to the Audit Office a Certificate of last payment made to them in the Military Department, without the receipt of this document, no

salary will be passed to them.

5. The attention of Public Officers is further requested to the fact, that the early payment of their Salaries will depend on their despatching their bills to the Civil Auditor as soon after the close of the month as possible, and on their strict observance of the rules which have been laid down for their guidance.

6. Officers in charge of Public Treasuries in the Provinces are authorized to disburse to all classes of pensioners their allowances previous to audit, forwarding to the Civil Auditor for audit an Abstract, in the form with which they have been furnished, of the actual payments made. This Abstract after audit will be returned; and should be forwarded to the Λccountant General with the monthly Journal.

7. Charges of a Contingent nature incurred in the Provinces will likewise be paid prior to audit, the bill being submitted to the Civil Auditor for audit after payment, but in those instances in which the rules in force provide for advances being made for the disbursement of Contingent charges, the bill that is of Contingent charges not of advance should be submitted for audit prior

to its discharge from the Local Treasury.

8. Bills for Contingent charges should be furnished in duplicate (on foolscap paper) one copy of which will be retained for record in the Audit Office. The other bill when received by the disbursing Officer should be forwarded to the Accountant General with his monthly Journal. Heads of Offices at the Presidency will in future forward their Contingent bills for audit in duplicate; only one copy of which will be audited and returned to them for discharge at the General Treasury, the other copy being retained for record in the Audit Office.

9. Disbursing Officers are requested to take special notice that no charge which falls under the audit of the Civil Auditor should appear in their Journals submitted to the Accountant General unsupported by an audited bill. To admit of regard being had to this rule in the debiting of Pensionary and Contin-

gent charges, disbursing Officers in the Provinces will so arrange that no payment under those heads shall be made after a certain date, (say the 20th of the month) when a detailed Statement of the charges actually incurred should be submitted for audit. The Civil Auditor will not insist upon any particular course being pursued in furtherance of this object. It is left with the Officers of payment to select the course that may appear to them the most suitable, provided that the rule to which special attention has been requested is not violated.

- 10. Public Officers in the preparation of their Abstracts for audit, will bear in mind the Notification of the Accountant General of the 19th April last, published at page 623 of the Gazette for the current year, which requires that Officers absent from their station should receive their Salaries out of the local Treasury of their Station.
- 11. Under instructions from the Post Master General, all bills for Salaries, &c. are allowed to be forwarded on the "Public Service." But Officers on leave either on account of ill health or private affairs are required to prepay postage on whatever bill or letter connected with their Salaries, &c. that they may transmit to the Audit Office through the post, and those documents after audit will be returned "Bearing"

F. LUSHINGTON, Civil Auditor.

PAYMENT OF SALARIES TO OFFICERS ON LEAVE.

NOTICE.

- 1. The adoption by the Civil Auditor of the system of pre-audit of Abstracts for Salaries of Officers and other Civil Charges has rendered necessary a modification of the arrangement announced in my Notification, dated the 19th, and published in the Fort Saint George Gazetto of the 22d of April last.
- 2 Instructions on the subject were issued by me to Collectors, &c. in a Circular, dated 26th ultimo, but in order that the course of proceeding may be known to all Officers concerned, the following Notification is gazetted.
- 3. Officers who may be temporarily absent on duty, or on leave, in another District, or at the Presidency, as the case may be, should forward their Abstracts for Pay and other allowances due for a past month, on the 1st of the succeeding month to the Civil Auditor, who will pass and return the Papers to them. On the presentment thereof by the Officers to the Collector of the District where they may be located, or to the Sub Treasurer if at the Presidency, he will disburse the amount to the Officers. To enable the Collector or the Sub Treasurer, as the case may be, to discharge the Abstracts in question, the Collector of the District to which the Officers may stand permanently appointed, will forward on the 2d of each month a Bill of exchange drawn by him on, and in favor of, the Collector, or on, and in favor of, the Sub Treasurer, as the case may be, for the net amount of Salary due for a past month.
- 4. In every case in which the amount of Pay and Allowances to be drawn for a past month, by an Officer absent on duty or on leave as abovementioned, may differ from that actually drawn for the preceding month, a copy of the Abstract which he may have to send to the Civil Auditor on the 1st of the month, should be despatched by him previously to the Collector of the District to which he may stand permanently appointed, so as to reach him on the 1st of the month, in view to his regulating the amount of the Bill of Exchange which is to be forwarded by him on that account on the 2d of the month, as provided for in the preceding para.

GENERAL ORDERS BY THE MOST NOBLE THE GOVERNOR GENERAL OF INDIA IN COUNCIL.

FORT WILLIAM, 28th February 1856. .

No. 340 of 1856.—The following Notification, issued from the Financial Department, is published in General Orders :-

No. 9, dated 22d February 1856.—Read a Despatch from the Hon'ble the Court of Directors, No. 107 of 1855, dated the 5th December.

RESOLUTION.—The Hon'ble the Court of Directors having approved, with certain modifications, of a Code of Rules recommended by this Government for regulating leave of absence and acting allowances to Public Officers in India not in the Covenanted Service of the East India Company, the Most Noblethe Governor General in Council is pleased to resolve, that the following Rules, together with the Despatch above adverted to, be published in the Official Gazette for general information, and be held applicable, from the date of the publication of the Notification, to all Officers in the Uncovenanted Service of the Government who may be in the receipt of salaries of Rupees 100 a month and upwards.

FINANCIAL DEPARTMENT.

No. 107 of 1855.

OUR GOVERNOR GENERAL OF INDIA IN COUNCIL.

Letter from, dated 28th July 1855, No 101

Forward the Report of a special Committee (consisting of the Military Auditor General, the Secretary to the Government of Bengal and the Accountant to the Government of Bengal) which was appointed by the Government to consider the subject of framing a Code of Rules for the regulation of leave of absence and acting allowances for the Uncovenanted Service, and express an earnest hope that the proposed Code may receive the Court's sanction.

1. We have carefully considered the papers accompanying your Letter noted in the margin, relative to the proposed enactment of Rules for the regulation of leave of absence, &c. to the large and increasing classes of Public Officers not in the Covenanted Service of the East India Company, but, nevertheless, in many cases performing duties of great importance and responsibility. It is scarcely necessary to observe that we desire to treat them in this, as in all other respects, with the utmost liberality and consideration that may be consistent with the interest of the Public Service.

- Adopting as a principle to be inviolably maintained, that in each separate case of absence of an Uncovenanted Officer, the expense occasioned thereby is to be defrayed out of the Absentee's Salary, we are prepared to concur in the grant to Uncovenanted Servants (receiving Rupees 100 per month and upwards,) of the advantages as respects sick leave and leave on private affairs proposed in the Code under consideration. The advantages may be concisely stated, as follows :-
- 1st. Sick Leave.—The grant of leave for three years altogether, during the entire period of service, of which two years only may be continuous or reckon as service for Pension. During one year of absence, the Absentee to be subjected to the deduction of half, and during the remaining period, of two-thirds, of his allowances, provided that he shall in no case draw a larger sum than Rupees 6,000 (£600) per annum

The maximum being thus fixed, we shall leave it to the Local Government, in the exercise of their discretion to determine in each case, how far the advantages of the Rules should be modified with reference to the length of service of the Applicant and other circumstances. We desire however that, after a continuous absence of two years on sick certificate, an interval of two years shall elapse before further leave on that account is granted.

2nd.—Leave on Private Affairs.—The grant on leave for one month in each year without deduction; for six months on sufficient cause being shown with deduction of half allowances provided the rate of Rupees 6,000 (£600) per annum be not exceeded, and under special circumstances, for twelve months without forfeiture of appointment, but without pay and without the leave counting as service for Pension.

This latter advantage may we think be fairly conceded in special cases to Uncovenanted Servants, since a regular Furlough on Private Affairs cannot be granted to them, and the loss of their appointments involves practically the loss to them of the service. But it should not be allowed more than once during the period of service.

3rd.—We accede to your suggestion that Heads of Offices in cases of urgency may be authorized to grant leave of absence on Medical certificate to the extent of one month, provided the same be immediately reported for the sanction of Government.

4th.—The Rules proposed regarding the allowances of persons appointed to act for Absentees appear unobjectionable.

We are,

Your affectionate friends,

(Signed) E. MACNAGHTEN,

(,,) W. H. Sykes,

and Eight other Directors.

RULES FOR REGULATING LEAVE OF ABSENCE AND ACTING ALLOWANCES TO PUBLIC OFFICERS IN INDIA NOT IN THE COVENANTED SERVICE OF THE EAST INDIA COMPANY.

CHAPTER I.

RULES FOR APPLICATION OF LEAVE OF ABSENCE.

Section I. Leave of absence to Officers not in the Covenanted Service of the East India Company, receiving their appointments direct from Government, will be granted by the Government only under which office is held, on application made publicly through the regular channel in the Department to which the Applicant may belong; but in respect of all other Officers, it will be optional with the Local Governments to delegate to heads of Offices or Departments, power to act upon the Rules without special reference to higher authority.

Section II. Absence without leave will render the absence liable to loss of appointment, and will be attended with entire forfeiture of salary for the whole period of such absence.

Section III. No leave of absence shall have any retrospective effect, except in cases of severe illness to be attested by Medical certificate conforming in every respect to the directions contained in Section IV.

CHAPTER II.

RULES FOR SICK LEAVE.

Section IV. When an application for leave of absence is made on the ground of ill health, it must be accompanied by a statement of the case from the Medical man by whom the Applicant has been attended, distinctly stating from personal observation, the nature of the disease, the symptoms by which it is manifested, the causes by which it has been probably produced, and the period during which it has existed so far as the knowledge of the Medical Officer extends; and by a certificate from the Chief Medical Officer of the station or district, or if at a Presidency Town, from a Presidency or other Official Surgeon certifying after careful personal investigation, the necessity for temporary removal, and the period for which absence is, to the best of his judgment, absolutely requisite for restoration to health. If the requisite leave be for a longer period than six months, the certificate must in the first instance be counter-signed by the Superintending Surgeon of the division in which the applicant may be located; and in cases of leave beyond Sea, be afterwards submitted, with the statement of the case, for the consideration and counter-signature of the Members of the Medical Board.

The certificate shall be given in the following form :-

I, A. B., Surgeon at or of ——do hereby certify that E. F. (here enter designation of office) is in a bad state of health, and I solemnly and sincerely declare that according to the best of myjudgment, a change of air is essentially necessary to his recovery; and that the circumstances of his case are such as to render leave of absence for the period of——absolutely necessary (or highly desirable).

The following form shall be observed by the Superintending Surgeon and Members of the Medical Board in counter-signing the certificate:—

I (or we) do hereby certify that according to the best of my (or our) professional judgment, after careful consideration of his case, I (or we) believe the state of health of E. F. to be such, as to render leave of absence for a period of—absolutely necessary (or highly desirable) for his recovery.

An application for extension of leave must, if the Applicant be in India, be accompanied by a certificate to a like effect from the Medical Officer by whom the Applicant is attended, together with a statement showing sufficient reason for the extension solicited; and such certificate must be countersigned by the Members of the Medical Board, or by the Superintending Surgeon of the division in which the Applicant may be located. In like manner, if the Applicant shall have proceeded beyond the Territories under the Government of the East India Company, he must furnish a certificate and statement to the required effect from a Surgeon or Physician, at the place of his temporary residence, by whom he has been attended; such attendance and the period of it to be stated, and the certificate to be counter-signed by the examining Physician of the East India Company if the Absentee is in Europe, or by the principal Medical Authority of the Colony or country to which the Absentee may have proceeded; or some sufficient reason stated for the want of such counter-signature if not produced.

The Officer counter-signing must either personally examine the Applicant, or state some sufficient reason why he has been unable to do so, when any of the required particulars are neglected, leave will be refused.

Section V. Leave of absence will be granted under the following limitations to Servants who may be declared by a sufficient Medical certificate to require leave for the restoration of their health:—

1. The limit to leave on Medical certificate is fixed at three years during the entire period of service, of which not more than two years may be continuous and two years only will be permitted to reckon as service qualifying for Pension.

- 2. Leave of absence on Medical certificate will not be granted for a longer period than twelve months at any one time, which may however be extended if necessary under renewed Medical certificate, for periods not exceeding six months within the limit of two years continuously. After a continuous absence of two years on Medical certificate, an interval of two years shall elapse before further leave on that account is granted.
- 3. During one year of the entire period of Absence under this Rule, the Absentee will be subjected to a deduction of one-half, and during the remainder to a deduction of two-thirds of his allowances, provided however that he shall in no case draw a larger sum than Rupecs 6,000 (£600) per annum.
- 4. In cases of extreme urgency, the Heads of Offices are authorized to grant leave of absence on Medical certificate to the extent of one month, provided the same be immediately reported for the sanction of Government.

CHAPTER III.

RULES FOR LEAVE ON PRIVATE AFFAIRS.

Section VI. Leave of absence may be granted for one month in each year, or, to Judicial Officers, during the authorized closing of the Civil Courts, without deduction from salary.

Section VII. In addition to the above, and on sufficient cause being shown, leave of absence may be granted on private affairs for not more than six months, one half the Absentee's salary being deducted for such period of absence, provided the rate of Rupecs 6,000 (£600) per annum be not exceeded.

- Clause 2. The leave granted under this Section will be computed from the date of the Absentee's quitting his post to the date of his return thereto. A second leave of the same description cannot be taken till the expiration of six years from the date of return to duty from a former leave. No portion of the salary allowed to be drawn will be claimable till the Absentee shall have returned to his duty.
- Clause 3. Leave taken under this and the preceding Section will reckon as service qualifying for Pension.

Section VIII. In addition to the leave which may be granted under the preceding Rules on Medical certificate or private affairs, Government may at any time under special circumstances and at its discretion, grant leave of absence once during the period of service not exceeding twelve months on private affairs, without forfeiture of appointment, but without pay; such period of absence not to count as service towards Pension.

Section IX. No leave of absence on private affairs shall be claimable by any party whatever under these Rules as a matter of right; such leave will be granted only at the pleasure of the Government or its authorized Officers when the concession of the indulgence in no way interferes with the interests of the Public Service, and it shall be the duty of the Government in every instance (except in the case of leave granted under Section VI) to consider and determine whether the grounds of the application are sufficiently urgent to justify the concession of the leave.

Section X. Parties who may desire to draw their allowances while absent on leave, will be required to give security in such amount and form, as may be fixed by Government for the refund of any excess that may be drawn in case of their coming under retrenchment.

CHAPTER IV.

RULES FOR ALLOWANCES, &C.

Section XI. No person appointed to a situation under the Government shall draw the selary of his appointment for any period prior to the date of his joining it.

Section XII. An Officer holding a situation, appointed to one of equal or higher value, will until he joins, draw so much of the salary of his new Office as may be equal to the salary of his former situation; provided he does not exceed the time allowed for joining under the following Rules; should he do so, no salary will be passed to him for such period in excess.

Section XIII. The time ordinarily allowed for joining an appointment is to be calculated at the rate of fifteen miles a day (Sundays excepted) together with a week to prepare for the journey; but on occasions of emergency, it will be optional with the Government to prescribe the period within which any journey is to be performed.

Section XIV. A person officiating temporarily in any situation, will draw so much of the salary of such situation as may equal the sum deducted on account of absence from the real incumbent, and the substantive allowances of every Officer temporarily acting in a situation of superior emolument, will be subject to deduction at the same rate; but no additional expense is on any account to be incurred by the absence of any Officer on leave.

The Right Honorable the Governor in Council is pleased to delegate to the several Secretaries to Government the power to grant leave of absence on private affairs under Chapter III, and on Medical Certificate under Chapter II of the Absentee Rules, dated 28th February 1856, to Uncovenanted Officers in their respective Departments of the Secretariat, whose salaries exceed 100 Rupees a month. DECISION OF THE GOVERNMENT OF INDIA ON CERTAIN QUESTIONS CONNECTED WITH THE UNCOVENANTED SERVICE ABSENTEE RULES.

Letter from Secretary to Government of India to Secretary to the Government of Bengal, dated 26th September 1856, No. 4487.

Para 2. In reply to the first point whether Private Affairs leave can be given in continuation of Privilege leave, I am directed to state that the decision of the Honorable Court of Directors in respect to the Covenanted Service precludes the grant of the indulgence to Uncovenanted Servants.

3. In regard to the 2d point, whether privilege leave may be accumulated to the extent of 3 months, I am desired to state for the information of the Honorable the Lieutenant Governor that the orders of the Honorable Court have been solicited to an additional clause being inserted in the Uncovenanted Absentee rules, allowing the local Governments to extend at their option the period of privilege leave in special cases to 2 or 3 months according to circumstances, provided that the indulgence can be granted without injury to the Public Service, or additional expense to the Government.

UNCOVENANTED SERVANTS TO COUNT PAST LEAVE AS SERVICE.

No. 34.

Notification.—Extract from a Despatch from the Honorable the Court of Directors, addressed to the Government of India, in the Financial Department, No. 38 of 1856, dated the 13th May:—

Letter from, dated 10th September 1855, No. 123.—Report Proceedings in this Department for the 1st Quarter of 1855.

123 and 126.—Forward Correspondence with the Government of Fort St. George, on the question whether Uncovenanted Servants should be allowed to count as service qualifying for Pension the periods of authorized absence.

Para. 43. The subject here reported upon has been decided in our Despatch in this department, dated 5th December 1855, No. 107.

44. It appears to have been the practice at Madras to permit all absence of Uncovenanted Servants, on authorized leave, to reckon as service for pension. Although this has been

for pension. Although this has been put a stop to, we should not consider it just to allow those Uncovenanted Servants who may have enjoyed the advantage beyond the limit fixed by the new Rule to be now deprived of counting their past leave as service.

RULES REGARDING THE EXAMINATION OF UNCOVENANTED SERVANTS.

MILITARY DEPARTMENT.

No. 869.

Extract from the Minutes of Consultation, 15th April 1856.

Read the following:

Extract from the Minutes of Consultation, in the Public Department, dated 1st April 1856, No. 368.

Read the following Resolution of the Government of India, No. 133. FORT WILLIAM, HOME DEPARTMENT, 18th January 1856.

* Cons. 23d Feb. 1855, No. 15 ,, ,, Nov. ,, ,, 21 to 30.

Read again the papers recorded on the Consultations of the dates noted on the margin* regarding the examination of Uncovenanted Servants.

RESOLUTION.—The Most Noble the Governor General in Council observes that in February last, a reference was made to the local Governments, and to the several local administrations under the Government of India, with a view to ascertain whether any, and what, steps had been taken towards testing the qualifications of the Uncovenanted Servants of Government in all Departments, in the same manner as those of Covenanted Assistants are now tested under the Examination Rules in force for that purpose. To this reference replies have now been received, and the following is a summary of their contents.

- 2. In the Madras Presidency except as regards the Judicial Department wherein parties are required to pass an Examination before they can be promoted to the Office of District Moonsiff, no measures analogous to those in force for the examination of Covenanted Assistants have been adopted for testing the qualifications of Uncovenanted Servants. This is accounted for by the circumstances that, with the exception of a few Offices at that Presidency, Uncovenanted Executive agency of the description so extensively employed in Bombay, Bengal, and the North Western Provinces, is unknown in Madras. But a plan for the employment of such Agency has been submitted to the Government of India, and is now under consideration.
- 3. From the Report of the Bombay Government it would appear that Uncovenanted Servants in all departments at the Presidency are subjected to an examination. In the Revenue and Judicial Departments the Hoozoor and District Deputy Collectors, if Natives of the country, are required to pass an examination in English, and in cases where the Vernacular language of any of these Officers is not that of record in the Collectorate to which he is appointed, he is required within two years from the date of his appointment, to pass an examination in reading and writing the running hand, and in the colloquial branch of the latter language. Besides this, Uncovenanted Deputy Collectors, and Magistrates, are required to obtain a knowledge of the system of Revenue accounts, and to pass the same examination therein as Covenanted Assistants to Collectors, the duties performed by both being similar.
- 4. Uncovenanted Officers in the Public Works Department as well as all officers holding the appointment of Executive Engineers, or Assistant Executive Engineers are required to pass an examination in the language of the district in which they are employed, sufficient to prove such an acquaintance with the language, written and spoken, as enables the Officer to converse with Natives of all classes, to read and understand petitions without assistance, and to superintend and revise accounts kept in the Native language of the district.
- 5. Uncovenanted Assistants in the Revenue Survey Department are required to pass an Interpreters' examination, either in Marathee or Goozarattee, and an examination as regards reading and speaking in the languages of the

Zillahs in which they are to be respectively employed. They are also required to possess a competent knowledge of plain Trigonometry, Field Surveying and Topographical Drawing, and a perfect acquaintance with the rules for the guidance of the Native establishment, in the execution of the various operations connected with the Survey.

- 6. All Uncovenanted Assistants not included in the above classes, are required to possess a good colloquial knowledge of Hindoostance, as also a knowledge of the language of the districts in which they are employed. An examination in the former, must be passed within six months, and in the latter within two years. 50 Rupees being detained from the full salary of the Office until the first examination is passed, and 30 Rupees until the second.
- 7. The Bengal Government has passed certain rules for testing the qualifications of its Uncovenanted Servants, but they are not at present acted upon in consequence of the pressing want of Subordinate Officers fit for employment in responsible situations, which compels the Government to appoint, without reference to their lingual acquirements, men whose judgment and general knowledge of public business, can be relied upon.
- 8. The Rules when acted upon, will require all Deputy Magistrates and Deputy Collectors to undergo the same examination, as that to which Covenanted Assistants are subjected, and to pass by the first standard. They will also be required to pass the second standard before they are vested with powers of a higher order, or promoted to a higher grade.
- 9. As a general rule, it is laid down, that no person can be appointed to the subordinate Executive service, who has not a sufficient knowledge of the English language to enable him to pass the examination above referred to, or the same qualifications in that respect as are at present required in persons appointed to the lowest rank of Native Judges. This rule is applicable also to Superintendents or Assistant Superintendents of Salt Chokey's, and to Sub-Deputy or Assistant Sub-Deputy Opium Agents, who must also be examined, the former in Bengalee according to the fixed standards, and in the Salt Regulations and practice, the latter in Hindoostanee and in the Opium Regulations and practice. In either case the examination embraces such parts of the Revenue and Judicial Regulations, as Officers of their class have to be guided by in the course of their duty.
- 10. These rules do not however preclude the appointment, and employment of an Officer in the lowest grades, before he has passed by the first standard, but they direct his removal, if he does not so pass within a year.
- 11. The measures as yet taken in the North Western Provinces for testing the qualifications of Uncovenanted Servants of Government, have been to direct all Uncovenanted Deputy Collectors and Deputy Magistrates who possess a sufficient acquaintance with the English language, to take part in the examinations for higher grades of powers which are prescribed for Covenanted Assist-The Lieutenant Governor is however in communication with the Board of Revenue, with a view to extend the system of examination to all Deputy Collectors and Tahsildars, in the Revenue Department; the position of this class of Officers involving duties of a very serious and important character. Under the existing system, every Deputy Collector is also appointed a Deputy Magistrate; and Tahsildars are very generally invested with the same powers, but on their first nomination to the Revenue branch of the service, in which probably the most important portion of their duty lies, no proof of efficiency is required. It is the intention of the Lieutenant Governor to require that these Officers also shall pass a test, similar to that appointed for the Covenanted Servants of Government, and since May 1854 the Board of Revenue have been required to notify, that after the expiration of six months, no one should be appointed to the Office either of Deputy Collector, or of Tahsildar, who did not possess a competent knowledge of Surveys on the Punjaub system, of Nagaree writing, and of Putvarrees Accounts

- 12. It had been the intention of the Lieutenant Governor to allow no Deputy Magistrate to be raised to the exercise of Judicial powers higher than those of an Assistant, until a system of examination could be matured which should embrace all Officers of the class. The restriction has been strictly maintained in regard to the Tahsildars, who in many instances have been appointed to be Deputy Magistrates, but the pressure of duly has led to permission being given for occasional relaxation of the rule in the case of Deputy Collectors of specially certified experience, and good character, who had held office as Deputy Magistrates for some considerable time.
- 13. In the Punjab only one class of Uncovenanted Servants, the extra Assistants, are subjected to the same examination as Covenanted officers. Certain proposals are now under consideration for the examination of Tahsildars and Darogahs. The Chief Commissioner does not clearly apprehend, with reference to which class of Uncovenanted Servants the enquiry is made, and he remarks, that if it is intended that all should be examined, a system of examination will be devised if requisite, on his receiving instructions to that effect.
- 14. Nothing has been done in the Tenasserim and Martaban Provinces, towards testing the qualifications of Uncovenanted Servants. There are only two Uncovenanted Officers of a superior grade employed under the Commissioner, but there are others who draw from 50 to 250 Rupees a month. The Commissioner desires to be informed what class of Officers are to be examined, and what test is to be applied to such class.
- 15. The Commissioner of Pegu states, that there has been no special examination to test the qualifications of the Uncovenanted Servants in this Province, but great care has been taken in selecting them.
- 16. Nothing has been done in Nagpore towards testing the qualifications of Uncovenanted Servants. The term Uncovenanted Servants the Commissioner presumes it is intended to apply only to the extra Assistants, and possibly also to Tahsildars, but not to ministerial officers, such as Sheristadars and other Umla. If the qualifications of the first named Officers are to be tested, the Commissioner desires to be furnished with specific rules, and to be informed within what period they will be expected to pass.
- 17. The Commissioner takes the opportunity to solicit instructions on the subject of the examination of the Assistant Commissioners of the Province. He presumes, the Punjab rules in respect to the class of Officers, will be held to be applicable to the Assistants of the Province of Nagpore.
- 18. The Governor General in Council remarks with satisfaction, the progress that has been made in providing for the examination of Uncovenanted Officers both before they are admitted into the service of Government, and before they are promoted to the higher grades, and entrusted with higher powers-
- 19. The enquiry set on foot under the orders of the President in Council, had special reference to such Uncovenanted Officers in the several branches of Executive Administration as are entrusted with independent authority and empowered to exercise the functions of Covenanted Assistants in either the Magisterial or Revenue Department of the Public Service.
- 20 The Governor General in Council is of opinion that no person should be appointed to any charge of the nature above described, without first undergoing an examination in the vernacular language of the district in which he is to be employed. This is the rule observed with Covenanted Assistants, and it should be made universally and invariably applicable to all persons appointed to exercise powers analogous to those with which Covenanted Assistants are vested on their first appointment.
- 21. In addition to this His Lordship in Council is of opinion, that no person whether European or Native should be appointed to any such office without first undergoing an examination to test his general knowledge of the

duties he will be required to perform, and his proficiency in the ordinary branches of school education. For this latter purpose, it is not absolutely necessary that the Candidate should understand English, but he should be required to possess a critical knowledge of, and facility of composing in at least one language, to be well grounded in the Elements of Algebra and Geometry, and their practical application to Surveying, and to know the leading facts either of Indian or of English History. It is clear that under such a system of examination, Candidates understanding English would have an advantage over those unacquainted with English, and to this extent the Governor General in Council is not unwilling that the former should have the preference. Hereafter an University degree may be allowed to stand in the place of this examination.

- 22. The Governor General in Council is not yet prepared to prescribe this examination of Candidates for public employment as a rule from which no departure is under any circumstances to be permitted, especially in the non-regulation Provinces, where it is frequently impossible to find persons possessed of the requisite knowledge to pass such a test; but he is of opinion, that in the older Provinces, it should even now be observed with strictness, that every where it should be the earnest object of the local administration to enforce it as far, and as soon as practicable, and that in places, or in particular instances where it cannot yet be fully carried out, care should be taken to give a preference to educated, and generally well informed Candidates, possessing the needful special attainments, over those who are qualified only in the latter respect.
- 23. The Governor General in Council desires, that the rules in force for the examination of Covenanted Assistants by the first and second standards may be made strictly applicable to the promotion of Uncovenanted Officers, and that the qualifications which in the Punjab are required of such Officers before they are entrusted with the higher powers, may also be required of them in Nagpore, Pegu, and the other non-regulation Provinces under the direct control of the Government of India Wherever provision has not been made for the examination of Covenanted Assistants, early steps should be taken to supply the deficiency.
- 24 The examination of Candidates for Moonsiffships is separarely provided for.
- 25 In regard to the selection of Candidates for employment in the lower grades of the Public Service, whether as ministerial officers or otherwise, the Governor General in Council feels it impossible to lay down any general rules; but he desires that all Officers having in their hands the selection of persons for such employment, may be guided by the general principle of examining Candidates with a view to test their general, as well as special qualifications, and of giving the preference to those who are educated, and well informed, over those who are not, when both are equally well qualified for the special duty required.

Uncovenanted Agency of the kind here alluded to is scarcely nown in the Madras Presidency, but a scheme for its introduction to a large xtent is at present before the Government of India. The nature of the examination, to be prescribed for such Uncovenanted Assistants as may hereafter be pointed in this Presidency, will be separately considered by Government. Iteanwhile, the Right Honorable the Governor in Council resolves to circulate use Proceedings of the Supreme Government through the proper Departments all Heads of Offices at Madras and in the Provinces; and to draw their attention to the desire expressed in the concluding para. viz., that all Officers having their hands the selection of persons for employment in the grades of the ublic Service below that of Uncovenanted Assistant, whether as ministerial fficers or otherwise, are to be guided by the general principle of examining andidates, with a view to test their general as well as special qualifications, and giving preference to those who are educated and well informed, over those ho are not, when both are equally well qualified for the special duty required.

The *grant under peculiar circumstances to an Assistant Collector of the additional allowance of 175 Rupees per mensem before he was entitled to it under the Standing Orders in the first instance, and subsequently to others as †special cases, appears from the number of applications which have of late been received, to have led to an under-

standing that the indulgence will be granted in every case in which the applicant may have been prevented, by the necessity of returning to Europe for the benefit of his health, from completing the prescribed term of service in the Revenue line and residence in the Country at as early a period as he otherwise would have done.

As such is by no means the intention of Government, it is resolved that a deviation from the Standing Rule shall be allowed only in the case of an Assistant having served three years in the Revenue line but not having completed the term of six years' residence in the Country in consequence of having been obliged to quit it on account of ill health. The Civil Auditor will be authorised in all such cases to pass the allowance from the date when the party completed the term of three years' service in the Revenue line

To entitle goods to free entry, on export, excepting in the case of British goods beforementioned, proof must be given by the production of a Custom House Bill, that import duty thereon has been paid.

Goods of every denomination passed through the Custom House for Shipment, the application for which is presented after Port clearance has been taken out, are subject to double duty if liable to duty; free goods to 5 per cent on the market value, and drawback goods, to forfeiture of drawback.

DRAWBACK.

No goods are entitled to drawback unless claim be distinctly made on the face of the application at the time of export.

Drawback is only claimable on goods entered in the Export Manifest, and no goods are entitled to it, if passed after the issue of Port clearance.

Parties claiming drawback are not allowed to obtain information from the Custom House Books to establish the same, but must be prepared with their own proofs. The Customs Bill of duty can always be obtained from the original importer. Drawback will not be granted where the application to pass the goods cannot be made by the Exporter to agree with the Register.

Drawback is claimable only when goods entitled thereto are exported within two years of the date of import as per Custom House Registers.

No payment of drawback is made unless the amount be claimed within one year from the date of entry of the goods for exportation in the Custom House Registers.

Drawback is payable to no one but the Owner or Exporter of the goods on which drawback is claimed, except by regular transfer in writing made by the Owner or Exporter in favor of the party applying for drawback.

No drawback will be granted on goods exported to any place on the continent of India, except to Foreign European Settlements.

No drawback is paid until the Vessel in which drawback goods are exported has sailed.

Cashmere Shawls being considered the manufacture of the continent of India are not entitled to drawback on exportation.

COURT OF SUDDER UDALUT.

RULES OF PROCEDURE IN THE RECEPTION, TRIAL, AND DIS-POSAL OF CIVIL SUITS.

The Court of Sudder Udalut deem it expedient to furnish rules of procedure for the guidance of the various Courts subordinate to them in the recep-

tion, trial, and disposal of Civil Suits.

The rules they have prepared for this end are not intended to take the place of any enactment of the Legislature bearing upon the subjects of which they treat, but are founded on the existing Regulations and Acts, the purpose thereof being to give strict effect thereto, to revive wholesome regulations which have been allowed to fall into abeyance, and to enforce correctness and uniformity of practice.

The Sudder Udalut have specially turned their attention in framing these rules to the correction of irregularities observed by them in the proceedings of the Courts subordinate to them, and to the inculcation of forms of procedure the advantage of which has been apparent to them in their own proceedings.

A prominent evil which the Sudder Udalut seek to remedy, is the prevalence of pleadings of inordinate length. The suit of a party is not advanced by prolixity at any stage thereof. The introduction in a record of more than is absolutely needed for the purpose of the record so far mars its utility, and is absolutely needed for the purpose of the record so far mars its utility, and is a check to dealing with the record. The object of pleadings, is to put the tri-bunals and the opposing parties in possession of the nature of the demand made, and of the cause of compliance therewith not being accorded. A variety of circumstances and a mass of evidence on either side may be and will be connected with the demand and the refusal. These are what the tribunals have to weigh in judging of the truth of the demand, and of the propriety of the refusal but the setting forth thereof is not needed to make it apparent what the nature of the demand and what the ground of the refusal may be. The said associated circumstances and evidence come properly before the Court at the hearing or trial of the cause, but should have no place in the pleadings. When so introduced, they only serve to overlay the pleadings with unnecessary matter occasioning too often perplexity, subjecting the parties to needless expense and delay, and imposing fruitless labour on all concerned with the suit. The law prescribes the utmost simplicity and succinctness in the preparation of pleadings, and this the Sudder Udalut desire to enforce.

Another evil which largely prevails is the want of regard paid to the enforcing observance of the periods for completion of the various processes in a suit. The presentment of pleadings is allowed to extend itself over lengthened and indefinite periods of time. The prolixity permitted to pleadings has no doubt led to this laxity, it being scarcely possible when of the nature above animadverted on that they should be completed within the required time. The confining pleadings to their legitimate purposes will enable the Courts to enforce the rules prescribing periods for presentation of the pleadings. In like manner laxity being once introduced, the periods for other processes in the suit have been allowed to extend themselves indefinitely. The Courts have also fallen into the same loose method in conducting the suit to its end, by failing to adhere to appointed days for its hearing. The Sudder Udalut lay much stress upon the necessity of requiring punctuality in all stages of the suit, and have especially seen the benefit in their own practice of keeping to fixed days for the hearing and decision of the suit brought before them. Dilatory habits are thus put an end to; each party knows what he has to do, and when he has to do it; and the suit is carried on surely and speedily to its conclusion. The

law is stringent on this head and it should be obeyed.

The mode of preparation of decrees has furthermore ordinarily and especially in the Courts of the native judicatories, been of a most cumbrous description. The lengthened pleadings above adverted to have scarcely been abstracted, as they purpose to have been, but mainly copied out. The points prescribed for proof have not been compressed so as to comprehend no more than the actual issues, but have been a recapitulation of the pleadings. And the judgment has too often been in character with the whole proceedings in the suit, lengthy, ill-digested, and involved in perplexity. The Sudder Udalut seek as far as in them lies to obviate this evil.

The duration of suits upon the files of the several Courts has led to repeated remonstrance from the Sudder Udalut. The course they now indicate of succinct, prompt, and punctual proceedings will serve materially to facilitate the disposal of suits and to lighten the labour of the tribunals. Hitherto the work of the different tribunals has been judged of by a minimum standard. The Sudder Udalut are convinced that the scale given might be greatly raised on the simplification of the proceedings in suits which they now seek to effect. The truer standard however whereby to judge of the working of a Court is the amount of arrears attaching to the Court. Every tribunal should be competent to dispose of the business brought before it without the occurrence of essential arrears. In the Criminal Department no arrears are permitted to accrue and none but in rare instances occur. The Civil Department should be on the same footing. No arrears should exist there but such as are incidental to the carrying out of processes in suits. The Sudder Udalut will accordingly henceforth judge of the working of the Courts by the appearance of arrears before them and should these not be obviated will seek such remedy as may be called for. They expect that ordinarily no suits shall remain on any file beyond the term of six months.

These are the several objects which the Sudder Udalut seek to gain in the promulgation of the subjoined rules, and they expect that the judicial functionaries, European and Native, will accord thereto implicit and cordial compli-

ance.

ORIGINAL SUITS.

PLEADINGS.

1. The plaint is to contain the name and the residence of the party complained against; the value of the object sued for rated according to the rules laid down in Circular Order, dated 29th August 1831, for valuation of land or of other objects; the position, boundaries, extent and nature of tenure if land be the object of the suit; the precise matter of complaint; and the time when the cause of action arese. (Section III, Regulation III of 1802; Section XVII, Regulation VI of 1816; Circular Order, No. 66.)

2. In stating the precise matter of complaint the plaint is to set forth no more than is necessary to exhibit the nature of the Plaintiff's right and title to what he may demand from the Defendant and the circumstances which have

laid the Defendant under obligation to satisfy this demand.

Thus where the suit may be on a bond it suffices to say that the Defendant on such a day borrowed of Plaintiff such a sum of money and executed the bond; or that such a one borrowed the money and executed the bond, the Defendant being the son and heir of the said person; and that the time for discharge of the bond having expired on such a day, demand was made on the Defendant but the money was not paid.

Or where the suit is for land and the proprietary right is in dispute. That the said land was derived by Plair tiff of old from his ancestors, or (if a recent acquisition) was purchased by Plaintiff or such a one being his father, &c. from such a party at such a time; and that on such a day, the Defendant gained over the Plaintiff's tenant and took possession of the land, and on restitution being demanded set up the assertion that he is the proprietor of the said land

Or where the object is to oust a mortgagee or tenant. That on such a day the said land was mortgaged (or leased) by Plaintiff to the Defendant; that on such a day the term of the mortgage (or lease) having expired Plaintiff sought restitution of the land (tendering in the case of a mortgage the mortgage money) but the Defendant, has refused to restore the land, it not being neces-

sary in suits of this description to set out the Plaintiff's title, his claim upon the Defendant resting upon a specific transaction, whether of lease or mortgage, which is all that need be stated.

- 3. It will be observed that all narratives of past transactions not immediately connected with the matter which has led the party into Court, all account of acts and dealings with the Defendant or others whether occurring before or after the matter which forms the immediate groundwork or cause of the suit, and all mention of the circumstances, documents, or persons by means whereof the truth of Plaintiff's claim is to be established are to be excluded from the Plaint as forming no part of the purpose of the plaint, as defined by law, which is simply that the Plaintiff should describe as succinctly as possible "the precise matter of his complaint against the Defendant," and not also his means of substantiating that complaint.
- 4. But it will be necessary in the case where the Plaintiff's claim may not have been raised within the period of 12 years that the particular circumstances, with dates, should be set forth in the plaint which serve to prevent the bar of the statute of limitation taking effect against the claim; tor not only must the claim be set forth in the plaint, but it must be made apparent therein that it is an actionable one.

Framed according to the above rules, plaints should not ordinarily cover more than half or one roll of stampt paper.

- 5. In the notice to be served upon the Defendant giving him intimation of the suit the nature of the demand raised against him by the suit is to be succinctly stated, and a day is to be specified not exceeding twenty days from date of notice on or before which the Defendant is to deliver in his answer. (Clause first, Section II, Regulation II of 1811; Clause first, Section XIX, Regulation VI of 1816.)
- 6. On the Defendant failing to conform to the said notice, or to the proclamation consequent thereon should the notice not have been served on him, the Clourt is to proceed at once to investigate and decide the suit exparte. (Section III, Regulation II of 1811; Sections XX and XXI, Regulation VI of 1816.)
- 7. Provided however that if the Defendant should appear at any time before evidence has been received for the Plaintiff, and justify his default, he may be allowed further limited time to put in his answer. (Section XXIII, Regu-VI of 1816.)
- 8. It will be observed that the practice which obtains of requiring the Defendant's appearance merely, and then giving him time to file his answer is disapproved of and is to be discontinued. It has depended upon an abolished law (the prior part of Section V, Regulation III of 1802) and the more recent provision of the Legislature must be followed.
- 9. The answer is to be drawn up in the same succinct manner as the plaint and as rigidly confined to the immediate subject matter of the suit.
- 10. Where however objections exist to the suit that the value in issue has been understated, that the Plaintiff is under personal disability to sue, that the suit has not been laid against the right parties, or against all who should have been included therein, that the subject matter thereof has already been adjudicated on, that the suit is barred by the statute of limitation, or that in any way it cannot be proceeded with, these exceptions should be briefly stated with the necessary particulars of sums, persons, and dates, &c. and all such objections should be set forth prominently at the outset of the answer, that the suit in respect to them may be brought to a speedy issue.
- 11. Such of the above preliminary objections to the suit as may not involve want of jurisdiction in the Court, are not to be held fatal to the suit, but the Plaintiff is to be allowed opportunity to remedy the defects of the plaint.
- 12. In proceeding to answer specifically Plaintiff's demand upon him the Defendant is briefly to state the facts on his side opposed to the truth of the de-

mand, with particulars of time, place, &c.; but he is not to describe the evidence on which he rests for proof of his assertions nor to enter into any argument.

For example where the suit may be for recovery on a bond the Defendant may simply deny that he ever borrowed the money from the Plaintiff or executed the bond; or he may plead that on such a day he discharged the bond; or that by such another transaction held with Plaintiff the debt has been cancelled in part or in whole.

Or where the suit may be for land, if the Defendant dispute title of the Plaintiff he is to discribe his own title with the same brevity enjoined upon the Plaintiff in setting forth his title in the plaint; or if a mortgage be in question he may answer that the time for redemption has clapsed, or that the sum of the mortgage is higher than that named in the plaint, or that he never had transaction with the Plaintiff respecting the land but has derived it from such a one. And the same if the suit be brought on the ground of a lease, that the term of the lease has not clapsed, or that the circumstance to lead to forfeiture of the lease has not occurred, or that he holds the lease of another than Plaintiff.

- 13. The reply is to contain nothing but a simple acknowledgment or denial of the facts set forth in the answer, and is to be put in on the next Court day after that on which the answer may have been received. The rejoinder is to contain no more than a denial of the truth of the reply, so far as this may be disputed, and is to be put in on the same day on which the reply is received. (Section V, Regulation III of 1802.)
- 14. The Courts are not to receive or file any Petitions, having reference to the merits of the suit, that may be presented by the parties or their Vakeels. All applications relative to the conduct of the suit should be made orally and recorded in the Diary.
- 15. Where the plaint and answer are kept within their legitimate bounds as before described, and the reply and rejoinder are confined to the simple admission or denial they are to convey, no difficulty should occur in having these later pleadings put in within the periods, narrow though they be, allowed by the law, and the Courts are enjoined on no account to extend the said periods, the law having left them no discretion so to do.
- 16. The Courts are to be careful not to admit any pleading not strictly drawn up according to law as above described (Sections XVIII and XXIV Regulation VI of 1816; Clauses first and third, Section IX, Regulation XIV of 1816.) But the primary stamp bearing the duty substituted for institution fee which may have been made use of for any plaint returned as irregular, shall be accepted as sufficient provision of such stamp duty when the amended plaint may be put in, and the amended plaint may be drawn up on stampt paper of the value of the secondary stamps required in the suit. Where Vakeels may fail in their duty by presenting pleadings irregularly drawn up the Courts should furthermore not fail to notice their conduct, by warning first and when it may be found by repeated transgressions that warning fails of effect by fine or dismissal. (Clause third, Sections IX and X, Regulation XIV of 1816.)

PRELIMINARY HEARING.

17. On the completion of the pleadings the Courts on a given day will take into consideration any preliminary objections to the suit such as are instanced in Clause tenth of the rules and proceed after holding such examination of the same as may be necessary to dispose thereof, affording the Plaintiff the opportunity of remedying such defects as may be found to exist in his plaint, or dismissing the suit according to the nature of the objections established, and this without entering upon the merits of the suit. Such dismissals are to be by summary order against which summary appeal will lie. (Sections V, IX, X, XI, XII and XVIII, Regulation II of 1802; Section IV, Regulation XII of 1809; Sections XI and XII, Regulation VI of 1816; Section V, Regulation XV of 1816; Clause first, Section II, Regulation IV of 1831; Clause first,

Section III Regulation VI of 1831; Act XXXI of 1836; Circular Order, No. 126.)

1st hearing on the merits.

- 18. On completion of the pleadings and after the disposal of such preliminary objections to the suit as may have been raised or otherwise may appear the Courts are to affix a notification in the Court house giving the parties eight days' notice of the suit being taken up for hearing on its merits. (Clauses first and second, Section XII, Regulation XV of 1816.)
- 19. On the occasion of this hearing the pleadings are to be read and such explanation required from the parties as may be necessary to enable the Courts to ascertain the precise points in dispute. Admissions made on either side will be noted so as to lead the parties to the narrowest possible issue, and the same are to be put on record. The Court will then proceed to subjoin on the same paper, the points in issue, whether relating to matters of law or of fact, subjecting the same before placing them on the record to discussion by the parties in order that any error or omission therein, that they may be able to indicate may be rectified. (Section X, Regulation XV of 1816.)
- 20. The points in dispute thus to be placed on the record, are to embrace only such primary material allegations as go to from the Plaintiff's claim, or, on the other hand, as may serve to demonstrate its untenability, subordinate circumstances, affording means of judging of the truth or otherwise of the said primary allegations are not to be entered among the points in contest, neither is any description of evidence, documentary or oral, to be adverted to therein, as requisite to be produced in support of statements made on either side.

For example in a suit on bond, it will suffice that the Plaintiff be called upon to prove (1) the execution of the bond, and (2) that the Defendant stands indebted to him in the sum used for. He need not be told that he must produce the bond, and the witnesses who attested it, or that he should prove part payment and promises of final adjustment, it being left to the Plaintiff to judge for himself as to the evidence he may deem requisite to establish that the Defendant does stand indebted to him, under the particular bond on which his suit is brought.

2D HEARING.

- 21. After the recording of the points in dispute between the parties the Courts are to fix a day for the production of the exhibits and lists of witnesses on either side. This should be done at the close of the proceedings on the day that the points are recorded, and the same should be notified at once to the parties then present and entered on a paper to be affixed in the Court house, care should be taken in deciding upon the said day to ascertain from the parties, supposing them to be present, that there is no impediment to the production of the said exhibits and lists on the day in question, and not less then eight days' time should be given for the purpose, unless otherwise agreed on, (Clauses first and second, Section XII, Regulation XV of 1816.)
- 22. If either party fail to produce his exhibits and lists of witnesses within the said day, specified as above, and do not satisfactorily account for the default, he should be subjected to fine and a second day fixed for the said purpose; and should he incur a further delay the fine is to be repeated or (preferably) the suit, if the failure be on the Plaintiff's side, should be struck off after a lapse of six weeks from the period of the first default, or if on the Defendant's side the investigation should proceed without further delay by examination of the Plaintiff's evidence. (Clause third, Section XII, Regulation XV of 1816; Section I, Act XXIX of 1841.)
- 23. No evidence oral or documentary is to be received but such as may be relevant to some point in dispute as recorded by the Court for establishment. (Section VII, Regulation III of 1802; Clause second, Section IX, Regulation XIV of 1816; Clause fourth, Section X, Regulation XV of 1816.)

24. On the day on which the exhibits are produced, those on either side should be shown to the opposite party and witnesses should be summoned in proof of such exhibits only as may be in dispute between them. The admissions made on this occasion are to be placed on record. (Section VII, Regulation III of 1802.)

SUMMONING THE WITNESSES.

- 25. The Courts should then proceed to fix a day for the examination of the witnesses. This should be done on the day on which the exhibits and lists of witnesses have been received and in concert with the parties then present. The day should be sufficiently distant to allow of all necessary process for securing the attendance of the witnesses, being executed so as to afford all reasonable probability that the witnesses will be produced on the day in question. The said day for attendance is to be entered in the summonses issued to the witnesses. (Section VII, Regulation III of 1802; Clause second, Section XXVIII, Regulation VI of 1816.)
- 26. Parties to suits may on due grounds being made to appear be summoned as witnesses at the requisition of other parties in the said suits, unless cause be shown by the party so cited against his being thus summoned; and when produced such parties are to be examined in all respects as any other witnesses. (Sections II and III, Act X of 1855.)
- 27. The application so to summon a party should be made at the time that the lists of the witnesses are put in, and the said party should be examined together with the other witnesses.
- 28. If a Plaintiff when so summoned fail to attend and give evidence, and is unable to justify such failure, his suit may be at once dismissed; or if a Defendant so fail his pleas in defence may be rejected without receiving consideration and the suit decided exparts. (Section VIII, Act X of 1855.)
- 29. Ample time having been afforded for the production of the witnesses in the manner enjoined in rule 25, the Courts should ordinarily not postpone the hearing and decision of suit because of the non-attendance of witnesses. On the failure however of a party in a suit to attend and give evidence who may have been summoned for the purpose, due attention is to be paid to the wish of the party citing him to have his evidence secured and postponement of the hearing or decision shall be made for such purpose at his request, unless there be good reason to refuse compliance with such request. (Section XI, Act X of 1855.)
- 30. On cause appearing warrant may be issued to compel the attendance of a witness, and the District Moonsiffs should usually apply to the Civil Judges for the same without preliminarily attaching the property of such witnesses, the process being one of doubtful efficacy and occasioning much delay and not absolutely incumbent upon Moonsiffs. (Section VII, Regulation III of 1802: Clause first, Section XXIX, Regulation VI of 1816.)
- 31. The period fixed pursuant to rule 25 for the attendance of witnesses should be sufficiently remote to allow of the said process of warrant being applied for and carried out in the interval, if needed, and the said process should issue on the party citing the witness certifying that he is necessary to his case, and that he has reason to apprehend that he will not attend but upon compulsion. The issue of the process, it will be observed, need not be contingent on the witness' failure to conform to the summons. (Section VII, Regulation III of 1802; Clause first, Section XXIX, Regulation VI of 1816; Section XI, Act X of 1856.

DEFAULTS.

32. No default is to lead to the dismissal of a suit but such as may present a positive impediment to the progress of the suit, as when the Plaintiff may omit to amend his plaint in some essential particular, or to include as Defendant a party necessary to be made Defendant, or to adduce his evidence, or to attend for the examination of his witnesses.

- 33. When a default of the above nature may occur the Courts are invariably to strike off the suit at the expiration of six weeks from the time when the Plaintiff should have appeared to perform the act required of him, unless previous to the expiration of the said six weeks the Plaintiff may have appeared and have obtained an extension of time for performance of the act in question. (Section I, Act XXIX of 1841.)
- 34. It will be observed that the mere appearance of a Plaintiff in Court does not save him from being accounted in default. He must actually perform what is required of him within the abovementioned term, or extended term, to avoid incurring the consequences of default.

3D OR FINAL HEARING.

- 35. On the day appointed as above for the attendance of the witnesses the Courts should examine such of them as may be present and then proceed to give judgment in the suit.
- 36. Should cause arise to prevent the examination of the witnesses on the said day, or should the examination not be brought to a close on the said day, another day, as proximate as practicable, should be fixed for the hearing. The practice of taking up cases at indefinite times, and of examining witnesses as they appear without regard to a day appointed for the attendance of all, is strictly interdicted.
- 37. After a witness has been examined by the party who called him, he may be cross-examined by the other side; after which the party who called the witness should be allowed to re-examine him with respect to any statements made by him in his cross-examination: but not on any new matter.
- 38. In suits before District Moonsiffs for other objects than for land and of a valuation not exceeding Rupees 20 the depositions of the witnesses should not be taken down in writing but brief notes of the statements of the witnesses should be made by the Moonsiff for his guidance in framing his decree. (Clause first, Section XXXIII, Regulation VI of 1816; Section XII, Act X of 1855.)
- 39. In other cases the statements of the witnesses are to be recorded in a brief form as a narrative, and not by question and answer, unless special cause for recording question and answer in any particular instance may appear, as when a witness is guilty of prevarieating. (Section XII, Act X of 1855.)
- 40. After the close of the examination of the witnesses the parties are to be allowed if they see fit so to do to comment on the evidence given, pointing out what facts are established thereby in their favour respectively and stating objections to the evidence on the other side. The plaintiff should first be heard and then the Defendant should be permitted to answer him and state his case, after which the Plaintiff may reply to what may have fallen from the Defendant. These pleadings are to be oral and conducted methodically and are not to be allowed to extend themselves unduly. No record need be kept of what passes beyond that the Judicial officer before whom the hearing is held may make such notes thereof as he may deem necessary for his own use.

DECREE.

- 41. In framing decrees care should be taken that the names of the parties and their places in the suit are set forth with distinctness, so as to catch the eye readily. The names should be placed in two columns at the head of the decree those of the Plaintiffs on the left hand and those of the Defendants on the right. The names should be each on a distinct line and numbered consecutively, the numbers given to supplemental parties being consecutive to those of the primary parties.
- 42. The abstract of the pleadings will follow in all possible brevity, it being sufficient to show therein the precise matter demanded by the Plaintiff and how the Defendant has become subject to the demand; also why the Defendant

resists the demand, with essentials of sums and dates. The abstract of each pleading should be in a distinct paragraph.

Thus in a suit for recovery on bond it will suffice to say.

- . (2.) The Defendant denies that his father incurred any debt to Plaintiff or executed any bond to him. He also denies having inherited property from his father so as to be responsible for his debt."

Or in a suit for land,

- (2.) The Defendant answers that the Plaintiff by a deed dated the increased the mortgage of the land to Rupees ______; that from the date the land bore no surplus produce; and that Plaintiff to be entitled to the land must consequently pay him the said sum of Rupees ______ in discharge of the mortgage."
- 43. No notice need be given of the reply and rejoinder unless matter should appear therein affecting the statements made in the primary pleadings.
- 41. After abstract of the pleadings the point in dispute must be entered as recorded on the first hearing of the cause. (Circular Order No. 120)
- 45. Then will follow list of the documents and witnesses examined on either side. The nature of the documents, the designations of the parties by whom and to whom written, with particulars of sums and dates, must be specified in each instance with brevity. Where the terms of conditions of any documents may be in dispute the entry should be made in greater amplitude so as to exhibit fully the said matter in dispute. The Plaintiff's documents are to be lettered consecutively and the Defendant's numbered. (Section XXVII, Regulation III of 1802; Circular Order No. 124.)
- 16. The decision come to will then be recorded. It should be introduced with the heading "Judgment" written in the middle of the line. When objections to jurisdiction, &c. may have been raised and decided favorably to the Plaintiff at the preliminary hearing of the suit such decision should be first recorded in a distinct paragraph. After this any distinctions made on either side at the first hearing of the cause on its merits should be entered, also in a distinct paragraph. The judgment on the points in issue should thereupon be given, each point, when practicable, being treated of in its order and in a distinct paragraph. In the margin reference should be made to the several points where treated of.
- 47. In recording judgment on any subject the grounds on which the judgment has been arrived at are invariably to be stated. It does not suffice that it should be said that such and such a circumstance has been proved, or that such and such a document is considered untrustworthy, the facts sworn to proving the circumstances, with citation of the witnesses so proving it, should be given, and the blemishes in the document pointed out. Brevity at the same time should be studied as well as lucidity in setting forth the grounds of the judgment. (Section XVI, Regulation II of 1802; Section XXXVII, Regulation VI of 1816.)
- 18. The custom found to prevail occasionally in the decrees of the Native Judicial Officers of making the decree to consist of an abstract of what each witness has said with a bare declaration at the end that therefore the Plaintiff's claim, or the Defendant's answer, is proved, is strictly interdicted. Such practice indicates a want of exercise of judgment in the case, the decree being

a mere mechanical arrangement which any Gomastah might prepare. Abstract of the evidence are in no case needed to the setting forth the facts proved by the evidence.

49. The decree will conclude with a specification of the costs.

50. When an Appellate Court may find any decree of a Court below drawn up in a manner essentially at variance with these rules and wanting in the brevity and perspicuity which it is their object to secure, the same should be returned to the lower Court with a requisition to prepare a fresh decree which will be put on the record, not to displace the original decree or for issue to parties, but for convenience of reference and to compel observance of the rules given.

APPEAL SUITS.

PLEADINGS.

- 51. The special petition is to state the name and residence of the Respondent; the value of the matter in appeal according to the rules for valuation of land or other objects; what specifically was decreed by the original decree and the grounds of objection taken to the said decree. (Clause second, Section XII, Regulation IV of 1802)
- 52. The grounds of objection shall be stated distinctly and concisely without any argument or narrative of facts, and shall be numbered consecutively. By leave of Court such grounds of objection may be amended or added to. (See rules for appeals to the Sudder Udalut in Clause first, Sections IX and X, Act IX of 1855)
- 53. The answer is to be confined to a refutation of the objections urged in the appeal potition, each refutation being numbered in accordance with the numbers affixed to the objections.
- 54. Pleadings not drawn up according to these rules are to be returned but a limited period (not exceeding 6 days in extension of the time prescribed for prescutation of the appeal) may when necessary be granted to allow of an amended appeal being but in, and the primary stamp of the returned appeal shall be accepted with the amended appeal as affording provision for stamp duty of its value, as in the case of original plaints returned for amendment. The indulgence of extention of the appeal time permitted under this rule shall be granted but once in each case.

TRIAL AND DECISION.

- 55. On the hearing of appeals or lpleadings are to be allowed as in hearing original suits, on the part of the Appellant first and then of the Respondent.
- 56 The burthen of shewing cause against the decree appealed from rests with the Appellant. This is not however to preclude the Courts from acting upon observations they may make for themselves of error requiring rectification existing in the decrees appealed from.
- 57. The Courts need only go so far into the record of the original trial as may be necessary to enable them to judge of the sufficiency of the objections raised to the decree appealed from. (Clause second, Section X, Act VII of 1843.)
- 58. Should it appear that the proceedings in the Court below have been defective the Appellate Courts should remedy such defect, unless it may be of a nature materially to affect the issue of the suit, such as when the suit may have been put by the lower Court on an essentially wrong issue, or when some party of consequence to the suit may not have been included therein, or when evidence of primary importance to either side may not have been admitted, or when the decree of the lower Court may have failed to determine some material point in issue.
- 59. When the decree of the lower Court may admit of explanation or elucidation by the officer who may have passed the same, and such explanation may

- be needed by the Appellate Court for the due comprehension of the force or intent for the decree appealed from, the Appellate Court is to address a precept to the lower Court calling for the said explanation and is to take the same into consideration in disposing of the appeal.
- 60. When necessity may be seen for receiving further evidence in the case, oral or documentary, the Appellate Court is to call upon the parties to adduce the same, provided that such evidence be not of primary importance to the case, but such only as is requisite to clear up some subordinate matter in the suit, or to cast light upon, or bring to test, evidence already given. (Section XVIII, Regulation IV of 1802.)
- 61. In obtaining and examining such further evidence the Courts are to follow the rules prescribed as above for guidance in the trial of original suits.
- 62. The improper admission or rejection of evidence shall not be ground of itself for a new trial or reversal of any decision in any case, if it shall appear to the Court before which such objection is raised, that, independently of the evidence objected to and admitted, there was sufficient evidence to justify the decision, or that, if the rejected evidence had been received, it ought not to have varied the decision. (Section LVII, Act II of 1855)
- 63. When the proceedings or decree of the Courts below may be found to be of so materially defective a nature as not to admit of remedy by the Appellate Court pursuant to the rules above laid down, and of a description not allowing of a decree in appeal being given in the case as it stands, the Appellate Courts, as a last resource, are to remand the suit to the Court below to have the requisite remedy supplied and judgment passed anew. (Section XVIII, Regulation IV of 1802.)
- 64. In so remanding a suit the Appellate Courts should restrict the lower Court to the particular point or points requiring remedy, and points determined in the primary degree not connected with the matter—calling for revision are to remain undisturbed. (Clause second, Section X, Act VII of 1843.)
- 65 At the same time the revised decree is to re-embody the findings of the primary decree in order to its own completeness. The form of such re-embodiment is to be thus. The primary degree is to be re-copied. The substance of the order of remand will then be given, and after that the finding upon that order. Should the remand cancel in express terms the decision originally passed, such decision need not be re-embodied in the second decree.
- 66. In cases wherein the Appellate Courts can proceed to judgment, if the grounds of objection to the decree of the lower Court urged in the appeal petition should raise questions of law and fact and it may appear to the Appellate Court that the case may be settled by determination of the question of law only, decree should be given accordingly without consideration of the questions of fact. (See rule for appeals to the Sudder Udalut in Clause third, Section XI, Act IX of 1855.)
- 67. Should the suit not admit of being thus disposed of and the further merits of the appeal require to be dealt with, the Appellate Court will take into consideration any one or more points raised in the petition of appeal or put forth into the answer thereto which may lead to a conclusive decision, it not being necessary to deal with the remaining points raised in the appeal petition where the means exist of arriving at a conclusive decision without pronouncing thereupon.
- 68. When the Appellate Court in coming to a decision on the appeal may differ in any respect from the judgment arrived at by the Court below on any point or points taken up for determination the grounds of such difference of judgment are to be explicitly stated. Every position held by the lower (Court in regard of such point or points is to be noticed and dealt with. When evidence is appreciated differently the reasons for the same are to be given. It will not suffice that the Appellate Court should say that it distrusts such and such evidence accepted by the lower Court, or that such and such evidence is

contradictory. The circumstances creating such distrust must be mentioned and the contradictions specified.

- 69. The appeal decree must distinctly declare how much of the original decree is upheld or revised where they may not be a confirmation or revisal in full of the original decree.
- 70. In framing the appeal decree the following rules are to be observed. After setting out the names of the Appellants and Respondents in the manner prescribed for exhibition of the names of parties to original suits a short statement is to be made in a distinct paragraph of the matter decided by the Court below which the Appellant seeks to have reversed. After this will follow an abstract of the grounds of objection taken to the decree of the lower Court arranged in numerical order—then the Respondents answer should be given—should further evidence have been called for, the grounds for such step must next be entered. When the point or points to be determined by such evidence, or recapitulation of any point or points entered in the original decree for the further elucidation of which such evidence may have been required, should be specified. After this the descriptive lists of the documents filed and the names of the witnesses examined are to be entered in the manner enjoined in respect of decrees in original suits. Then will follow the judgment given and the costs.
- 71. In referring in the grounds of judgments to the parties in the suit they are to receive their appellations of Plaintiffs and Defendants as in the original suit

SPECIAL APPEALS.

- 72 Petitions of Special Appeal presented to the lower Courts are not to be forwarded to the Sudder Udalut unless prepared according to the form prescribed by law. The grounds of objection to the decision appealed from are to be set forth therein concisely under distinct heads without any argument or narrative, and such grounds are to be numbered consecutively. (Section VI, Act XVI of 1853. Circular Order No. 134.)
- 73. Petitions of Special Appeal irregularly drawn upon are to be returned to the parties presenting them. At the same time, when necessary, a limited period (not exceeding 6 days in extension of the time prescribed for presentation of such petitions) shall be granted to enable the party to put in an amended petition, and the same is to be reported to the Sudder Udalut in sending up the petition. This indulgence is to be granted but once in each case. The rule given for acceptance of the primary stamp in retuined plaints and appeal also when amended Special Appeals may be received. (Clause first, Section 5, Act XVI of 1853.)
- 74. To enable the revising authorities to judge of the manner in which suits are brought to a close the following particulars are to be inserted at the foot of every decree;

The date in which the plaint or appeal was filed.

The date on which pleadings were closed.

The date of the preliminary hearing

The date of every subsequent hearing.

The date of the decree.

In an opposite column will be the dates hitherto required to show when the appeal time may expire

75. The Civil Judges will further be pleased to note in their quarterly communications the number of suits before themselves and the Courts below them of more than six months' standing, and where arrears of such suits may appear whether the lower Court have exerted themselves sufficiently to prevent the same

(By order of the Court,)

RULES RELATING TO THE REGISTRATION OF LETTERS, SENT THROUGH THE POST OFFICE.

Approved of by the Hon'ble the President of the Council of India in Council, on the 10th August 1855.

- 1. The system of Registration is applicable to all descriptions of Letters without distinction, but in the case of letters for Foreign countries from India, extends only to the port of despatch.
- 2. A Post-master, Deputy Post-master, receiver, or other Officer, on being applied to register a Letter, will demand a Registry Fee of Four Annas, and will write distinctly, on the front of the Letter "Registered Letter;" he will also stamp the Letter plainly, and enter the address and number of it on the left hand side of the Receipt Book with which he is furnished; he will next enter the number and address of the Letter upon the Receipt, so as to correspond with the entry in the counterpart. The Receipt will then be stamped with the dated Office Seal, torn out of the book, and given to the Poster.
- 3. The Registration Fee of Four Annas must be paid before a Receipt is given.
- 4. The full address of Registered Letters must be entered on the Letter Chellaun, and the Letter itself must be enclosed in one of the green printed covers that are minished? the purpose.
- 5. This green cover must be enclosed, ansealed, in the Bog of Packet addressed to the Delivering Office, or, when a Sorting Office intervenes, in the Packet in which Letters for the Delivering Office are usually sent.
- 6. No letter can be received in order to be registered, unless it is brought to the Post Office half an hour before the closing of the Box for the particular Mail or Bag by which it is to be despatched.
- 7. When from any cause, a Registered Letter cannot be delivered, it must be sent back, without delay, with the original green cover, to be returned to the sender. When a Registered Letter has to be re-directed, and forwarded, the original green cover must be returned to the Office of Despatch, and the Letter sent to its new address with a fresh cover. The full direction of the Letter must also be entered in the Letter Chellaun with which it may be forwarded.
- 8. On the delivery of a Registered Letter to the party to whom it is addressed, a Receipt in duplicate must be taken by the Delivery Peon or Letter Carrier, one of which Receipts must be returned to the Posting Office by the first Post, the duplicate must be carefully preserved by the Postmaster of the Delivering Office as the voucher for the safe delivers of the Letter: he will be held responsible for it if he cannot, when required, produce the Receipt as proof of the delivery.
- 9. The portion of the cover returned to the Posting Office must bear a clear impression of the dated Office Stamp, showing the day on which the Registered Letter reached the Post-master's hands; it may be sent open in the Bag or Packet.
- 10. No Letters can be refused to be registered, provided they are posted in sufficient time, and the Registration Fee is paid in advance, and that the other Regulations in force with each class of Letters are duly complied with.
- 11. Any neglect of these Regulations, which shall involve the loss of a Registered Letter will not only render the party guilty of such neglect liable to be called on to make good the amount of the loss sustained in consequence, but will be punished by dismissal from the Service.
- 12. That there may be no misconception as regards the course to be pursued with Registered Letters, it must be distinctly understood, that the person

to whose possession such Letter is last traced will be held responsible for it, as a matter of course, until he shall have discharged himself of the responsibility by a satisfactory explanation.

- 13. It will therefore be necessary for every Officer, on opening a Bag or Parket, immediately to seek the Letter Bill, and in the event of a Registered Letter being entered on it to certify its arrival, by attaching his initials to such entry; he will then place the Letter in its proper channel for disposal, taking an acknowledgment, by initials or otherwise, from the person into whose hands it may be given for delivery or despatch; each officer who may receive the registered Letter will pursue the same course, until it reaches the party for whom it is intended, when the usual Official Receipt is obtained on its delivery.
- 14. Should any entry be made on the Letter Bill of a Registered Letter, and such Letter (although it ought from its being separate from the others to be distinctly seen) cannot be found in the bag, the opener of the Bag must immediately report the circumstance, calling in, if possible, another person to verify the fact, before he has touched the other Letters.
- 15. With regard to the despatch of registered Letters, the same precautions must be observed, the Clerk who receives the Letter for despatch from the Poster must obtain a discharge from the Officer to whom he delivers it, and this Officer, and all others through whose hands it may pass, must pursue the same course. The Despatching Clerk will enter the Letter on the Bill, carefully checking it into the Bag or Packet, and will only be exonerated from his liability by the signature of the Receiving Clerk at the Office to which the Bag is addressed.
- 16. Every irregularity connected with Registered Letters must be instantly reported to the Inspecting Post-master and by that day's Post to the Post-master General, in order that innocent parties may not be involved in heavy responsibilities, which in reality do not attach to them.
- 17. Each Post-master will be responsible that every party employed in any Office in his Division is made acquainted with these Regulations, and will take their signatures as an acknowledgment of having pernsed and understood them.

N. B.—The demarrage to be paid to each Bearer for detention is I Anna for the first day, and $3\frac{1}{2}$ Annas for each succeeding day, reckoning from the time of the set being posted.

- 2. Travellers within the frontier will be furnished with Dâk Bearers on application to the authorities named in the margin, stating the places at which they will halt, and the number of hours they will remain at each. The Officer addressed will order the Bearers to be posted through the different authorities and inform the applicant in the event of any difficulty being experienced in laying his Dâk. In some places 10 days' notice will be requisite. The Traveller will be fur-nished with a list of places where the Bearers are posted by each authority on entering his range.
- 3. Each Traveller is henceforth required to pay the Bearers their hire and the charge for torch and oil, personally, on his arrival at the end of the stage, according to the English Memorandum (in the annexed Form) fur-

nished to the set by the Officer posting them. The rate of charge for demurrage according to Rule 8 will be stated at the foot of the Memorandum, and whatever amount may be incurred by the Traveller must also be paid at the end of stage. No relaxation of this rule will be permitted under any circumstances.

- 4. To protect Government from all loss, the application for a Dak, in the case of parties belonging to Her Majesty's or the Honorable Company's Services, must be accompanied by an assurance in writing that all charges incurred for their Dak will be paid on demand From all other parties the security of a House on Agency for the payment of all charges on demand, is requisite; but the Officer laying the Dak may, at his discretion and on his own responsibility, accept a written assurance to the same effect in lieu of the above security.
- 5. A set of Dak Bearers will comprise fourteen men, viz. twelve Palankeen Bearers, one Masaljee and a Cawady Cooly. When Cawady Coolies cannot be procured, two Coolies will be employed instead, at the same cost.
- 6 The rate of hire to be paid to the Bearers will be fixed by the local authorities. When Bearers are brought from a distance, the Traveller will be required to pay them the regular hire and travelling hire.
- 7. Sets of Bearers shall receive (3) three Pice each Bearer for every mile they travel to their post, which allowance is called travelling hire, except for such part of the road as they travel over again with a loaded Palankeen, for which part they shall not be entitled to travelling hire, unless the distance which they travel to their post exceeds 40 miles, in which case they shall be entitled to travelling hire for the whole distance, notwithstanding they return over a part or the whole of it with a loaded Palankeen.
- 8. If bearers are detained on the road, they are to receive (1) Anna each for the first day, and (3½) three and half Annas for each succeeding day, from the party for whom they are posted, whether they are used or not, and after remaining 3 full days they will be discharged and without further instructions return to their homes, unless notice is given for their further retention—Bearers carrying an empty Palankeen shall be entitled to (1) one Anna and (6) six Pice per mile, for the distance they convey the same, in addition to any travelling him to which they may be entitled under these Rules.
- 9. When a Dak has been ordered and circumstances may cause the Traveller to postpone his journey, or to abandon it altogether, he will be liable to all charges actually incurred in like manner as if he had employed it.
- 10. When bearers are posted for a Traveller, no other Traveller shall employ them, without the authority of the Officer who posted them; but should any individual so act in violation of the orders of Government, he will be liable, in addition to the hire of the Bearers used to all and every extra charge incurred, by the Traveller for whom the Dåk was originally laid.
- 11. In order to facilitate the keeping of accounts, all fractional portions of a mile will be struck out. If the fractional part exceed the half, the Bearers will enjoy the benefit of a full mile—if less than the half, they will not be entitled to any hire for the same.
- 12. All charges of hire shall be made agreeably to the Table of distances and routes in the Madras Road Book.
- 13. The load for a Cawady Cooly shall not exceed 50 lbs. weight, divided as nearly as possible, into two equal portions of 25 lbs. each.
- 14. All applications on the subject of posting Bearers (except when made on service by one Public Officer to another) shall be post paid, and superscribed "Bearer Service," in order that no delay may occur in their being opened by the proper authority. If this is infringed, the Traveller will be held responsible for any charge that may be incurred consequent thereon.

- 15. In all cases of charges being made which to the parties concerned may appear irregular, the decision of the Post Master General shall be final, unless the charge complained of was made by the Deputy Post Master General, when alone an appeal is permitted to Government. Travellers are not however on this plea to withhold payment from the Bearers of any sum entered in the Memorandum presented by them—all such objections will be subsequently adjusted.
- 16. It is to be understood, that although Government has directed its Public Servants to lay Dâk Bearers for the convenience of the Public, and will cause due pains to be taken to ensure regularity and a punctual attendance to all requisitions, yet that neither Government nor any of its Officers are to be held responsible to the Traveller, for any unavoidable disappointment he may meet with on his journey, or for the expenses consequent thereon.
- 17. All parties availing themselves of the services of the Officers of Government for laying Daks are to be held as ipso facto binding themselves to adhere to the above Regulations.
- 18. Nothing in the foregoing Rules is intended to interfere with Travellers applying to private individuals to post their Bearers, should they prefer making their own arrangements without the intervention of the Public Authorities.

Published by order of the Right Honorable the Governor in Council.

Messages between Madras and Bombay, or Ootacamund and Bombay, are charged two distance rates, and messages between Madras or Ootacamund, and Calcutta, six distance rates; between other Stations, messages are charged at the rate of one Rupee for every sixteen words transmitted four hundred miles.

One Rupee is the minimum rate for Telegraph messages, excepting between Madras and the Mount, and Poonamallee, between which offices, the charge is four annas for every sixteen words.

Messages may be repeated at an extra charge of one half the amount.

When there is any interruption to a communication, information is given to all Stations, and the Assistants in charge are required to intimate the fact to parties presenting messages for transmission over any section of the line along which there is no Telegraph communication.

A refund may be obtained for money paid for repeated messages in case of non-delivery, unreasonable delay, or gross error.

Bulletins of Mail news are given free to the Madras Press, and delivered to Subscribers on pre-payment of two Rupees per mensem.

REMARKS.

To avoid all chance of error in the rates at which it is wished to sell articles, &c. &c. messages of this kind should be sent in the following manner. Sell five thousand or twice two thousand five hundred bags at Rs. three and half or twice one and three quarters each bag. The assistant on finding that the last sum doubled does not agree with the first, applies for the correction of the message.

Parties can receive "Bearing messages" from distant stations by depositing money at the offices as security for the payment of these messages.

Note.—The distances are computed thus: up to 400 Miles as one, beyond 400 and within 800 Miles as two, &c. &c. according to the lengths of wire between Telegraph Stations.

Stations.

The ordinary time for conveying messages from Madras to the most distant stations is from 4 to 6 hours; but much depends on the work on the line.

RULES FOR THE TRANSMISSION OF MESSAGES BY THE ELECTRIC TELEGRAPH.

(Passed by the Governor General of India in Council on the 5th January 1855, and modified by the Hon'ble the President in Council

on 4th May 1855.)

RULES.

- I. Messages on the Public Service shall take precedence of all others.
- II. Service Messages shall be charged for at the same rate as private Messages, but the former shall be paid for by transfer in account, covered by a pro forma receipt, without cash payments.
- III. A return shall be made every quarter to the Government of India and to the local Governments, showing number and cost of Messages transmitted by each Department during the preceding quarter.
- IV. No Government Officer shall employ the Telegraph except on urgent and inportant occasions, and no Message shall be sent on Service by the Electric Telegraph unless the saving of the time effected by the Telegraph is of real importance.
- V. At the seats of the local Governments authority to despatch Messages is vested in the head of the Government and in his Private Secretary. All other Service Messages, Civil and Military, shall be sent under the authority only of the Chief Secretary to Government, and of the Chief Military Officer, respectively.
- VI. At Calcutta, Messages will be sent under the signature of the Governor General, of his Private Secretary, and of the Secretaries to Government. The power of communication along the river is also vested in the Superintendent of Marine and the Master Attendant.
- VII. At Telegraph Stations not being seats of Government, no Service Message shall be sent unless it be signed by the Chief Civil or Military Officer of the station, each for his own Department.
- VIII. The Officer who signs the Message will be responsible for the necessity of sending it by the Telegraph, and if on the periodical inspection of the Station-books it shall be discovered that Messages of a trifling nature have been despatched, the officer who authorized them will be made to pay for them.
- IX. Officers, whose signatures will authorize Messages to be sent free, are bound in honor not to send private communications under cover of that authority.
- X. All Service Messages must be conveyed in few and as short words as possible.
- XI. Messages will be received for transmission by Electric Telegraph at the undermentioned rates of charge and subject to the following rules:—

Messages of 16 words and under, including the name of the sender, the name of the person addressed, the date (if inserted), and the names of the places of despatch and destination (unless they be also the names of telegraph stations,) will be sent a single distance along the line for one rupee.

Messages, as above exceeding 16 words, but not exceeding 24 words, will be sent a single distance, along the line for one rupee and eight annas.

Messages, as above, exceeding 24 words, but not exceeding 32 words, will be sent a single distance along the line for two rupees.

And for every additional 16 words, or fraction thereof above 32 words, there shall be charged, for a single distance an additional rupee.

A single distance is commonly any distance not exceeding 400 miles; and

for every additional single distance above 400 miles, there will be made an additional charge equal to the charge made on the same Message for a single distance.

No charge is made for stops, or for prepositions or such words as "and Co." "Mr." and "Mrs." occurring in the address of a Message.

The name of the sender, of the person addressed and of the place of address, must be written on the face of every Message.

The date may be written or not at the opinion of the sender.

A single distance from Calcutta will include Benares, Mirzapore, and all intermediate stations.

A double rate from Calcutta will include Agra and the intermediate Stations at Allahabad and Cawnporo.

A treble rate from Calcutta will include Meerut, Delhi, Loodiana, Lahore, Gwalior, Scepree and Indore.

A quadruple rate from Calcutta will include Peshawur and Bombay. Six rates include Madras.

Peon hire, at the rate of 4 annas per mile, will be charged for extra, if the Message be sent to any place at a distance beyond half a mile from a Telegraph Station.

- XIII. Mercantile or other Messages involving important results, will only be received on condition of being repeated back from each Receiving Station, and half price will be charged for repetition according to the practice in Europe.

XVI. The sender of a Message may pre-pay the charge for a reply, which must be limited to the number of words so pre-paid for.

- XV. All Messages must be in the English language and must be pre-paid in cash, including Peon hire, excepting Message, sent from River Stations below Calcutta.

- XVIII. All communications in cypher must also be repeated back to obtain accuracy, and the repetition will be charged for in addition at single rate.
- XIX. Should a Message in cypher be tendered for transmission simultaneously with a Message in ordinary language, the letter will take precedence of the former.
- XX. Subscriptions for daily Messages of 48 words or more, will be received at an abatement of one-fourth of the abovenamed rates.
- XXI. Violation of secrecy on the part of any Officer, Assistant, Clerk, or Signaller, in the Telegraph Department, will be punished by dismissal from Office, forfeiture of arrears of pay, and a declaration in the Official Gazette of the incapability of the delinquent to serve the Government in any public capacity.

CECIL BEADON.

Secy. to Govt. of India.

DESPATCH OF MESSAGES BY POST AND TELEGRAPH, FROM PLACES NOT HAVING TELEGRAPH STATIONS—PRE-PAYMENT BY STAMPS.

All Post Masters will be provided with copies of the preceding rules and a Table of distances, shewing the rates to be charged for a Message of 16 words between any two places on the lines.

Thus, the distance between Meerut and Calcutta is marked in the Table as 3, which means that a message of 16 paid words, is charged at 3 rapees—a message of 17 to 24 words Rs. I-8—a message from 33 to 48 words rapees 9—the charge for any given number of words being multiplied by the number in the Table—and half added in case of repetition. Thus a repeated Message of 32 words between Meerut and Bombay will be charged—

32 words at single rate Rs. 2; sent 3 distances Rs. 6; add one half for repetition—total, Rs. 9.

The Post Masters will explain the rules and rates to applicants, and inform them of the nearest Telegraph Stations from which their Messages can be despatched.

The message is then to be written on a stamp of the required value, according to the subjoined form, in which the numbered words are those charged for—the words not numbered are passed free. The stamps are procurable from all civil treasuries, and from the regular licensed vendors.

The message must be written on the stamped paper, and if two stamps are required the message must be written across both.

The stamped messages are then to be sent by post under envelopes, marked conspicuously "ELECTRIC TELEGRAPH DESPATCH;" all such despatches will have priority of delivery at the receiving Post Offices to Telegraph messengers, who will be kept always in attendance.

It is strongly advised that such messages be sent as Registered letters—a copy of the message should also be sent by post to the party, addressed in the usual manner.

The sender of a message must accept all risk of delay, non-delivery or error.—No refund will be made of fees.—[Orders of Governor General in Council, No. 375, dated 30th March, 1854, para. 4.]

Complaints regarding missing or inaccurate messages will receive immediate attention, and all cases of neglect on the part of the Assistant be severely punished.

In the address of a message the names of the places are not charged if there be telegraph stations at such places—but names of places having no telegraph stations—of quarters, streets, or houses, and all such special directions, will be charged word for word—[Orders of the Hon'ble the President in Council, dated 4th May 1855.]

In the address of a message the words Mr.—Mrs.—Miss—Messrs.—and Co.—From, For, To, are passed free—but all these words in the body of the message are charged for.—[Orders above quoted.]

Dates are optional, and may be given without name of the month, as "Wednesday"—or 23d—&c.—&c.

Numbers are in all cases charged for word by word as if written in full—thus 1855, are five words.

The name of the sender of a message must be given in all cases, and be written on the face of the message.—[Orders of Government, dated 4th May 1855.]

In names, each initial is counted as a word, and it is strongly advised that the Christian names be spelt in full.

No charge is made for the stop; notes of interrogation, admiration, and inverted commas are not transmitted.

Senders of message are advised to use the shortest and most familiar words they can select. The more intelligible a message is, the greater is the certainty of its being transmitted free of error.

Senders are also advised to specify the streets and numbers of the residences of the persons they address, especially with reference to Calcutta, Bombay and Madras. The Telegraph offices have necessarily but small delivering establishments, and many messages sent merely to "Calcutta," "Bombay" or "Madras," miscarry through this omission.

Messages which must be repeated include all those sent on mercantile, banking and money business of every kind; and law matters, freight, shipping, insurances, and markets.

Repetition is also recommended in the case of family messages of special urgency.

MADRAS RAILWAY COMPANY.

- 1 The Deed of Settlement of this Company was signed on the 26th July 1852 it was completely registered in September of that year, and was incorporated under the above name by Act of Parliament XVI and XVII, Vic Ch 46, for the purpose of making and constructing one or more line of Railway in the Madras Presidency
- 2 In December 1852 a contract was entered into between that Company and the East India Company to the following effect viz to construct an experimental Line of Railway to commence at Madras and to take a direction towards the Western Coast of India, the estimated cost of which was 500,000 pounds sterling
- In the last India Company engage to pay a sum equal to 13 per cent per annum on the capital raised by the Company and paid into their Treasury, to be expended in the construction and management of the works. Smould the working expenses of the Line absorb the whole receipts of the Traffic, the Sharcholders will by the agreement still receive their 13 per cent interest, should the receipts be in excess the amount will be carried to the credit of the guaranteed interest until it amounts to 13 per cent and should further profits be related half the excess is to go to the Sharcholders of the Railway Company and the remainder is to be paid over to the Government to reimburse them for the unount paid under their guarantee during the period of the construction of the Railway and such other time as they may have been called upon to make 1 is munts on that account. Should the profits amount to more than 10 per cent, the rates of tolls are to be reduced.

On the other hand if the Rulway in its worling should prove unprofitable or from any other motive it may 1 defend advisable within 99 years the Rulway Company have the power to at an Ion the Line to the East India Company after three months smaller the worling and six months' notice and the sum expended on the construction of the Line is to be rembursed to them or an Annuity Commutation 1 c., instead of paying a gross sum of money it shall be at the option of the Last India Company to pay an annuity to be reckoned from the time when the gross mount would be payable and to continue during the residue of the said term of 99 years. The Last India Company grant a free lease of the Linds over which the Rulway will pass for 99 years, and reserve to themselves the option of purchasing at the expiration of twenty five and fifty years. Mails use to be cuited free. Soldiers ind Government Stores it the lowest rate charged for similar goods the works to be constructed under the supervision of the Government.

- 5 By Act of Parliament XVIII Vic Sess 1854 55, the Board of Directors of the Company are empowered to establish Offices in India for the issue and rigistration of Shares, Registers will be kept in Offices in India for the transfer of Shares, but none of such Shares are ever to be on the Register of

more than one Office at one and the same time. Shares however, may be transferred from one Register to another at the option of the holder, that is, from the Register at Madras, to the Register in London or vice versa.

The Company have recently engaged to construct a Line of Railway from Madras to join the Trunk Line from Bombay; estimated cost of construction £2,000,000.

- 6. The Madras Railway was opened for Traffic as far as Arcot a distance of 65½ miles on the 1st July 1856. Leaving the Arcot station at Amoor the Line crosses the Poiney River at Trivellum by a granite bridge of 56 arches, thence keeping the left bank of the Palar till near to Amboor, where it will cross that river and continue along its right bank to about 10 miles west of Vaniembaddy, whence the Line tends southerly to the foot of the Shervaroy Hills. It passes near to Salem on to Coimbatore: thence to Paulghaut and terminates at Beypoor. Nearly the whole length of the Line is now under construction.

GOVERNMENT CENTRAL MUSEUM.

Instituted (BY THE MADRAS GOVERNMENT,) 14th August, 1851.

Admission Free, daily, Sundays excepted, from 6 A. M., to 6 P. M.

Officer in charge.
Edward Balfour, Esq.
Curator.

P. RUNGASAWMY MOODELLIAR.

This Institution is at present located in the Paintheon on the Pantheon Road, but it will ultimately find a place in the New University which it is now proposed to build, and in which 48,000 feet have been allotted for the Museum. Calcutta has long had a Museum, rich in specimens illustrative of Natural History, and from the year 1819, several efforts were made to establish one in Madras, but the only result was the Polytechnic Institution which has now been finally closed, but which owed its origin to one of those attempts. In the beginning of 1851, however, Government accepted Mr. Balfour's offer to undertake the duty, and shortly after issued the following

NOTIFICATION.

DATED FORT ST. GEORGE, August 14th 1851.

The Honorable the Court of Directors, having expressed their approval of the establishment of a Central Museum at the Presidency, and of local repositories in the interior, the Madras Literary Society, with a desire, of promoting the Honorable Court's views, lately presented their collection to Government. The Right Honorable the Governor in Council, has added the duplicate specimens remaining after despatching the articles for the Grand Exhibition; and he now invites the servants of Government, and the European and Native community in general, to assist in the development of the Government Museum, which is open in the College of Fort St. George.

The whole of the upper part of the College of Fort St. George has been allotted for the specimens; an allowance, which Assistant Surgeon Balfour, the officer in charge, has reported to be, for the present, sufficient, has been sanctioned for an establishment, and for the purchase of specimens; and further arrangements will be made as the Institution expands.

The Governor in Council is of opinion that the Central Museum at the Presidency, should combine the objects of a Museum of Practical or Economic Geology, and of a Museum of Natural History, for which the specimens from the Mineral, Vegetable, and Animal Kingdom, and those of Machinery, Manufactures, and Sculptures, already collected admirably serve as a commencement.

In the extension of a Museum of this nature, every person may have it in his power to aid, as every point of information, and every specimen that may be sent will be acceptable; but, in order to guide contributors and to give publicity to the arrangements and objects of the lustitution, the officer in charge will occasionally print and circulate notes and extracts from publications on points connected with subjects likely to be of use.

The very numerous and liberal donations already received from the European and Native community, encourage the expectation that the Museum which is even now of importance, will soon become greatly increased; but much assistance is anticipated from the various departments of the Government, who will give the officer in charge every aid in their power, and second the efforts of individuals disposed to respond to this invitation.

Communications from the Provinces, addressed to the officer in charge of the Madras Government Museum, will be received free of postage, and parcels containing specimens similarly addressed, if delivered at the Cutcherries of Collectors,

or to the Officers of the Commissariat or Ordnance Departments, will be forwarded by those officers to the Presidency, as opportunities may offer.

By order of the Right Honorable the Governor in Council.

H. C. MONTGOMERY,

Chief Secretary.

The Museum is free to the public, who have evinced the interest that they take in its success by their liberal donations to the collections, and by the gradually increasing number of visitors; these amounted in the year 1855, to 201,987 and the number of visitors in the year 1856, was more than 500,000. These numbers will be regarded as considerable when it is mentioned that the visitors to the British Museum in 1855 were only 334,089; to the Royal Zoological Gardens in 1854 they were 407,676; and in 1855, to the Kew Gardens 318,818. Excepting specimens illustrative of Botany, the Government Central Museum, in its objects, embraces Economic Geology and all the branches of Natural History; a Zoological Gardens; a public library; and collections of coins and antiquities; but, as the objects in view at its origin, and the advantages and uses of Museums, are well explained in the following remarks, which form Mr. Bulfour's preface to one part of his Catalogues of the Museum, it is given at length, only adding a few observations to bring the history up to the present time.

PREFACE.

My Report to Government, dated the 30th July, 1853, gave a brief history of the Madras Central Museum, and it will be sufficient, therefore, to preface the first part of the Catalogue with a few general remarks on the origin and objects of museums; the purposes for which this one has been established; the points that the visitors to it should keep in view, and an explanation of the system followed in the Catalogue.

The term Museum is derived from a Greek word, signifying a temple of the muses, and we know that at Athens, Rome, and other cities, such temples were creeted; but whether, like modern museums, they contained collections of natural and artificial curiosities, we are not so exactly informed. At Alexandria, in Egypt, Ptolemy Philadelphus, the second of the Greeian Kiugs of the country, established not only a public library in the Temple of Serapis, but also a kind of academy, or literary institution, called the Museum, supplied with professors who employed themselves in instructing pupils by their writings, conversations, and lectures, the subjects being philosophy and other sciences.

The probability, however, is that there were many students of Natural History, in the most ancient times; for, in the overwhelmed city of Pompeii, destroyed in A. D. 79, by lava, in the room of a painter, who was probably a naturalist, a large collection of shells was found, comprising a great variety of Mediterranean species, in as good a state of preservation as if they had remained for the same number of years in a museum. We know, moreover, that on the revival of science in western Europe, after the fall of the Greek or Constantinopolitan Empire, the princes and nobles formed collections of relics of art, of specimens of natural objects and other productions, constituting cabinets and nuseums. The discovery of busts, statues, bas-reliefs, inscriptions, and other antiquities of various kinds, led to the formation of many museums in Italy (where such subjects abound), earlier than in other countries; the Medici, Dukes of Florence, particularly signalizing themselves by the liberality and magnificence they displayed in procuring relics of antiquities, and valuable manuscripts and works of art, at a vast expense. In the seventeenth and eighteenth centuries numerons museums, some exclusively appropriated to objects relating to one science only and others of a more miscellaneous nature, were formed; not by kings and princes only, but by numbers of private persons: some of whom devoted themselves to the task of collecting during a considerable part of their lives, traversing foreign countries, regardless of all toil or danger: other individuals, favored by fortune, were enabled to employ their wealth in making rich and abundant collections of curiosities, availing themselves of the services of men of science and research, who explored the world at their expense.

In England, John Tradescant, collected curiosities of various kinds and his museum constituted the nucleus or foundation of the famous Ashmolean Museum

James Petiver, a London apothecary, formed a cabinet of natural at Oxford. history; in Holland, Albert Seba distinguished himself as a collector of similar curiosities; and in that country, also, John Swammerdam devoted much time and labour to the study of entomology or the natural history of the insect tribes, and to the formation of a valuable museum. The Ashmolean Museum, just mentioned, was presented in 1836, to the University of Oxford by Elias Ashmole, an eminent herald and antiquary. It comprised originally specimens to illustrate natural history, and various artificial curiosities, especially Roman antiquities; and since its etablishment numerous additions have been made to it. Among the most celebrated collectors in England during the last century may be reckoned Richard Mead, an eminent physician, who accumulated a valuable cabinet of coins and medals, besides other interesting objects; his rival, Dr. John Woodward, who applied himself especially, but not exclusively, to the collection and illustration of British minerals and fossil remains; and Sir Hans Sloane who, at his demise, bequeathed to Government his magnificent museum and library, in the formation of which he had expended upwards of five lacs of rupees. This formed the foundation of the British Museum to which has since been added the donations of many eminent and great men as well as the extensive collections which the large annual grants from the Imperial Parliament, reaching latterly to five, six and seven lacs of rupees for all purposes, have enabled the Trustees to purchase. The British Museum is not supplied with professors to instruct those desirous of information, but has a large staff of officers, whose employment it is to superintend the arrangement, preservation and exhibition of the objects of various descriptions comprised in the collection. This consists of a Library of printed books and manuscripts, of objects of Natural History in the animal and mineral kingdoms and a magnificent collection of Sculptures, Coins, Drawings and Engravings. Its objects, it will be observed from this, are few; nevertheless, it is the most extensive in Britain, perhaps in the world, though there are in London, Edinburgh, and Dublin, indeed in nearly every large town in Britain, museums which have attained a considerable size. Imperial Parliament granted £85,000 or eight and a half lacs of rupees for the expenses of the British Museum for the year 1856-57. On the continent of Europe, picture galleries, sculpture galleries, and collections of natural history are to be met with in all the principal towns, and in America the collections that have been made rival those of the old world. The oldest muscum in India is that of The Asiatic Society of Bengal, which includes a museum of Natural History and a museum of Economic Geology, of which Mr. Blyth and Mr. Piddington, for several years past, have been the respective curators, and under whose care great extensions have been made, and Mr. Oldham the Superintendent of the Geological Survey is now employed in establishing in Calcutta, a Geological Museum, of which that hitherto in charge of Mr. Piddington, will form the Nucleus. The Bombay Asiatic Society likewise possess a Museum, which is particularly rich in specimens of natural history, which has been greatly indebted to Dr. Carter's efforts, and Bombay also has now an Economic Museum which originated in Dr. Buist's exertions and which Lord Elphinstone has this year most liberally taken under the patronage of Government, placing Dr. Impey in charge. For some years past a museum has existed at Singapore; one also at Agra and I gather from letters that one has recently been commenced at Roorkhee, by the officers there, and one at Saugor. These institutions all originated and are nearly all of them supported by the European population of their respective communities, but it is the Madras Government to whom is due the credit of being the first of the Governments of this country to establish museums as Institutions of the State, and I trust that under their auspices, museums of Natural History and Economic Geology will soon be seen in all the larger towns in Southern India. Within the past two years, indeed, the Madras Government has authorised six local museums, at Bellary, Cuddalore, Coimbatore, Mangalore, Ootacamund, Rajahmundry, Lieut. Winscom formed one at Jubbulpore, and His Highness the Rajah of Travancore one. The numbers of such institutions already existing and their steady increase, everywhere, imply that they provide for some want that is generally felt; and such is in truth, the case; for to all engaged in particular scientific pursuits, museums, whether they be their own private property or belong to the public, are essentially necessary to enable them to follow up their own investigations, and institutions of this kind afford amusement and instruction to all who take an interest in examining the works of nature and of art. "On taking a leisurely survey of a well stored and well arranged museum, the thoughtful observer cannot fail to be struck with the endless variety of forms and the wonderful adaptations of means to certain appointed ends which abound in the kingdom of nature. Every single specimen, whether it be of an animal, a plant, or a mineral, has a history to tell, full of design, abounding in instruction, and replete with beauty. All

these varied forms, gathered from all parts of the earth, grouped with the method and order of a scientific mind, are, to a certain extent, exponents of the method and order of the divine Architect, who in planning the fabric and willing the existence of the meanest of His creatures, had in view certain wise and benevolent ends, which it is our duty and privilege to study, and as far as possible to understand. It may in many cases be difficult to see the uses of the beings and objects on which so much care has been bestowed, and for whose propagation and presevation so many precautions have been taken; but we must bear in mind, that the use of an object does not always mean its direct application to the wants or the pleasures of man. It doubtless has its uses in the great scheme of nature, and as such the naturalist regards its economic application as of secondary importance. Hence, if rightly viewed, there is not a single object, however mean, which does not in some way or other appeal to our sympathies, excite our interest, and confirm our belief in the constant care of a protecting Providence."* But visitors who saunter listlessly and purposeless in and out of a nuseum can never hope to experience such pleasing emotions as these, and it is to be feared that it is but too common an occurrence for many who enter institutions of this kind to quit them again with only some vague indistinct idea of having seen many curious things of which they know neither the objects nor the uses. Such profitless termination of a sight seeing is the result solely of the collections being examined without any definite purpose. By attempting too much; by trying to learn at one or even at a few visits all that a museum can teach, the mind becomes bewildered amongst the multitude of things that meet the eye, and in reality acquires no distinct knowledge of any thing it contains. And visitors may rest assured that it is as impossible for a person to profit from a cursory examination of a museum, however methodically arranged it be, as to acquire a knowledge of all in the animal, vegetable and mineral kingdoms, and in the arts and manufactures (of specimens from all which museums are composed), without that close attention and prolonged study which the acquisition of every branch of knowledge demands. If visitors desire to economise their time and profit by their sight seeing they must enter such institutions with some definite object, otherwise they will return carrying with them only indistinct glimmerings of information, vague undefined notions of the many curious things that they had just seen, the nature, uses, or even forms of which, however, had made so little impression upon their minds that they cannot be recalled with vividness sufficient for any useful purpose.

In establishing at Madras the Government Central Museum, it was from the first intended to form a central institution connected with branch museums or repositories in the provinces, all working together and affording mutual aid by an exchange of specimens. The notification of the 14th August 1851, also mentioned that the Central Institution should combine the objects of a Museum of Natural History and a Museum of Economic Geology, and that the Officer in charge would occasionally print and circulate notes and extracts from publications on points connected with subjects likely to be of use. Of those objects some have been fully carried out, Amongst the periodical returns transmitted to Government, several reports on economic products have already been published; arrangements are now making for establishing local museums in the larger towns: and the museums in the Central Institution itself have been fairly formed. It consists of a Museum of Natural History with Zoological Gardens attached; a Museum of Geographical Geology; a Museum of Economic Geology, and a public library. In the latter only a beginning has been effected, but the foundation has been laid and it can be rapidly increased whenever desired. The Museum of Economic Geology will aid in extending amongst the community a knowledge of the raw and manufactured products of this country and of the world in general, and although a report on the marbles of Southern India and another on this country's iron ores and iron and steel, have already appeared, there are ample materials in this collection for hundreds of such resumes. The articles in the Economic Museum have been arranged upon the plan adopted in the Grand Exhibition of 1851, under the four Sections of RAW MATERIALS in the mineral, regetable, and animal kingdoms; Machinery; Manufactures; and Scultures, Models and the plastic art; the progress may be judged of by mentioning that this department contains about 10,000 specimens in all its sections.

The Museum of Geographical Geology contains a very extensive collection of spectmens of the rocks and minerals from the provinces over which the army of the Madras Presidency extends, and all so arranged that the geological features of each Civil and Military division can be studied separately.

^{*} Tomlinson's Cyclop. p. 1.

It is in the well classified and extensive Museum of Natural History, however, as the department of the institution which would be the soonest required for public instruction, that every opportunity for naming and arranging the specimens has been employed. This museum contains many specimens illustrative of mineralogy, which have been arranged according to the system of Phillips; the departments of enthyology and conchology are rich, and in the collection of birds also much progress has been made.* In the geological department the specimens illustrative of the aqueous formations already form an extensive collection, and with the ignoous, metamorphic and volcanic series of rocks are sufficient for all the purposes of instruction in geology. It is with this department, therefore, that I have commenced printing the catalogue of the museum. But the collection of minerals, for teaching systematic mineralogy: and the collection of molluscous animals are both very extensive, and the catalogues of both, have been completely printed.

In arranging the geological specimens and therefore, in preparing their entalogue the system followed is that adopted by Sir Charles Lyell, whose philosophic views seem to be the most generally acknowledged. Following his manual, accordingly, the first part of the catalogue will be found to contain a list of the aqueous rocks, arranged as rocks, without reference to their ago. In this, termed the lithologic arrangement of rocks, there are four groups, the sandstone, clay and lime-stone groups, with a group of Intermixed rocks. The second part of the catalogue contains the aqueous rocks, along with the fossil remains which have been discovered in them, all arranged according to their respective ages, from the newest to the oldest formations. This is termed the chronological arrangement of rocks. I have been principally indebted for these speimens illustrative of paleontology to the kindness of Sir Charles Lyell and Professor Morris of the London University, and as few even among long established museums can show a more varied collection or can give such well known names as their authority for the correctness of the nomenclature, a good opportunity is now afforded those desirons of studying the natural history, the fauna and flora of geology; the now extinct plants and animals which have in succession, through immense geological periods, been the occupants of the earth; have served the purposes they were created for and then have died to be replaced by other and newer forms.

The Government Central Museum contains in all its departments about 34,542 specimens, amongst which the meditarive mind will find abundance for reflection, and whether the rock and mucral specimens be the subject of the visitor's investigation; whether his eye be wandering over the multiplied varieties of birds and quadrupeds, and shells and fishes, and great reptiles, whose living congeners we may daily see around us; or the visitor be examining wonderingly the fossil remains of plants and animals now extinct, if familiar with the words of the Psalmist he may well respond "O Lord how manifold are thy works! in wisdom linst thou made all: the earth is full of thy riches; so is this great and wide sea wherein are things exceping innumerable, both small and great beasts." "Thou takest away their breath, they die, and return to the dust: Thou sendest forth thy spirit, they are created, and thou renewest the face of the earth."

Amongst the recent changes connected with this institution is the addition

mittee of the principal residents of their respective localities. But, in addition to these, there is a museum years past, been in existence at Singapore; another was

which has, for some years past, been in existence at Singapore; another was last year established at Jubbulpore, and General Cullen, with whom the scheme originated in 1848, has instituted a third at Trevandrum, making nine museums all within the limits occupied by the Madras Army. The crowds of Natives, about 2,000 a day who throng to the Central Institution, comparatively little compared with the future, as there is as yet to see, and the tumultuous manner in which they express their enjoyment, sufficiently attest the vast importance, in a social point of view, of this act of liberality on the part of the Madras Government, for the community in general; furnishing, as it does, the more educated classes with the means of studying or teaching the natural sciences; enabling the revenue Offi-

cers to ascertain and develop the natural capabilities of their several districts and of recording discoveries made, it is not being too sanguine to hope that these new Institutions will bring a good return to Government in the better knowledge of this country's mineral, vegetable and animal products, which they must almost immediately create. When the museums in the interior provinces shall be fairly in operation and the Political Officers of Mysore, Hyderabad and Nagpore shall have been able to institute others in their several localities, the net work of these institutions in the Peninsula will be complete and the collections of minerals, rocks and fossils, that will gradually be gathered into them will afford considerable facilities to those who, sooner or later, must commence the geological survey of Southern India. It may be well here, however, to show the actual progress made in the several departments of the museum.

III. The Military and Medical Officer of Her Majesty's or the Honorable Company's Service, in Civil or Political employ, will be required to produce, in addition to the certificate from the Pay and Audit Department mentioned in Clauses I and II, an acquittance from the Civil Department. This acquittance will be obtained from the Civil Auditor Fort St. George in the case of Officers (such as those employed in the Hyderabad Contingent, Mysore, Thuggee Department, &c.) under the orders of the Government of India, from the Department by which their charges for salary or allowances may have been audited.

IV. Military Officers employed in the undermentioned Departments will be required to produce, in addition to the no demand certificates mentioned in Clauses I and II, acquittance from the functionaries named opposite to each

class :

Department of Public Works Chief Engineer Department of Public Works.

Commissariat Department including Stud Department. . Auditor of Commissariat Accounts.

Ordnance Department..... Military Board.

V. Quarter Masters of Regiments will be required to produce, in addition to the acquittance mentioned in Clauses I and II, a certificate from the Commanding Officers of their respective corps, to the effect that cash balance and half mounting stores under their custody have been duly transferred to their successors.

VI. All Officers requiring acquittances under these rules are reminded of the necessity of using every means in their power for the settlement of their public accounts, and of making timely application for the requisite no demand certificates, in order to obviate inconvenience to themselves from any delay in

the issue of the certificates by the several Departments concerned.

VII. All Military and Medical Officers entrusted with the disbursement of public money in the Civil, Political, Public Works, Pay and Commissariat Departments, having accounts with the Government Accounts at the Presidency, and desiring to quit the country, are especially enjoined to notify their intentions to the Military Accountant three clear months prior to the period of their probable departure, in order to afford that functionary sufficient time to obtain returns of their existing liabilities and to adopt the necessary measures for their adjustment.

VIII. Officers failing to produce certificates of no demand under these rules will be required to submit in lieu a sufficient guarantee for the due adjustment of all claims against them for the approval of Government; but in the case of Officers who have deposited the prescribed security on his appointment to any office of trust, it will be discretionary with the Government, on a report from the Military Accountant as to his existing liabilities and the sufficiency of the security already deposited, to determine whether any further guarantee shall

OFFICERS RETIRING, &c. FROM THE SERVICE WHILE SERVING WITHOUT THE LIMITS OF THE MADRAS PRESIDENCY AND BEYOND SEA.

GENERAL ORDERS BY THE MOST NOBLE THE GOVENNOR IN COUNCIL.

FORT ST. GEORGE, 9th May 1845.

No. 85 of 1845.—1. In order to obviate as far as possible risk of loss to the State, as well as to facilitate and expedite the adjustment of the accounts of officers of the Madras Army, who may resign, retire, or be removed from the service, while serving in the Tenasserim Provinces, Straits' Settlements, China, Aden, or elsewhere, without the limits of this Presidency, and beyond sea, the Most Noble the Governor in Council is pleased to direct that whonever an officer so situated applies for permission to resign or retire from the service, or is placed in arrest preparatory to trial by Court Martial, his Pay and Allowances of every description shall be thenceforth drawn on separate abstract, and his Pay Accounts kept entirely separate from those of the Regiment or Detachment to which he may belong.

2. Consequently an officer, situated as above described, proposing to retire from, or resign, the service, will not be permitted to sign the Pay Abstracts, &c. of his Troop or Company; but he is not, on that account, to be deprived of Troop or Company Command Allowance to which he may under Regulation have claim, to which he will continue entitled in the same way as if detached in the manner adverted to in Para. 4, head "Troops and Companies," page 179,

Section 9th, of the Code of Pay and Audit Regulations.

3. The officers commanding at the stations in question are directed to send to Madras for immediate Audit, at the same time that the application for permission to resign or retire is forwarded, all Abstracts containing previous charges of the officer about to retire or resign; thus leaving, to take the usual course of Audit, only common charges for his own Pay and Allowances, in which there ought to be no mistake.

FURLOUGH REGULATIONS.

Officers (of whatever rank) must be ten years in India, before they can be entitled (except in case of certified sickness, and as hereafter specified), to their rotation to be absent on furlough, and the same rule is applicable to Assistant Surgeons, and Veterinary Surgeons *

Officers who have not served ten years in India, but whose presence in England is required by urgent private affairs, may be allowed a furlough for

one year without pay.

A Chaplain (appointed previously to the 1st September 1836), after seven years' residence in India, is allowed to go home on furlough and receive the pay of Major, £292 per annum. Should he go home from sickness prior to this period of service, he is allowed the pay of Captain only, viz. £191 12s. 0d. per annum.

If appointed subsequently to that date, after seven years' residence in India, the pay of Captain, viz. £191 12s. per annum; and if compelled by ill health to go home prior to this period of service, the half pay of Captain, or £127 15s. per annum.

Officers going to England on furlough, are required immediately to report their arrival by letter to the Secretary, stating the name of the ship in which

^{*}A second furlough on private affairs may be granted to Officers when the public service will permit the indulgence, but the rule which precludes an Officer receiving pay when absent in Europe on such affairs for a longer period than three years is to be fully maintained. The following is a copy of the regulation as published in the Bengal Code, and is applicable to all the presidencies; "No Officer who has drawn three years' furlough pay is allowed pay during any future furlough, except in cases of certified sickness, but if he has not received pay for the full term, he may during a second furlough on private affairs, be allowed the same for such space of time as will complete the three years."—See Court's Letter to the Madras Government of the 1st January 1841.

they came, and their address, forwarding at the same time the certificates they received in India.

The period of furlough is three years, reckoning from its date to the day of his return of the Officer to his presidency.

Officers are required to join the Establishment to which they belong at the expiration of the three years' furlough, unless they shall have obtained an extension of leave from the Court six months before the expiration of that period. No furlough will be extended except in cases of sickness, certified in the manner hereafter mentioned, or in cases in which it shall be proved to the Court that a further residence in Europe is indispensably necessary.

All Officers finding it necessary to solicit a further leave of absence on account of sickness, must, if resident in London or its vicinity, appear before the Company's Examining Physician, Dr. John Scott, 13, Straton Street, who will report to the Court of Directors his opinion on the state of such Officers' health, and if resident in the country, in any part of the United Kingdom, they must transmit, with their letter of application for such leave, a certificate according to the following form, signed by at least two gentlemen eminent in the medical profession, viz.

Also previously to such extension of furlough being granted, such furerth proof shall be adduced by personal examination, or other evidence, shall be deemed satisfactory.

Officers abroad in any part of Europe, applying to remain a further time from their duty on account of sickness, are to furnish a certificate of two eminent physicians in the above form, with the attestation of a magistrate, that the persons who signed the certificate are physicians.

Officers having obtained an extension of furlough to a given period must at its expiration apply for permission, either to return to their duty, or to reside a further time in England.

In every case in which an officer has had furlough extended beyond the prescribed period, on the ground of his health not being sufficiently restored and shall apply for permission to return to his duty, he shall produce a certificate from the Examining Physician that his health is completely re-established, and that there is every probability of his being able to perform the active duties of his profession in India.

No officer who has failed to obtain an extension of furlough, will be considered eligible to return to the service after five years' absence, under the Act of 33 Geo. III, Cap. 52, Sec. 70.

Every officer upon leaving India will receive a printed copy of the General Order on this subject, published agreeably to the Court's instruction, and the plea of ignorance of the regulations will not be admitted as any justification of the breach of them. Officers, therefore, who shall go home on furlough, and who shall not in due time apply, so as to effect their return to the Presidency to which they belong within the period of three years from the commencement of their furlough, will subject themselves to the loss of the service, unless they shall be permitted by the Court to remain a further time in Europe.

No officer on furlough can receive pay for more than two years and a half from the period of his quitting India until he returns, excepting Colonels of Regiments, and those of the rank of Lieutenant Colonel regimentally, when promoted to that of Major General; the latter are then allowed to draw the pay of their Brevet rank beyond the above period.

ORDERS REGARDING FURLOUGH.

GENERAL ORDERS BY THE RIGHT HONORABLE THE GOVERNOR IN COUNCIL.

FORT ST. GEORGE, 5th December 1854.

No. 288 of 1854.—The following General Order by the Most Noble the Governor General of India in Council, is republished for the information of the Army;

GENERAL ORDER BY THE MOST NOBLE THE GOVERNOR GENERAL OF INDIA IN COUNCIL.

FORT WILLIAM, 17th November 1854.

No. 1150 of 1854.—The Hon'ble the Court of Directors having transmitted to the Government of India further explanatory instructions regarding the Furlough Regulations published in Government General Order,* No. 110 of the 1st February 1854, the Most Noble the Governor General in Council is pleased to cancel that General Order, and to promulgate in a connected form, the Rules which have been laid down by the Hon'ble Court for regulating Furloughs and Leaves of Absence.

With the view of adapting the Regulations to the present increased facilities of communication, and to correct, as far as possible, any tendency in them, to deter Officers from resorting to the places which may be most conducive to the restoration of their health, when a change of climate is required for that purpose, the following Rules are established, and are to have effect from the 1st February 1854:—

- 1. All Regimental Officers in the Service on the 1st February 1854, who prefer retaining what may be considered the advantages of the old Regulations, may do so, provided they signify their wish to that effect when they next apply for Furlough or leave of absence, without any limitation whether such leave be in India or elsewhere; and Officers who once make their election will not be entitled to any other choice, but will be afterwards subject to the new or old Regulations according to their decisions.
- 2. Staff Officers, as such, have not the above option allowed them, but they may retain the advantages of the old Regulations by giving up their appointments, which, in such cases, will be considered vacated from the date of embarkation.
- 3. To those Officers who adopt them, the new Regulations will apply retrospectively in respect of Furlough and leave of absence beyond sea, and in computing their time of service for retirement, so that their Furloughs or leaves of absence, whether under the old or the new Rules, and whether on private affairs or sick certificate within or beyond India, will count for service to the authorized extent only, n computing the time for retirement on full pay[†].

* Madras G. O. G. 14th February 1854, No. 44.

† All leave in or out of India published in General Orders with the exceptions made in rule 31 is reckoned against an Officer's service for retiring pension. Government of India 22d September 1855, No. 811.

In a recent case submitted for the orders of the Government of India, it was decided that an Officer who on entering the Service in 1840, obtained leave of absence for five months and five days to visit a Station not the Head Quarters of his Regiment, and to join the Corps to which he was posted, and who actually did join within that period, was entitled to reckon that leave of absence as service for pension, the time granted being that allowed by regulation for the purpose of joining, and it being considered that the grant of leave was unnecessary.

2. It has also been decided that in the cases of Officers who obtain leave of absence preparatory to Furlough on private affairs, or to leave of absence on sick certificate, but who after arriving at the Presidency, may abandon their intention of leaving the country, cannot reckon as service the period they may have been absent from duty on such preparatory leave, which then assumes the nature of ordinary leave in India.—G. of I. 26th March 1856 No. 684.

- 4. Officers who have availed themselves of the option of the Rules, are allowed to re-consider the question under the modifications now sanctioned.
- 5. Officers who have not taken leave subsequent to the publication of the Rules on the 1st February 1854, and who consequently may not have been called upon to declare whether they would abide by the old or the Regulations, will, on retirement from the Service, be entitled to take full advantage of the privileges given by the new Regulations.

Furloughs on Private Affairs.

- 6. Every Officer will be allowed a Furlough to Europe, or elsewhere, beyond sea, for a period of two years at the expiration of ten years' service, and for a second period of two years after twenty years' service in India.**
- 7. † The second Furlough of two years will only be granted after ten years' service in India from the date of the return to duty after the first Furlough of two years. These Furloughs are not to be cumulative, under any circumstances, but wre limited to two years. Officers who have taken leave of absence on sick certificate to Europe or elsewhere beyond sea, will be ineligible to a Furlough on private affairs until they have served six years from their last return to duty. This Rule does not apply to short leaves \$\pm\$ to sea. \$\frac{1}{2}\$
- 8. All grants of Furlough on private affairs are subject to the exigencies of the Public Service, and to the Regulations framed for the preservation of the efficiency of each Regiment by limiting the number of absentees.
- 9. || Officers holding Staff or other detached appointments may be allowed Furlough for a period of six months without losing their appointments; but during that period, they will not be entitled to any portion of their Staff Salary, which will be drawn in full by the Officers officiating for them.
- 10. All Officers, whether Staff or Regimental, while on Furlough on private affairs, will be entitled to "Furlough pay" only.

Leave of Absence on Sick Certificate.

- 11. Leave of Absence on sick certificate will be granted for a term not exceeding eighteen months, whether it be to any place in Europe or elsewhere out of India.
- 12. Extensions of such leave may be granted, as at present, on production of Medical certificates, for further periods not exceeding eighteen months in the whole.
- 13. An Officer holding a Staff or other detached appointment will be allowed to be absent on sick certificate in England or elsewhere, beyond sea, for a period of fifteen months, without losing his appointment; and during the

^{*} Officers who have been on Furlough for 3 years under the old rules may have a second furlough under these rules for 1 year with pay.—From Government of India 20th April 1855, No. 494, M. C. 26th June 1855, No. 1849.

An Officer proceeding on leave to England for six months, retaining his appointment or otherwise, is not to be considered as having taken his authorized Furlough after ten or twenty years, as the case may be, but may be allowed at any time to take the remainder of two years' authorized Furlough on private affairs.—G. O. 1st April 1856 No. 102.

[†] Officers who take their first furlough after 20 years' Service in India, may take their second furlough, after an additional service of 5 years from the date of their last return to duty—G. O. 1st July 1856, No. 211.

 $[\]fi$ Three months fixed as the maximum period which is to be understood by the terms "short leaves," and "leaves for brief periods," used in paras. 7 and 21.—From G. of I. 2d June 1856, No. 3.

[§] The grant to an Officer not entitled to a second furlough of special leave to Europe, is allowed. The Commander-in-Chief is to report whether his presence in Europe is absolutely necessary—From Court, 2d May 1855, No 32.

Absence for six months under this rule (9) does not preclude an Officer from taking his Furlough to Europe, after 10 years' Service.—G. O. 1st July 1856, No. 211.

first six months only of such absence, he will be entitled to draw half the Staff Salary of his appointment, the Officer officiating for him drawing the remaining half salary during the first six months, and the whole salary during the remainder of the time.*

- 14. An Officer's claim to half Staff Salary for six months, as sanctioned in the preceding Rule, will not be affected by his subsequently retiring from the Service in Europe or elsewhere.
- 15. No portion of Command Allowance, Medical Staff Salary or other similar allowance, which under the old Rules was inadmissible to Officers absent from their Corps or Stations at the Cape or elsewhere, will be allowed to absent Officers under these Regulations.
- 16. All Officers, whether Staff or Regimental, while on leave of absence on sick certificate, will be entitled for a period of six months to the same rate of Indian Pay and Allowances as was allowed under the old Regulations to Officers proceeding to the Cape on Medical certificate, and for the remaining period of their leave they will receive furlough pay only.
- .17. If the leave on sick certificate be extended, Furlough pay will be continued, but under no circumstances for a longer period than three years altogether from the commencement of the absence.

Staff Officers.

- 18. The term Staff Officer applies to all Officers holding Staff or detached appointments, Military, (General or Regimental,) Political or Civil; also to General Officers commanding Divisions, Members of the Medical Board, Superintending Surgeons, and others who, under the old Rules, were entitled to draw half Staff allowance when absent at the Cape.
- 19. Staff Officers, absent on leave beyond the periods stated in Rules 9 and 13 respectively, cannot retain their appointments and allowances except on special grounds, to be sanctioned by the Government of the Presidency. Any such special grant of leave is to be reported at once to the Hon'ble the Court of Directors, with the reasons for it, and to be subject to their approbation
- 20. The privilege of retaining Staff appointments during leave of absence on sick certificate, or on Furlough on private affairs, will not be available a second time, if the fresh leave is on sick certificate, until an Officer has been three years, or if on private affairs, until he has been six years in the discharge of the duties of his appointment, from the date of last return to it.
- 21. This Rule, however, does not apply to leaves of absence, whether on sick certificate or on private affairs in India, or for brief periods to Ceylon, the Mauritius, or other places out of India.
- 22. Officers commanding Troops of Horse Artillery and Light Field Batteries, and Officers generally in employment, will be allowed leave out of India under the same Rules with respect to allowances and tenure of Command or Office as regulated the grant of leave to the Cape to such Officers under the old Regulations, except as to the duration of those advantages, the time for their continuance being subject to the provisions of the new Regulations.

Date of Furlough and Advances of Pay.

23. The period of Furlough on private affairs, or leave of absence on sick certificate, is to be calculated from the date of the departure from India of the ship in which the Officer proceeds.

allowances of the appointments.—From Government of India 15th March 1856 No. 379.

† For such periods as Officers proceeding on leave on medical certificate under the new Furlough Regulations are permitted to enjoy full Indian allowances, they are required to pay Band and Mess subscriptions.—From Government of India, 14th February 1855, No. 416.

^{*} Staff Officers returning from leave beyond sea under the new a'urlough Regulations are entitled to half staff allowance from the date of their return to India, and Officers acting for them who may be at the time in receipt of the full staff allowance must, from the date of the return to India of the incumbents, revert to the half staff allowances of the appointment. From Convenient of India 15th March 186 No. 270

- 24.* * Advances of Pay and Allowances, Staff and Regimental, to Officers proceeding on leave of absence on sick certificate, who may be entitled to them, will be made in India for three months from date of embarkation.† Payments in continuation will be made in England at the rates of exchange fixed annually for re-payment of advances, made on account of Her Majesty's Government. Furlough pay will continue to be issued in advance for six months when required by Officers obtaining Furlough on private affairs.
- 25. The existing Regulations regarding Passage Money to Officers are not affected by these Rules.
- 26. The certificates issued to Officers who are granted Furloughs on private affairs, or leave of absence on sick certificate, are to specify the time each Officer has been absent on leave within Indian limits, as well as the time of his previous absence in Europe; but will not include the periods allowed for proceeding to the Presidency or port of embarkation, and to enable Officers to rejoin their Regiments or Stations after their return to India, nor the leave of one month's absence in six months as authorized by the Regulations. The last pay certificate of all Officers proceeding to England on sick certificate is to specify the rate of Regimental pay and allowances and Staff salary to which they would have been entitled under the old Regulations if proceeding to sea on Medical Certificate. This information is necessary in order that no difficulty may arise in the Pay Department of the India House in adjusting the several payments which may be due.

Officers of H. M.'s Service.

- 27. Officers of Her Majesty's Service in India whether employed Regimentally or in Staff or detached situations, are entitled to the advantages above laid down in respect to allowances and tenure of office when on Furlough or leave of absence.
- 28. In the case of Officers of Her Majesty's Service on Furlough or Sick Certificate in England or elsewhere, who may retire or exchange into Regiments not on the Indian establishment, the grant to these Officers of Indian allowances will cease from the date of their retirement or exchange, if it take place before the expiration of six months from the date of quitting India.

Periods of absence allowed to be counted as Service for Retiring Pensions.

- 29. In order that all Officers quitting India on Furlough, or Sick Certificate, may be placed on an exact equality as regards loss of them, the period allowed by Regulation for proceeding to the Presidency or to the nearest port of embarkation, as well as the time to enable Officers to rejoin their corps or station after their return to India, will be considered as time counting for service for the Retiring Pension.
- 30. No Furlough or leave of absence, as announced in General Orders, exceeding two years in twenty years' aggregate service, three years in twenty five-years' service, and four years in thirty years' service, shall be allowed to count as service for the Retiring Pension; and no difference will be made in this respect between leave of absence taken in Europe or elsewhere, in or out of India, or whether the leave be on sick certificate or on private affairs.
- 31. In the term "Leave of Absence as announced in General Orders" is to be included all leave of absence except the period allowed in Rule 29, and the ordinary inculgence of one month's leave in six months, as authorized by the existing Regulations, and which are in all cases, whether of Regimental or Staff Officers, to be allowed to count as service for the pension. All leave to a greater extent, granted by Political and other authorities, which may not hitherto have been published in General Orders, must be so announced hereafter.

^{*.} From the date of the pilots quitting the ship at the Sandheads in case of Officers embarking at Calcutta, it is not imperative on Officers to draw advances under this para. Option is allowed either to take the advance or to draw pay and allowances in arrears in England.—Cons. 27th February 1855, No. 176.

[†] Include all that an Officer would have been entitled to receive for three months, had he proceeded to the Cape under the old rules.—M. C. 9th August 1855, No. 2260.

- 32. Officers to be entitled to retire on the full pay of their Remental rank (under the regulation of 1796,) must have served twenty-two years in India, out of which leaves of absence for two years in the aggregate, and not more, will be allowed to count as service for the Retiring Pension.
- 33. Officers to be entitled to retire on the full pay of Captains and Majors (under the Regulations of 1835-7,) must have served twenty and twenty-four years, respectively, out of which time leaves of absence for two years in the aggregate, and not more, will be allowed to count as service.
- 34. Officers to be entitled to retire as Lieutenant-Colonels must have served twenty-eight years, out of which leaves of absence for three years in the aggregate, and not more, will be allowed to count as service.
- 35. Officers to be entitled to retire as Colonels, must have served thirty-two years, out of which leaves of absence for four years in the aggregate and not more, will be allowed to count as service.**
- 36. The scale, for Medical Officers and Veterinary Surgeons, of privileged Furlough and leave of absence, as counting for the Retiring Pension, will be as follows:—

Years.	Months	3.						
1	8	in	17	and	under	20	years'	service
2	0	in	2 0	,,	,,	25	,,	,,
3	0	in	25	,,	,,	30	,,	,,
4	0	in	3 0	and	upwar	ds.		

- 37. It is to be distinctly understood, that under no circumstances whatever will an Officer be permitted to retire on full pay, until he has completed the full time of service above specified, whether he be in England at the close of his service or elsewhere.
- 38. The privileged time of absence may, with the permission of the local Government, be taken at any time subject to these Regulations. If therefore at the end of twenty years' service, of which eighteen had been passed on actual duty in India, an Officer should be on Furlough, or Sick Certificate in Europe, or elsewhere, he will be entitled to retire on the full pay of a Captain without returning to India, and so in the other terms of service for the higher pensions. In like manner a Medical Officer on Furlough, or Sick Certificate in Europe, or elsewhere, at the end of seventeen years' service, fifteen years and four months of which had been passed on actual duty in India, will be entitled to retire on the lowest rate pension, without returning to India, and so in the other terms of service for the higher pension.
- 39. These Rules do not in any way affect the existing Regulations regarding the grant of leave in India, or for short periods to sea, whether on private affairs or on sick certificate, except as to the periods of such absence being taken into calculation in the time allowed to count as service for retirement on full pay.

Head Quarters: Simla, 28th September 1854.

The Commander in Chief is pleased to notify that, with the sanction of the Most Noble the Governor General in Council, Officers proceeding to Head Quarters of the Division in which they are serving, to undergo an examination in the Native languages before the Half-yearly Committees, will for the future be considered as absent from their Regiments on duty and such absence will not interfere with their enjoyment of temporary leave under the order marginally cited.

Officers Commanding Divisions will be held responsible that this indulgence is not abused by Officers absenting themselves from their corps for longer periods than may be actually necessary to enable them to accomplish the object in view.

submit the question whether as Officers are, on their first application for leave of absence on furlough, to declare whether they will abide by the old or accept the new Furlough Rules. Staff Officers who apply for leave to the Hilis or elsewhere in India are to vacate their Offices like those who take leave to the Cape or clsewhere beyond sea. Govt. observe, that if this were so, the Rule would have the effect of debarring such Officers from all leave, however short, in excess of the privileged leave of one month in six.

7. Staff Officers applying for leave in India are not required, by the New Furlough Rules, to vacate their Staff appointments. We therefore approve and confirm the view you have taken of this question.

No. 68.—With the sanction of Government, the Commander in Chief directs the publication of the subjoyined Extract from the Bengal Pay and Audit Regulations of 1849, and to declare its provisions applicable to this Presidency.

"Commanding Officers are held strictly responsible for the due insertion in the Para, 67, page 159.

Muster returns of the dates of actual departure as well as of return to their duties of Officers whose temporary leave extends over Muster,—the 30 days is to be calculated so as to include the day of return as one of leave, .. e. if leave be granted on the 15th July, the Officer must rejoin on the 13th August."

HEAD QUARTERS: CHOULTRY PLAIN, 17th January 1856.

No. 4½.—With reference to paras. 26 and 31 of the New Furlough Regulations, the Commander-in-Chief, with the sanction of Government, directs the following Rules with respect to the grant by Officers Commanding Regiments, Stations and Divisions or Forces of leave of absence on private affairs to all Officers under His Excellency's orders serving under their respective Commands, to be substituted for paras. 3, 4, 5, 6, 6½ and 7, Section XVIII of the General Regulations, para. 42 of which Section is cancelled. Books to be corrected accordingly.

Para 3.—The periods for which leave may be granted are limited as follow; including day of departure and day of return both which dates are in each case to be noted in muster rolls and abstracts.

By Officers Commanding Regiments subject to the control of Officers Commanding Divisions or Forces.

For periods not exceeding 10 days in the calendar month (between Musters) within the Division or District and limited to an aggregate of 10 days in 6 months, between the 1st January and 1st July and vice versa.

By Officers Commanding stations subject to the control of Officers Commanding Divisions or Forces,

For Periods not exceeding 10 days in the calendar month (between Musters) within the Division or District and limited to an aggregate of 20 days in 6 months, between the 1st January and 1st July and vice versa exclusive of leave granted by Officers Commanding Regiments.

N. B.—Leave granted under the foregoing clauses to Officers serving in the Centre Division sanctions their visiting the Presidency.

By Officers Commanding Divisions or Forces.

To the aggregate extent of 30 days* in six months between the 1st January and 1st July and vice versa (irrespective of Musters) to go wherever the Officer wishes, the Presidency included, and exclusive of leave granted by Officers Commanding Regiments and stations.

Para. 4.—The leaves of absence authorized by the foregoing paras, may one and all be enjoyed by an Officer during the one and same period of 6 months above specified, without any loss of allowances; provided that in every case the Officer regions at the expiration of the particular leave obtained, that is to say, that an Officer cannot be absent at one time for more than 3 days on Regimental, 10 days on Station or 30 days on Division leave. But it is to be clearly understood that no consolidated salary, command, Staff or Contract allowance, shall in any instance, be drawn for two Officers for the same period, and that the State be not put to any additional expense thereby; and in the case of Staff and Medical Officers and Veterinary Surgeons, that they make approved arrangements for the performance of their duties during their absence.

Para. 5.—The fact of an Officer having very recently returned to his post from general leave does not debar him from the privilege of obtaining leave under paras. 3 and 4.

Para. 6.—An Officer unavoidably overstaying the leave granted him under paras, 3 and 4 will not be liable to forfeiture of Command or Staff allowances, except for the actual period in excess of the leave granted him by either of the above authorities. But it is always competent for the superior Station or Divisional authority to grant extension of such leave, on sufficient cause being shewn to avoid even this forfeiture. For instance an Officer unavoidably overstaying Regimental leave may have it converted into Station or Division leave, and in like manner Station leave can be changed into Division leave provided always the prescribed aggregate extent of leave which the different authorities are respectively permitted to grant is in no case exceeded. When an Officer, under the above circumstances, exceeds the 60 days allowed in each half year, it will rest with the Commander-in-Chief to grant him an extension of leave to prevent forfeiture of pay and allowances for the period he may have overstayed his original leave.

Para. 64.—Should an Officer on leave under paras. 3 and 4 be put on duty by the Commander-in-Chief at a station at a distance from his own, on a date which, with reference to such distance, would admit of his rejoming, by any mode of travelling within the period of his leave, but if put on duty at a time and place from which he could not with reference to distance rejoin within the period of his leave by any mode of travelling, he will not be entitled to compensation to any period of absence from his Regiment.

Para. 7.—The above rules are applicable to Divisions and Forces, both within and beyond the Frontier.

By order of His Excellency the Commander in Chief.

But if leave of absence be taken merely to run out a prescribed period of service, and without any intention of returning to duty, the principle on which the rule is founded is infringed, and the indulgence of the Hon'ble Court is abused; wherefore the Right Hon'ble the Governor General in Council hereby notifies for general information, that, if there be an avowed intention on the part of an Officer not to return to duty, or if the Government have valid grounds for concluding that the Officer has no intention to return to duty, the indulgence of leave on sick certificate, retaining Office, will not be granted in future.

the Hon'ble the Court of Directors to the Government of India, No. 177, dated 19th December 1855, be published for general information:—

Para 2. Under the new Rules, Officers absent from duty, are allowed to count

Letter from the Governor General, dated 28th September 1855.

A memorial transmitted from Lieut. William Williamson, 41st Native Infantry, praying;

1st.—That Rule 3 of the new Furlough Regulations may be cancelled; and 2d, that leave in India on Medical certificate, or on any urgent private affairs, may be allowed to reckon as service, as was and is still the case under the old Rules.

ers absent from duty, are allowed to count to a prescribed extent, time of absence as service for the Pension on full pay, whether the time has been passed in Europe, or at the Cape, or at the Sanatorial Hills, or elsewhere; and in order that Officers then in the service might have the immediate advantage of this Rule, they are, by Rule No. 3, allowed its benefits retrospectively as well as prospectively. Thus, Officers who previously could not count any portion of the time spent in Europe as service for the Pension, are enabled to do so; and

they claim, in consequence, a rate of Pension which could not otherwise have been claimed in some instances until after two, three or four years of additional service. Of those who have retired on full pay since the Rules were established, a considerable proportion have claimed and received this advantage.

- 3. On the other hand, Officers who had spent such lengthened periods at the Cape of Good Hope or elsewhere within Indian limits, as exceed the privileged time allowed by the new Rule, have to consider whether it will be for their advantage to adhere to the old Rules, and in many instances have determined to do so in virtue of the option allowed to them.
- 4. If Rule 3 were to be abolished, as now proposed by your Government, the effect would be that Officers adopting the new Rules, who had taken their leaves of absence at the Cape and elsewhere within Indian limits, with the enjoyment of Indian Allowances, would count all that time for the Pension, whilst those who had taken their furlough to Europe with Regimental Pay only would be deprived of any such advantage.
- 5. We cannot admit that this change would be satisfactory, neither can we approve of still further increasing the privileged time of absence by adding to it all leaves of absence in India. We must therefore decline to comply with the prayer of Lieutenant Williamson's memorial.

No. 859 of 1856.—The Right Hon'ble the Governor General of India in Coun-

cil is pleased to notify that the Hon'ble the Court of Directors, in their letter No. 56, of the 25th April 1856, having communicated the following decisions regarding the new Furlough Rules, published in Government General Order, No. 1150, dated the 17th November 1854:

Referring to Rules 6, 7.—Officers who take their first furlough after 20 years' service in India, may take their second furlough after an additional service of five years from the date of their last return to duty.

Referring to Rule 9.—Absence for six months under this Rule does not preclude an Officer from taking his furlough to Europe after ten years' service.

No. 34.—His Excellency the Commander-in-Chief directs it to be published in General Orders for the information of the Army, that the Government of India has fixed three (3) months as the maximum period which is to be understood by the terms "short leaves" and "leaves for brief periods," used in rules 7 and 21 of the new furlough regulations.

HEAD QUARTERS, CHOULTRY PLAIN, 3d October 1856.

- No. 73.—1. The Commander-in-Chief directs it to be notified that under a decision of the Government of India, the new furlough regulations are held, not to affect the rules heretofore in force with respect to leave in India, and that consequently a Staff Officer obtaining leave of absence in India on private affairs for six months, or on medical certificate for two years, retains during such absence a moiety of his Staff salary as sanctioned by the regulations for the grant of leave in India which are still in force.
- 2. A Staff, as well as a Regimental Officer is required, when first applying for leave, whether in or out of India, to declare by which of the furlough regulations he wishes to abide. A Staff Officer having made his election can take his leave in India as above stated, and should he afterwards require to proceed to England, the retention or otherwise of his appointment will depend upon which of the rules he first elected, and from which he cannot afterwards change.
- 3. In the event of a Staff Officer electing the new furlough regulations and taking leave in India, the whole of the leave he has previously enjoyed from the date of his entering the Service, excepting the periods allowed by those rules to reckon as service, must be reckoned against his period of service for retirement.

ficer so situated to retire on the Pension of a Captain or Major; but an officer who has served beyond those periods is entitled to the benefit of Rule 30 by which extended periods of absence are allowed to reckon, regulated by the length of the Officer's Service. For instance an Officer who has served 20 years and no more and had only 3 years' leave must still perform one year's duty before he can retire as a Captain; whereas an Officer whose aggregate Service is 30 years out of which he has enjoyed leave for 14 years and no more, can retire as a Captain at once.

"Para. 2. In future cases when Officers may be granted a Furlough on sick certificate, or on private affairs, to New South Wales, or any other Colony, we desire that they may be separately informed, that any applications which they may have occasion to prefer for extended leave, are to be addressed to us in sufficient time to allow of their receiving our reply by the period when they should embark on their return, so as to ensure their arrival within the original term of Furlough; that if the application is preferred on account of health, it should be supported by certi-

ficates from the Medical Staff Officers, or other undoubted medical testimony on the spot, shewing that the applicant is then incapable from ill health to return to the performance of military duty in India, and specifying the term for which they consider additional leave absolutely necessary for the recovery of the applicant's health; and that if the application is preferred on the ground of urgent private affairs, it will be required, that the nature of those affairs should be specified, and that the necessity for his continued absence should be certified by his professional adviser on the spot."

Extract of a Letter from the Honorable the Court of Directors to the Governor in Council, Fort St. George, dated 9th May 1810.

Para. 5.—In testimony of our approbation of these Institutions, and in view to promote the benefits thence derivable to our Military and Medical Servants, we hereby authorize you to subscribe, on the part of the Company, the sum of Pagodas five thousand per annum to the Military, and of Pagodas one thousand per annum to the Medical Fund.

THE Madras Military Fund was formed at Madras, in conformity with the resolutions of a meeting of Officers of the Madras Army held at Madras, by permission of the authorities, on 10th of October 1807. The proposed establishment was approved by the Government of Fort St. George, (the Governor in Council being declared its Patron, on the 20th of November following; and confirmed by the Honorable the Court of Directors, who endowed it with an annual donation of 17,500 Rupees, on the 9th May 1810. The Fund was finally established, and subscriptions to it commenced on the 1st April 1808.

The declared objects of the Institution were, in the first place, "to provide for the families of Officers, left of wheir death destitute of an adequate maintenance; and to assist Officers unprovided with aid, by the Regulations of the Service, or from their own resources, and in such circumstances of urgent sickness as render a voyage to England necessary for the preservation of their lives:" and secondly, "to afford such further aid as the funds shall admit, in other cases of less urgent necessity."

It was, moreover, provided in the original resolutions, that "the donations be in the first instance, for forming a capital:" that "Subscriptions be ruled on the proportion of Garrison Allowances in India, and Pay at Home; that "should the Fund, at

any period, fall short of the demand upon it, the Directors be empowered to make deductions from Annuitants and other Claimants," and that "such deduction be afterwards made good out of any surplus income there may eventually be, but not otherwise;" that "the Society be managed by thirteen Directors, Members of the Society, elected by general suffrage, the senior President, and of whom five be a quorum;" that "litigation be guarded against;" that "the Directors appoint, and fix the salary of a Secretary;" that "income derived from the Fund be unalienable;" that "dismission disqualify;" that "the funds be vested in Company's Securities;" and that "the Secretary in India and Agent at Home be Members of the Society."

DONATIONS AND SUBSCRIPTIONS.

ART. 4 All subscriptions to the Fund are payable in India, monthly, in advance. All donations, although for the convenience of subscribers payable

by prescribed instalments, become debts to the Fund from the date on which they fall due, and must, under any circumstances, be paid by the subscriber, (a) if he lives until the expiration of the prescribed period for the payment. Should a subscriber die while his donation is in course of regular payment by instalments, no demand is to be made against his estate for the instalments unpaid.

- ART. 5. Subscribers shall pay donations and subscriptions in the time and manner hereafter defined agreeably to Tables A and B. Widowers with legitimate offspring to be considered and pay the same as married. Subscriptions are to commence from the date of admission on the establishment of Fort St. George; entrance donations become due from the same date; and donations and subscriptions on promotion from the date of promotion as signified in G. O. G. Arrears of instalments of donation and subscription to be recovered from first pay drawn.
- ART. 6. The donations of Cadets, Cornets, 2nd Lieutenants and Ensigns and Assistant Chaplains, may be paid, in anticipation, in England; those married or having legitimate offspring, will be further required on arrival in India, to pay the subscriptions and interest laid down in Article 3.
- ART. 7. Donations on entrance or promotion, must be paid immediately on becoming due, or by equal and regular monthly instalments, agreeably to Table A as married or single, commencing with the first pay drawn by the subscriber after the event. If the subscriber, however, be promoted during the payment of such instalments, he must pay the new donation, as well as the balance of the old at the higher rate of the class into which he has been promoted

MARRIAGES.

- ART. 8. All marriages must be reported. When a subscriber, widower, or bacholor, marries, his family will become eligible to the benefits of the Institution if he duly report his marriage, and make, commence, or arrange to commence,* as below prescribed, the payments consequent thereon; viz. increased subscription according to his class, and the regulated donation, subject to increase agreeably to Table G for disparity, if his age exceed that of his wife more than eight years. If the subscriber pay the whole donation within thirty days after the date of marriage, he will be allowed a discount or deduction of ten per cent; if not, he must pay it by 25 equal monthly instalments, commencing with the first month after marriage. This rule applies to subscribers marrying Annuitants on the Fund.
- ART. 9. If the report of marriage be not made, and the prescribed payment begun, within one month after the event, the donation will be increased by (1) one per cent per month up to the date of announcement, and the pensions of the widow and children will be contingent upon the husband's surviving twenty-five months from the date of his report, and completing the payment together with all arrears of subscription (calculated from the date of marriage) and penalties. If however, the report be made within the month and all the regular payments begun, or measures taken to begin them, and the husband should die before any or all of the instalments are paid, the widow and family will be entitled to their pensions subject to the regulated deduction on account of minimum. (b) Provided always that that part of the provisions of

this article which requires that the husband should survive twenty-five months to entitle his widow and children to their pensions, shall not be held applicable to cases where the subscriber shall produce a health certificate as per Form given in Appendix I. (a)

ART. 10. The report of marriage must contain the dates of birth of the wife and of the subscriber, also the Christian name of the wife. This information is necessary for the calculation of the amount of donation, and subscribers should be careful in affording it, lest the omission, by leading to a reference, should involve a penalty as to time. In every case the best course to be followed is, on making the report of marriage, immediately to commence the regulated subscriptions and instalments of donations, as laid down in Tables A. and B. (b)

CHILDREN.

- ART. 11. To secure for his daughters the continuance, until marriage or death, of the annuities to which they may become entitled from the Fund, in consequence of his decease, before they respectively attain the age of 21 years; or should they have attained that age at their father's death, to obtain for them similar annuities, a subscriber is required within ten days from date of birth of each daughter, to notify the same to the Secretary, and state that it is his intention (c) to pay an additional donation of Rupees 282, which amount will become due to the Fund from the lapse of the tenth day after birth, whether the child subsequently live or die. If the child die within ten days from date of birth, the report of intention to pay donation on her behalf, will be considered cancelled. If the subscriber pay the whole donation within 30 days after the child's birth, he will be allowed a discount or de-
- (a) In 1847,—with reference to the sentiments expressed by the Honorable the Court (a) In 1844,—With reference to the sentiments expressed by the inonorance nee court of Directors in a letter dated 2nd September 1846,—it was proposed to the Subscribers at large, and (vide Minutes 4th June 1847) carried by 571, against 207 votes, that "all Subscribers" should be "required to report their marriages and to make payments according to their respective conditions as married or single, "—while, more recently (vide on this subject, Heads No. III and I in Minutes 29th September 1858 and 27th April 1854, according to the conditions as married or single, "—while, more recently (vide on this subject, Heads No. III and I in Minutes 29th September 1858 and 27th April 1854, respectively,) the Question "shall all officers having entered the Service on or after the 39th April 1823, who, being married, are subscribing as un-married, be called upon to bring their wives and families on the Fund under the provisions of Article 9 of the Rules," has been affirmatively disposed of by 705 votes against 160,
 - N. B.—Simultaneously with the disposal of the question just adverted to the Question
- (a) "Rules for the admission of Officers of the non-effective establishment who did not enter the army as Cadets" [to purchase with reference to age, and on satisfactory proof of health and eligibility for assurance survivorship Pensions for their families.]
- (proposed at the same time with it, in Circular 25th October 1853) 'Shall an option be given to Officers now married and on the strength of the Army, who entered the service prior to 30th April 1823, and do not now belong to the Fund of bringing their wives and children on the Fund for full Pensions, on the principle of Appendix II (a) viz. of paying the actual value of the risk entailed upon the Institution" was responded to in the affirmative (See Head No. 1, Minutes 27th April 1854) by 780 votes against 79.
- (b) The particular attention of Subscribers located beyond sea is requested to the following extract from Minutes of Proceedings 8th January 1852:
- "The Directors think it right to point out" "to all whom it may concern that, even in situations where it may be in the knowledge of a subscriber that no opportunity of despatching a report will occur for some time, it is essential that the prescribed notification of intention to pay donation for a daughter, or of marriage, (as the case may be), should be written and posted within the period allowed by Regulations."
- (c) Special attention is requested to the words "and state that it is his intention," &c. &c., Subscribers not unfrequently appearing to be under an impression that the report of the child's birth "within 10 days" secures every object,—a misconception from which much unnecessary correspondence, together with serious risk to the prospects of the Infant, has often times arisen. It is hely impressed that the fit is the prospects of the Infant, has oftentimes arisen. It is obviously important, also, that the Subscriber's intention to pay the Donation be announced in the most explicit terms—not left (as from inadvertence has frequently been the case) doubtfully inferrible, merely, from the general tenor of his letter.
- Obe.—Where a Subscriber commences the payment of the Donation on account of a daughter born to him, he is held bound to complete it, even though,—the child having, subsequently to the 10 days allowed, become a casualty,—he should be able to show that the prescribed formal report of birth and intention was not made. (See case disposed of under Head No. II in Minutes 27th April 1854.)

duction of ten per cent, if not, he must pay it within twelve months from date of birth of the daughter, by twelve equal monthly payments, commencing with the first month after the birth of the the child.—Vide Table A. (a.)

To obviate the inconvenience which might be occasioned by the neglect of the above article, subscribers may, if they prefer it, notify to the Secretary their wish to avail themselves of the rule for all daughters who may be born to them; the donation for each becoming due and payable as above explained, whether the child live or die.

In addition to the above a monthly subscription of one Rupee, or 2s. 3d. is to be paid for each son under 21 years of age, and for each daughter until marriage or death, during the life of the father. The subscription for daughters for whom the donation of Rupees 282 may not have been duly paid to cease after the age of 21 years.

Subscribers are consequently required to report to the Secretary, dates of births and decease of all children.

- ART. 12. A posthumous daughter, or a daughter whose father may die before the expiration of 10 days from her birth, without having made the prescribed report, will be entitled to the advantage of Regulation 11; but the prescribed donation for her will be deducted from her annuity at the rates specified in Table D. (b.) In the case of a daughter born during the temporary absence of the father, the report must be made as soon as the event comes to his knowledge, the cause of the delay being explained at the time.
- ART. 13. Subscribers having failed to make the requisite report within the period of ten days, and wishing, at any future time, to secure to their daughters the annuity in question, are required to notify their intention to the Secretary, and to pay for the same agreeably to Table II. These donations must be paid at once, or by 12 equal monthly instalments, from date of notification, and can only be received (r) during the life time of the father. The money becomes due from the date of report, whether the child subsequently live or die. Monthly subscription of 2x. 3d. or one Rupee calculated from date of birth must be paid at once and in addition to the donation.
- ART. 14. When daughters' donation (whether under Article 11 or under Table H.) shall have gone unpaid beyond the period allowed, and it shall happen that circumstances prevent the possibility of its being recovered, together with the penalty or penalties due upon it, from the pay or pension of the

Ponations are payable by regular and equal monthly instalments at the rate and within the periods laid down in Table A of the Regulations. (b)

ART. 22. Subscribers who may be prevented drawing pay by a temporary cause, such as captivity, suspension from pay, or the like, shall, during such period, be exempted from penaltics for non-payment of subscriptions or donations on entrance or promotion; but on the removal of the cause, and upon the receipt of pay, they shall be required to pay up all arrears within a period equal to that of their temporary incapacity, and immediately succeeding it, by regular and equal monthly instalments.

⁽a) Discount at the rate of 10 per cent is also allowed at the discretion of the Directors, on any considerable balance of Instalments though paid subsequently to the 30 days named in the above Article.

⁽b) Notes to Article 20. (a)

[&]quot;1. The date of G. O. notifying admission on the Establishment is, for the purposes of this Article, to be considered the date of admission.

[&]quot;The words 'on promotion from the date of drawing pay in the advanced rank' are to be understood to mean 'on promotion, from the 1st of the month immediately succeeding that in which the promotion is notified in General Orders,"—it being difficult to ascertain, in every case, the exact date on which pay in the advanced rank was first drawn.

[&]quot;3. On the return of a Subscriber to India, with a promotion or entrance donation against him, in consequence of his having availed himself of the privilege of exemption from payment of Instalments during his absence, discount will be allowed, provided that he adjust the donation within 30 days from the date of the G. O. announcing his re-admission on the Establishment.

[&]quot;4. In special cases, as, for instance, where a Subscriber may have been unable to draw pay in the advanced rank within the period contemplated in Note 2, or where a daughter may have been born 'during the temporary absence of the father' (See Article 12) discount will be allowed, at the discretion of the Directors, on a representation of the circumstances.

[&]quot;5. Discount is in no case allowable on any such portion of a donation as may already have fallen due. This is not however, to be held to disallow discount on the Instalment for the month in which the adjustment takes place.

⁽d) For the grounds on which these Notes have been appended, vide Head No. I in Minutes 27th March 1851.

Subscribers omitting to draw pay, or whose Agents neglect or cease to draw pay on their account when due, are not under the above clause exempted from penalty on arrears. - ART. 25. Expulsion or withdrawal from the Fund, dismissal from or resignation of the service, involve the forfeiture of all claims to the benefits of the Fund, as also of the amount of the subscribers' donations and subscriptions, and all other sums paid up to the period of separation; but the restoration of a dismissed Officer to the service entitles him to re-admission, on payment of arrears with compound interest at 8 per cent. per annum, within a period equal to and immediately succeeding that of his disqualification.
- ART. 26. Subscribers who retire from the service on the prescribed pension of their ranks, or on Half Pay, or on Lord Clive's Fund, shall not forfeit their rights as subscribers to the benefits of the Fund, provided they continue the payments prescribed in Table B. The two last classes may, if they prefer it, pay donations and only half subscriptions, in which case their families at their death will be entitled only to half the benefits derivable from the institution.
- ART. 27. Subscribers who leave the service before they are entitled to any pension, cease to be members of the Fund, and shall not receive back any part of the sums they may have paid to it. (a.)
- ART. 28. Current Payments due by deceased subscribers to the Military Fund, are recoverable from their Estates under the head of regimental debts

(a).

Captains of Cavalry are not entitled to any income allowance for themselves or families.

ART. 36. The personal benefits are issuable in one instance only;—that is, a subscriber can only once have passage money Home, and out, equipment allowance, and income allowance for himself and family for 2½ years; but any benefit not granted on the first, may be claimed on a future occasion of proceeding on sick certificate to Europe, and on such occasion will be allowed according to the subscriber's rank and condition at the time of applying for it. Retired subscribers while unmarried are not entitled to any benefits from the Fund.—Retired married subscribers are entitled only to Annuities to their Families. (b)—The personal benefits shall be available to subscribers agreeably to the present Regulations, but if a Member having received such personal benefits, shall within three months after his return to India, notify to the Secretary his intention to consider them as a loan, and shall repay the whole sum so received with interest at 9 per cent per annum, either at once or by monthly instalments

APPENDIX.

RULES FOR THE ADMISSION OF SUBSCRIBERS ACCORDING TO LENGTH OF

RESOLUTION BY THE DIRECTORS, 7th July 1848.

That the Rules sanctioned by the Honorable the Court of Directors be reprinted with such modifications as are necessary to obviate misapprehension, and that they be considered in force from this date, and that as directed by the Honorable Court eligible parties now on the strength of the Army who may not embrace the new plan before the 1st January 1849, be required to produce health Certificates and be charged compound interest at 8 per cent per Annum on the payment of arrears of the additional donation and creased subscriptions.

1. All Members now in the service, and those who may enter hereafter, are permitted to subscribe from the 7th July 1848, according to length of service, agreeably to the following scale and on the conditions hereafter described;

As Captain, after 12 years' service, (assumed age 31)
As Major, ,, 22 ,, ,, 41
Licut. Colonel ,, 27 ,, ,, 46
Colonel ,, 32 ,, ,, 51(a)

Chaplains and Assistant Chaplains.

As Captain, up to 15 years' service. Major, after 15 ,, ,, ,, Lieut. Colonel, ,, 20 ,, ,, ,, ,, ,

- 2. Members now in the service entitled by length of service to subscribe in a higher than their next superior Regimental rank will be required to pay the Donations of the intermediate grade or grades in addition to that established for the rank in which such length of service may entitle them to subscribe. (b.)
- 3. The donations and subscriptions required of Members availing themselves of the privilege of subscribing according to length of service are fixed according to Tables A and B, with the exception that all donations under these Rules are payable by 25 monthly instalments.
- 4. The period of service to entitle parties to subscribe in a higher grade is invariably to be calculated from date of first admission upon the Indian establishment. (c)
- 5. Members already retired are also permitted to subscribe according to the rank to which their respective ages may entitle them agreeably to para. 1, on payment of the Europe rate of subscription required from that rank, and the several donations required for entering into all the intermediate grades between the rank in which the Member retired and that in which he may be so entitled to subscribe, as also the fixed donation for that rank. (d)

⁽a) The "assumed age" entered opposite each period of service has reference solely to the case of Retired Officers.

⁽b) This para. is not understood to mean that an Officer in the service has no option but that of either continuing to subscribe in his regimental rank, or subscribing in the highest rank in which his length of service entitles him to do so; Griffith Davies, Esq. having, in answer to a question proposed to him on the subject, stated (vide page 2, Minutes 2d Feb. 1849) that he could "see no objection to allow a member of one grade to subscribe according to any higher that his length of service would entitle him to."

⁽c) Without any deduction on account of furlough, sick leave, &c. to Europe, or elsewhere.

N. B.—In 1852 (vide Head No. XII in Minutes 24th June of that year) the Directors were authorized by the Subscribers at large to comply with applications from Engineer Officers to be allowed to calculate their periods of service "from the date of the arrival of the first Artillery Cadet" of their respective seasons.

⁽d) A retired Officer desirous of subscribing in a higher grade than that attained by him in the service must do so in the particular rank in which his age entitles him to subscribe, and has not the option of subscribing in any intermediate one. Thus: a retired Captain, for instance, of the age of 51 years or upwards, may subscribe as a Colonel, but not as a Major or Lieut. Colonel. (See "Decision of the Board" in page 2, Minutes 11th July 1850.)

- 6. Officers hereafter retiring from the service before they are entitled to the full pension of their subscribing* rank will be required to continue to pay the Indian rates of subscription of their respective ranks.†
- 7. Proof of health will be required of every Member wishing to subscribe according to period of service; whether such member be at present on the returns of the army or retired—as also from those who may hereafter enter the service.
- 8. Admission to subscribe in the next higher rank to which his service may render an Officer eligible, shall depend on the payment of the increased donation within the period prescribed by the General Regulations. Further, the claim must be made to the Managers in India within three months, if he be in India, or, if at home, within six months, from the completion of the qualifying service.
- 9. If the privilege to subscribe in the next higher rank be not embraced within the above periods, the application, whenever subsequently made, must be accompanied by the prescribed Health Certificate, and compound interest at 8 per cent per annum shall be charged upon the additional donation and arrears of subscription accumulated half-yearly from the date of these Rules taking effect, or from the completion of

half-yearly from the date of these Rules taking effect, or from the completion of the qualifying service.

- 10. Officers whether retired or otherwise embracing the privilege granted by this Rule, must comply with all its provisions calculated through each grade of service: (a) and all applications must be made in the annexed Form No. 2
- 11. When a subscriber may under paras. 2 and 5 have to pay more than one donation, the whole must be paid within the prescribed period of 25 months, and by the regulated Monthly Instalments. The usual deduction of 10 per cent will however be allowed for prompt payment of all such donations within 30 days from the Rule taking effect; or from date of completion of qualifying service.
- 12. In all cases the Fund must realize the minimum of the advanced rank in which Members subscribe to entitle their families to the benefit of full pension of that rank.
- 13. Widowers having legitimate offspring eligible for the benefit of the Fund will continue to subscribe in the higher grade as married.
- 14. All unauthorized arrears under this rule to be dealt with according to the rule in existence for other unauthorized arrears in general, and to be subject to the penaltics established by the General Regulations of the Fund.

FORM No. 1.

We, the undersigned Medical Officers of H. M. or the Honorable the East India Company's Service (as the case may be), do hereby solemnly and sincerely declare that we have carefully and personally examined into the state of Λ B.'s health, and that we pronounce him free from any bodily complaint of a dangerous tendency, and believe him to be a good life.

FORM No. 2.

To

The Secretary Madras Military Fund.

SIR,

I request you will submit to the Directors of the Fund this my application to subscribe to the Fund according to length of service—on the terms published in Minutes of Proceedings of the Military Fund, under date the 7th July 1848.

I hereby agree to comply with all the provisions of the new Rule as set forth in the aforesaid Circular: and failing performance on my part of any one of which provisions, I hereby consent that my wife shall at my demise, forfeit all and every advantage the new Rule is intended to confer, and which she would otherwise derive from my compliance with the conditions of the said new Rule of subscription according to length of service.

I further beg to enclose the required Certificate of Health.

I have, &c.,

APPENDIX II.

1st May, 1818.

BULES FOR THE ADMISSION OF OFFICERS OF THE NON-EFFECTIVE ESTA-BLISHMENT WHO DID NOT ENTER THE ARMY AS CADETS.

Officers on the Non-effective Establishment who did not enter the army as Cadets are allowed to participate in the benefits of the Military Fund, to the extent and in the manner hereinafter described.

I. Pensions to Widows.

- 1. Officers of the above description will be allowed, on proof of health, to ensure survivorship pensions for their wives, to the full extent of the regulated pensions to widows of subscribers of corresponding rank on the regular establishment, or for one-quarter, a half, or three-quarters of such regulated pension, on payment of an equivalent single or monthly premium according to age, to be determined on the principle laid down in Article 162, Davies' 1st Report (Formula A-A B taken from Tables 10 and 32) the amount of which premium can be ascertained on application to the Secretary.
- 2. In the event of the party preferring to insure by monthly instead of a single premium such monthly payment will cease on the death of either the husband or wife, and whichever mode of payment be adopted, the pension will be continued to the widow for life, without being subject to suspension in case of her re-marriage.

II. Pensions to Children.

- 1. Officers of the above description at present in the service will also be allowed to secure for each of their children the full amount, or such proportion of the pensionary benefits held out to the children of members of the regular service as their means will allow, the proportions being restricted, as in the case of widows, to a quarter, a half, or three-quarters.
- 2. Thus to secure the same pensionary advantage as is allowed the children of regular subscribers, payment of the equivalent, as regulated by the

last two columns of Table 21* if for sons, and by the corresponding columns of Table 26* if for daughters, must be made by single premium, and for half the above benefits half the amount will be charged.

Application to insure for any of the above benefits, supported by certificate of health and of dates of birth of parents and children, must be preferred within six months from the date on which the rule is passed by the army: or

the application will not be admitted.

Those who ensure to the full extent of the pension allowed to widows of members of the regular establishment, will be allowed to effect a further assurance on promotion to a higher grade, or for any additional children that may be born to them, and those who ensure for less than the fixed rates will be allowed to augment their original amount ensured, on production of a fresh certificate of health and at the rates prescribed for their then ages; but to obviate complexity of accounts, such additional insurance by either party can only be allowed to be effected by a single payment; and if for an additional child the application must be made within six months of the date of birth.

The pensions assured to widows and children of the said Officers will be issuable without deduction on account of minimum; and it must be distinctly understood that Officers insuring as above are not eligible for personal benefits,

either to themselves or families.

The case of Officers who may hereafter receive commissions on the regular establishment will be provided for on receipt of the revised Tables under pre-

paration by the Actuary.

If an Officer of the Non-effective Establishment who shall have effected an assurance for his family shall be dismissed from the service, or leave his contributions unpaid for three months, such assurance will be null and void, and all advantages to his family will be forfeited.

All payments must be made in India in Rupees, and through Paymasters or other official channels, or into the General Treasury at Madras. Instalments

must be paid monthly as above from the Assurer's Abstracts.

On demise of wife or children the policy becomes void so far as the deceased may have been interested in it, but no part of the payments made on account of the deceased can be returned, and in the event of re-marriage a new assurance, on the foregoing terms and conditions, if desired, can be entered into.

- 2. The foregoing Tables being merely provisional, it is, in every case, to be understood that any sum, which the Actuary who may eventually pronounce upon the subject may declare to be wanting to complete the full value of the increase of pension guaranteed, is to be made good to the Fund by the subscriber, or, in the event of his death in the interim, to be recovered from the annuity payable to the particular child to whom such increase may have been secured; while, on the other hand, should the Actuary pronounce the payment made to be in excess of the actual value, the difference is to be refunded to the subscriber, or, in the event of his having died, to be paid to the child in question, if still living.
- 3. Should the subscriber, and the child for whom the increase may have been purchased, both die before the receipt of the Actuary's decision (a case, it is hoped, very unlikely to arise) it is proposed to consider the payment made under the foregoing Tables, final.
- 4. The sums required to be paid, in order to secure the increase to daughters for whom "Donation" has been paid, are of course larger than those charged under Table No. 1, the increase purchased under Table No. 1, being claimable only up to 21 years of age, whereas that purchased under Table No. 2 is claimable until marriage or death.
 - 5. The following case exhibits the extent of the benefit securable :-

A deceased subscriber's child would, in virtue of its Father's having been a married subscriber, and of his having reported its birth and paid monthly subscription of one Rupee on its behalf, be entitled, during its Mother's life time, to receive Pension as follows:—

	at i		
Under 6 years of age,	20	0	0
Between 6 and 12 years of age,	30	0	0
From 12 years of age until the termination of its			
clain upon the Fund,	40	0	0

Supposing, however, that, during its Father's life time, the increase now in question had been purchased for it, the same child would, in virtue of such transaction, receive, even during its Mother's continuance in life, Pension as follows:—

	₽		
Under 6 years of age,	30	0	0
Between 6 and 12 years of age,	45	0	0
From 12 years of age until the termination of its			
claim upon the Fund,		0	0

-being the rates established for children who have lost both parents.

Obs.—In these calculations the subscriber's minimum has been assumed to have been paid in full. Supposing the reverse to be the fact, the usual deductions of one-fourth would be made (See Article 47,) and the rates of Annuity payable would thus stand as follows, until the sum wanting to complete the minimum had been received:—

AGE OF CHILD.	-the	the Mot increa g been p	se not	life -	- the	nother's increase purchas-
Under 6 years,	£ 15	8. 0	D. 0	£ 22	S. 10	D. 0
Between 6 and 12 years,	22	10	0	32	15	0
12 years and upwards,	30	0	0	45	0	0

There would be several objections to exempting the extra £10, £15, £20, from the operation of Article 47. The contingent liability of the addi-

tional sums in question, to be taxed, in common with the rest of the Pension, towards completion of the minimum, will doubtless, however, not escape the notice of the Actuary, when finally determining their vulue.

- 6. The increase may be purchased either for the whole of a subscriber's children, or for one, or any given number, of them
- 7. Subscribers wishing, to purchase the increase for children upwards of 90 days old are required to produce Health Certificates according to the following Form:—

We the undersigned Medical Officers of Her Majesty's or the Honorable the East India Company's service (as the case may be) do hereby solemnly and sincerely declare that we have carefully and personally examined into the state of A. B.'s health, and that we pronounce him free from any bodily complaint of a dangerous tendency, and believe him to be a good life.

8. The Subscriber's notification of intention to purchase the increase should be worded according to the following Form, or in any manner equally explicit and binding.

on the terms set forth in the Circular from your Office, dated 25th November 1852, the same rates of Pension, in the event of my decease, as they (or "he," or "she," as the case may be) would be entitled to, under the ordinary Rules of the Institution, after the death of both Parents.

The required Certificate of Health is herewith enclosed.

AND DATE. Your most obedient Servant,

9. Where the age of the child for whom the advantage is proposed to be secured does not exceed 90 days (inclusive both of the child's date of birth and of the date of the subscriber's notifying his intention to enter into the transaction) proof of health is not required. In such cases the concluding paragraph of the Form of Letter above given will of course be omitted.

His Excellency General Viscount Gough, G. C. B., Commander-in-Chief in India in the year 1845, with reference to several cases, arising out of the death of Officers on the voyage from India to England leaving their Widows and Children in circumstances of great distress, and with advertence also, to the manifest justice of allowing all Widows and Children of Officers, being subscribers to the Fund, who may die at the Cape of Good Hope, the Mauritius, New South Wales, or Australia, the benefits of the Military Fund,—directed the introduction of Rules 21 and 22, after they had been proposed for the consideration of the whole body of subscribers and carried by a large majority.

It having since been found advisable to make some alterations and additions to the Rules and Regulations, in reference to the state of the Fund and the generally expressed wish of the subscribers, His Excellency General Sir William Gomm, K. C. B., assembled a special Board of Officers at Sinula in June 1851, for this purpose, and directed the minute of their Proceedings to be published and circulated for the consideration of the body of subscribers serving in India, who almost unanimously agreed to the alterations propose.

By order of the Governor General in Council.

Secy. to the Govt. of India.

By order of the Right Honorable the Governor in Council.

H. C. Montgomery, Chief Secretary.

No. 3933.

Extract from the proceedings of the Most Noble the Governor General of India in Council in the Financial Department, under date the 24th October 1854.

In Extract Minutes of Consultation, 28th November 1854, No. 472, Financial Department.

Under orders dated 22d November 1843, this Government decided that any Medical Officer in Civil Medical employ who shall proceed on leave of absence from the station to which he is attached whether on private affairs or on Medical Certificate, shall forfeit during the period of such absence the whole of his Civil salary, and shall be allowed to draw his Military Paya and Allowances only subject to the Rules in the Military Department, the Medical Officer performing the duties of the Absentee receiving the entire allowance of the situation in which he may be appointed to officiate, unless he be in Medical charge of a Regiment or the Wing of a Regiment at the same station, in which case he will receive his allowances for such charge, and 100 Rupees per month additional for the preformance of the Civil duties. The orders of November 1843 also limited leave of absence without loss of Civil appointment to Medical Officers in Civil Medical charge, to a period of six months only.

- 2. On the receipt however of the new Furlough Regulations for the Military Service, the Military Department suggested reasons for rescinding the abovementioned Resolution, and this Department concurring in the views expressed, declared in May last that as the Resolution of November 1843 had been practically annulled by the new Furlough Regulations, Medical Officers holding Civil employment are to participate in all advantages conceded to Military Officers on detached employment.
- 3. Since the issue of this decision, the Most Noble the Governor General in Council has had under his consideration the representations of two Medical Officers in Civil employ, Surgeon T. W. Wilson and Assistant Surgeon W. W. Heude, both complaining that inadequate allowances have been issued to them while officiating in Civil Medical Charges, the former in the station of Moorshedabad, and the latter in the Residency of Nagpore, and the circumstances of the two cases appear to be as follows:
- 4. Dr. T. W. Wilson represents that while officiating as Civil Surgeon at Moorshedabad during the absence of Dr. Keane, on leave on Medical Certificate under the new Military Furlough Rules for six months to the Mauritius; the Civil Auditor has passed to him only one half of Dr. Keane's salary as Civil Surgeou, receiving the other half for Dr. Keane, while the Military Auditor General has disallowed his bill for Military Pay and Allowances altogether, on the ground of his being employed in the Civil Department. Dr. Wilson says that he has thus, while acting for Dr. Keane, been placed in the anomalous position of an Officer of equal rank, and in actual employment, drawing a smaller sum than the Absentee.

Dr. Wilson's observation is correct—Dr. Keane when he was present at his post drew only a Civil Salary of, per month			Rupees	400	0	0
then cost the Government		••••	• ••	415	6	0
			Rupces	815	6	0
But Dr. Keane while on leave is said by the Military Auditor General to be entitled to			•			
Military pay and allowances415	6	0				
and the Civil Auditor, it appears, has reserved for him one half of his Civil salary200 giving to Dr. Wilson the remaining 4 salary	0	o				
forfeited by Dr. Keane200	0	0				
and thus leaving him on much less pay and allowances than those of his rank. Dr. Wilson						
claims therefore in addition415	6	0				
Perference			•	1230	12	0
causing thereby a threatened excess payment by the Government ofRı	ıpe	es		415	6	0

- 5. The case of Dr. Heude is, in so far as his allowances are concerned, similar to that of Dr. Wilson, Dr. A. Bell, the Residency Surgeon at Nagpore, obtained leave under the new Military Furlough Rules for six months to proceed to England on private affairs without loss of appointment, and Dr. W. W. Heude of the 10th Regiment Madras N. I. was appointed from the 28th March last, to the charge of the Civil Medical duties at Nagpore. He claimed while so officiating the full salary of the appointment, viz. Rupees 500 per month, but as the orders of the 22d November 1843, had been rescinded by the Resolution of 2d May last, this Government decided in June last that Dr. Hende while acting for Dr. Bell was entitled, under the new Rules applicable to Military Officers in Staff employ, to half Staff allowances only, those Rules being held to be applicable to Medical Officers from the date of their promulgation, viz. the 4th February 1854.
- 6. Dr. Heude in noticing the above decision now states, that on the 1st December last he was directed to relieve Dr. Bell from his Medical duties at Nagpore, including the City Hospital, Dr. Bell being compelled from ill health to relinquish his post, and to proceed to Calcutta on Medical Certificate. Whilst so acting, in addition to the allowance attached to the charge of the City Hospital (Rupees 600, one half of which belonged to the permanent incumbent) he drew the following sums;

As Assistant Surgeon Madras Establishment	256	10	0
In charge of 10th Regiment Madras N. I	165	0	0
Artillery Details, average per month	23	8	0
Extra allowance for Residency duties	100	0	0
~			
Rupees	545	2	0

- 7. But on the 28th March last, when Dr. Bell's leave on Medical Certificate was commuted to leave on private affairs under the new Regulations, his services were placed at the disposal of the Supreme Government and from the 31st of that month all his Allowances from the Madras Presidency ceased, and by the decision of the 30th June last he is allowed only one half of the salary hitherto drawn by the Residency Surgeon at Nagpore. Dr. Heude requests therefore to know what portion of local allowances he is authorized to draw.
- 8. On the representations of Dr. Wilson and Heude, the Most Noble the Governor General in Council would here observe that in cases of Military Officers holding Civil Staff appointments, the Military Pay and Allowances form part of the consolidated salary; and the Staff Allowances that have to be divided between the

permanent incumbent and the person who acts for him when he goes on leave, are equal only to the amount of the difference between the Military Pay and Allowances, and the consolidated salary, which is calculated in the manner given in the margin,* each person drawing his Military Pay and Allowances in addition.

9. But the case of a Medical Officer doing duty in the Civil Department is disposed of differently. He does not while so employed have any Military Pay or Allowances passed to him in the Military Department; the whole salary of his appointment is considered as a Civil charge; and, hence, though the person who takes leave is entitled, immediately on his giving over charge of his Civil duties to the whole of his Military Pay and Allowances, the person who acts for him is entitled to nothing beyond what amount is paid to him from the Civil Department. According to the decision of the Government in the case of Dr. Heude in June last this sum is not to exceed one half of the Civil Pay of the Absentee, while the permanent; incumbent receives not only half of the Civil pay but the whole of his Military Pay and Allowances besides.

G. G. O. No. 187, dated 29th September 1880. The Govenor General in Council is pleased to resolve that when a Medical Officer attached in his professional capacity to a Civil or Political station shall proceed on leave whether on private affairs or on Medical Certificate, he shall be entianters or on medical certicate, he shall be enti-tled to draw, subject to the Rules in force, during such absence, if a Surgeon, Sonat Rupees 415-6 and if an Assistant Surgeon, Sonat Rupees 256-10 per month, the Medical Officer perform-ing the during of the Absentee. If not attached to ing the duties of the Absentee, if not attached to a Military Corps at the same station, receiving the entire allowance of the situation in which he may be appointed to officiate.

His Lordship in Council further resolves that when a Medical Officer is nominated to a Civil or Political station, he shall continue to draw the Pay and Allowances of his rank until he enters on the duties of his Civil appointment when his Civil salary will commence.

10. This distribution of allowances is certainly not fair, and with a view to establish a more equitable Rule, the Most Noble the Governor General in Council is pleased to revive the G. G O. No. 187 of the 29th September 1830, which remunerates the locum tenens fairly and gives the permanent incumbent no more than his due, protecting the Government at the same time from any loss by the absence of its Officers.

11 And Dr. Heude's Allowances while in charge of the Civil Medical duties at Nagpore during the absence of Dr. Bell, must be treated upon the principle of the precedent here authorized in the case of Dr. Wilson, in supercession of the orders issued on the subject on the 30th June last.

This Institution was established by the Right Honorable Sir Frederick Adam, K. C. B., by a General Order of Government, dated 13th February 1835, for the instruction in "Medicine and Surgery" of East Indians, and Natives, entering the Medical branch of the Service. The benefits of Instruction have been since thrown open, gratis to the community at large. The Medical College has been recognized by the Royal College of Surgeons of England as one of the Colonial Schools of Medicine and Surgery. It is under the supervision of the Director of Public Instruction.

The course of education consists of Anatomy, Botany, Chemistry and Pharmacy, Physiology, Materia Medica, Surgery, Military Surgery, and Practice of Medicine, Midwifery, and Diseases of Women and Children, Diseases of the Eye, and Medical Jurisprudence with Clinical Instruction in Medicine and Surgery, also a course of popular lectures on Natural Philosophy by Asst. Surgeon W. J. vanSomeren, M. D. opened to Medical Subordinates and the public generally.

A building has been appropriated solely to the objects of the Institution, the foundation of which was laid in December 1836.

A separate building for conducting Practical Anatomy, has been added, and a Laboratory has been recently constructed.

A Museum has been formed, which, in addition to morbid specimens, possesses numerous preparations, models and specimens, for illustrating the different branches of the course of instruction.

The Institution is supplied from time to time with a selection of works on the several branches of study, for the purpose of forming a Library of reference. The Pupils are provided with such works as may be required, as text books for instruction, at reduced prices.

The course of instruction extends from 15th August to 30th April inclusive, and the annual examination of the College is held in April.

The Pupils in attendance at the College consist of Medical Apprentices, Native Medical Pupils, Stipendary and Private Students. The two former are promoted, respectively to the ranks of Assistant Apothecary and Native Second Dresser, for the duties of the Army, and the Stipendary Students are nominated for appointment as Native Surgeons, for employment in the Civil Department.

The number of Students in attendance at the College on the 15th August 1856 was 176.

The period of instruction for each class of Students is as follows, viz. For Military Students.

Medical Apprentices. 4 years.

Medical Pupils 3 do.

For Private and Stipendiary Students. 5 do.

The Annual Examination of Students takes place in April, when Diplomas,

&c. and prizes of books, are given to the most deserving Students in the several classes.

The Senior Class of Students undergo a final Examination by a Board of Examiners, and those found qualified receive Certificates to that effect for employment in the Public Service.

There exist two Lane Scholarships of 20 Rupees each per month, tenable for 5 years, these Scholars if of pure Native descent can compete for the appointment of Native Surgeon.

The Stipendary Students vary in number, they receive Government Stipend of 7 Rupees per month during the first year of instruction, 10 Rupees during the second year, and 14 Rupees during the subsequent years. They remain 5 years under instruction and qualify for the grade of Native Surgeon.

The Johnstone Gold Medal of 50 Rupees value is given as prize to the best qualified Apprentice of the Senior Class.

A Government Gold Medal of 30 Rupees value is given to the best qualified Native Medical Pupil.

A prize either of books or a case of instruments is given annually from Funds allotted for this purpose by C. V. Conniah Chetty, Esq., to the best qualified of the Stipendary Students, who passes for Native Surgeon.

The Stipendary, and Private Students, and Lane Scholars, after passing a final examination, obtain degrees as graduates in Medicine and Surgery.

Second Dressers after 5 years' Service are also eligible for the appointment of Native Surgeons, they are required to pass two Sessions at College previous to presenting themselves for final examination, and if passed, obtain degrees as graduates in Medicine and Surgery.

RULES.

Financial Department; Fort St. George, April 4 1834.

The Right Honorable the Governor in Council directs that the following Rules of a Savings' Bank, established in Madras under the guarantee and responsibility of Government, be published for general information.

- 1st. The Bank to be denominated the "Government Savings' Bank."
- 2d. All classes, British and Native, may invest their savings in the Government Savings' Bank.
- 3d. The return of the exact sum deposited, together with the interest due thereon at the undermentioned rate, is secured to the Depositor under guarantee of the Government.
- 4th. The general direction and control of the Bank shall be vested in a Committee of Management, to be nominated by the Governor in Council. The Committee shall meet at such stated periods as may be necessary for the due and efficient control of the proceedings of the Bank.

- 5th. The Government Agents are charged with the immediate superintendence and execution of all details connected with the Bank. They will be also ex-officio Members of the Committee of Management. The Sub-Treasurer, as one of the Government Agents, will be ex-officio Secretary to the Bank.
- 6th. A Register of Deposits will be kept, and generally such other accounts as may be determined on and approved of by the Managing Committee.
 - 7th. Any sum not less than one Rupee will be received in deposit.
- 8th. Whenever any sum deposited by one individual shall amount to 1,500 Company's Rupees, the same will be transferred from the Bank deposit in the General Treasury, and subscribed on account of the Depositor to such Bengal Government Loan as may be open, until further notice, unless an intimation of its withdrawal, or the withdrawal of a portion of it, be given by the Depositor within one month after it has reached that amount; and all Government Securities shall be handed over to the Government Agency at the expiration of three months (subject to all the Rules which obtain in that Department) unless counter instructions be immediately received from the Proprietors.
- 9th. Interest at 3 per cent per annum will be allowed on deposits until further notice.
- 10th. The interest will be calculated on a deposit from the first day of the month succeeding that in which it shall be received, and up to the last day of the month preceding that in which it shall be withdrawn. No interest will be allowed for broken periods of a month, nor calculated on fractional parts of a Rupee.
- 11th. The Government reserves to itself the power of lowering or raising the rate of interest, such alteration not to affect deposits above 500 Company's Rupees previously invested in Public Securities, and due notice to be given in the Fort St. George Gazette, of the intention of Government six months before the alteration shall take effect.
- 12th All deposits will be regularly entered in a book at the time they are made, and the Depositor of the deposit made at the Presidency will be furnished with a small book having a duplicate of the entry. This book is to be brought to the Bauk whenever any sum is deposited or withdrawn. The account thus kept will be closed on the 30th April of every year, and the balance of interest due at that period will be paid to the Depositor, or carried to account, thence-forward to accountlate at compound yearly interest, until it shall amount to 1,500 Company's Rupees, when the same will be transferred from the account of the Bank, and subscribed on account of the Depostor to the Bengal Government Loan, as per Rule VIII, unless notice of withdrawal be given within one month as above, or unless the rate of interest be altered as provided for in Rule XI.
- 13th. No person or persons to deposit money for the benefit of any other person or persons, except Parents on behalf of, and on account of their children being minors. If such deposits are made in the children's names, they cannot be withdrawn without an authority from the children,—no trust will be allowed to appear on any deposit. Provided, however, that this Rule shall not be construed to prohibit Individuals resident out of Madras, or females, who, according to the manners and customs of the country, do not usually make their appearance in public, from making their deposits in their own names, by the hands of other persons as Agents on their behalf.
- 14th. No sum deposited to be transferable, excepting on the personal application of the Depositor, supported by written sanction. When peculiar circumstances render a deviation from this rule necessary, the case shall be submitted to the Committee of Management for their sanction.
- 15th. No person will be allowed to deposit any money without making known his or her name, together with his or her profession, business, occupation,

calling, and residence. A duplicate of this description will be entered in each Depositor's book, to be produced whenever any sum is afterwards deposited or withdrawn.

- 16th. Depositors will be at liberty at any time to withdraw any sums or portions of sums deposited by them, receiving interest calculated up to the end of the month preceding that in which the withdrawal is made: but no person will be permitted to deposit or withdraw money more than once during the month. An exception will however be allowed in cases in which good and sufficient reasons may be assigned.
- 17th. As a general rule, deposits, with the interest due thereon, will be repaid to the Depositors personally in all practicable cases. In the cases of individuals unable to attend in person, the Secretary will exercise his discretion in regard to repayments of deposits to responsible persons duly authorized by such absentees to receive the same.
- 18th. Military Officers and Soldiers, European and Native, will be allowed to invest their savings in the Government Savings' Bank, through the Paymasters of Corps or Divisions; and Officers and Servants of the Civil Establishments, European and Native, through the Residents, Collectors, and other Officers in charge of Public Treasuries, or who are competent to sign Pay Abstracts of Civil Establishments; and Residents, Collectors, Paymasters, and other Officers in charge of Public Treasuries, are hereby authorized to receive Subscriptions to the Bank, or to deduct monthly from their Abstracts such sums as the parties within their circle of payment may be desirous of depositing, not being less than one Rupee, nor more than 1,500 Company's Rupees.
- 19th. The deposits referred to in the preceding rule are to be brought to the credit of Subscribers on the last day of the month in which the payment or deduction is made; the Rules XVI and XVII, respecting the withdrawal of deposits by parties subscribing through Residents, Collectors, Paymasters and other Officers in charge of Public Treasuries, will be carried into effect under instructions which will be furnished to them by the Accountant General.*
- 20th. In case of the death of a Depositor, the sum at his credit will be paid to his or her Executors or Assigns; or in case of no will, according to the law on this head, or the Regulations of the Service if the deceased be Military.
- 21st. In case of any difference between the Secretary of the Bank and any Depositor, it shall be referred for the decision of the Committee of Management.
- 22d. A general statement of the Funds of the Bank shall be annually made out to the 30th April after the 1st May. The same to be submitted for the information of Government, and published in the Fort St. George Gazette.

Advantages offered by the Albion.

I. FOUR FIFTHS, or 80 per cent of the entire Profits arising from all Policies issued upon the Participating Scale of Premium, will be apportioned triennially among the holders of such Policies, either in

Augmentation of the sum insured, or in

Reduction of the future Annual Premium.

- II. Low Premiums, compared with those usually charged for Insuring the Lives of Europeans, resident in India. Thus at the age of 29, the lowest Military Premium usually charged for an Insurance of 10,000 Rupees, would insure from 10,500 to 11,250 Rupees in the Albion, thereby securing to the Policy-holder an immediate Bonus of from 500 to 1,250 Rupees, or an immediate and permanent reduction of Premium, varying from 43 to 11 per cent.
- III. PERFECT SECURITY, arising from a large Capital, totally independent of the Premium Fund, and the accumulated Profits of nearly half a century. In all Societies for Mutual Insurance, the Premium Fund constitutes the only Capital, and the Members are mutually liable for any deficiency that may at any time be found to exist in the assets of the Association.
- IV. No charges in addition to the Premium, either for Medical Fees, Entrance Money or otherwise.

AGENTS AND SECRETARIES Messrs. Parry and Co.

The attention of the Assuring classes in India is invited to an entirely new set of Tables, constructed for the especial use of the Church of England Company. The rates are quite as low as the average rates of the cheapest offices in India. They have, in fact, been reduced to the fullest extent compatible with the stability of the Institution, and the security of its Policy-holders.

The distinguished success which attended the establishment of the Church of England Assurance Company, in England, Scotland and Ireland, induced the Directors several years ago, to open Branch Offices of the Company, at Calcutta and Madras, with a view of extending the peculiar advantages of this establishment to Europeans residing in all parts of India. They felt satisfied that these advantages would be duly appreciated by the Anglo-Indian public, and that the same decided success would attend the Company's establishment in the East, and the same powerful support be given to it by the Clergy and Laity in the three Presidencies of India, as had already marked its progress in all parts of the United Kingdom in Europe.

These anticipated prospects of success the Directors have the gratification of being enabled to state have been fully realised.

The high credit enjoyed by the Company in Europe, and the connection of many of its Directors with men of eminence and influence in India, have enabled the Company to proceed in a continued career of prosperity such as to sassisfy the most sanguine expectations of all persons interested in its welfare.

In every institution of this kind the two main objects of Policy-holders are SECURITY and ECONOMY.

The highest attainable economy has been afforded to Policy-holders by means of an entirely new set of Tables computed for the especial use of the Indian Branches of this Institution. No labour or expense has been spared in the construction of these Tables: and the Directors have much gratification in directing attention to them, being confident that they will meet the views, and satisfy the expectations of the Assuring classes of India.

The security of Policy holders in India is made complete by the responsibility of the whole body of Proprietors, both in England and in India, to the extent of the subscribed capital; whilst for their immediate protection and advantage, an adequate fund has been invested in Indian Securities, so as to be always immediately available, to provide for whatever casualties may arise. The premiums may be paid either annually, half-yearly, or quarterly: and Policies, which have become forfeited by non-payment of the Premiums, may be revived within 12 months, upon proof of the same state of health, and the payment of the premiums in arrear, with interest thereon, but without the exaction of any fine. The age will be admitted in all cases where satisfactory evidence is furnished in regard to it, previously to the Assurance being completed.

After their arrival in England, Assurers will, if in approved health, be permitted during the remainder of their abode there, to pay their Renewal Premiums according to the reduced scale for Great Britain.

Policies effected by parties on their own lives, and assigned as a bona fide security to others, will not be rendered void in the event of death by suicide, duelling or the hands of justice. Claims will become payable within three months after satisfactory proof of death.

The necessary Forms of Proposal, and every requisite information as to the mode and terms of effecting Assurances may be obtained either by Letter or personal application, to

REGULATIONS OF THE MADRAS EQUITABLE ASSURANCE SOCIETY.

- Art. 1.—The object of this Association is to provide a Fund for the Assurance of Lives to which an individual may subscribe to a certain extent, either on his or her own life or on the life of any other person. In the former case, the General Estate of the deceased shall benefit in the event of a lapse—in the latter, the person who may have subscribed on the life of the deceased shall benefit to the extent of the amount subscribed for, unless in either case such amount be especially declared at the time of subscription to be for the benefit of any other person or persons or be subsequently made over according to the form hereafter prescribed for the benefit of any other person or persons, in which case such person or persons shall be entitled to benefit in the event of a lapse and no other.
- Art. 2.—In the case of a person subscribing on the life of another, the Party subscribing, and not the Party on whose life the subscription is made, shall be considered a Member of the Society and have a voice in the management of its concerns. Co-partners or other bodies of individuals may hold Assurance jointly on any given Life, but in such case the Parties uniting in the subscriptions shall not be entitled each to a separate voice in the concerns of the Society, but must vote collectively, or by deputation of one of their number on all matters thereto relating.
- Art. 3—No smaller sum than five hundred, nor larger than Thirty Thousand Company's Rupees can be subscribed for on one life.
- Art. 4—The following are the rates of Subscription to be paid for Assurance in the Society according to the age of the Parties upon whose lives the Assurance is effected—but the Premia for Military Lives upon all Policies obtained in this Society by transfer from the late 5th Madras Laudable Society, shall be charged at the rate for Civil Lives. It shall, however, be optional with the Directors to charge the Civil rate of Premium on the lives of Military men while engaged in duties purely Civil.

FAMILY ENDOWMENT LIFE ASSURANCE AND ANNUITY SOCIETY.

(No. 12, Chatham Place, Blackfriars, London.)

CAPITAL, £500,000—ESTABLISHED BY ACT OF PARLIAMENT, 19TH MAY 1836.

Agents in Madras......Messrs. Binny and Co.

Deferred Annuities and Endowments for India.

GENERAL RULES.

All Premiums must be paid in advance—every facility will be given for their regular payment or remittance; but 12 per cent interest will be charged on all arrears, and the contract forfeited after six months' non-payment of Premium.

The first half-yearly payment of Annuities will be made, if claimed in India, six months, and if in London, 12 months after the expiration of the period of deferment, and parties, whose Annuities have commenced in India, will on their return to England have to comply with the English period of payment, which is, as above, six months later.

An officer proceeding on furlough and having subscribed for a Deferred Annuity, may at his option, continue his payments during furlough, the Annuity becoming payable at the same terms as if he had remained in India, or he may discontinue his subscription during the period of furlough, in which case the period of deferment will be extended for an equal time, or lastly, he may surrender his contract to the Society, who will be prepared to purchase it at a fair valuation.

The Annuities will be paid in London at the Exchange of 2s per Rupee.

For the present the Directors have limited the Annuities on any one life to 3,000 Rupees, and the Endowments to 30,000 Rupees.

Forms of Proposal and full information may be obtained at the offices of the Society in London, and of the Secretaries and Agents in India.

Life Assurance.

The advantages of this Society are as follows:

A lower and more economical scale of premiums for Life Assurance than hitherto demanded by the established offices in India.

The Tables of Premium have been accurately prepared, after reference to all the various and best reports and statistical documents recently available, and particularly, that last prepared by Mr. Griffith Davis in 1844, based on Dodwell and Miles' Army Lists, and the investigations of Mr. Woolhouse, Actuary of the National Loan Fund Life Assurance Society.

To the actual or mathematical risk thus deduced, an ample per centage has been added to the scale of Premiums for the safety of the Society and the benefit of the Assured; and it will be found by reference to the subjoined Tables that, notwithstanding a considerable per centage thus added, the rates of Premium will be cheaper at all ages to the holders of Policies than those hitherto offered to the public in India.

The whole of the Funds of this Society in India at present are invested in Government Paper. The Directors are limited to such investment, and to loans on security of Government Paper or Bank of Bengal shares only.

All holders of Policies in India on the profit scale, who may have paid five Annual Premiums will be entitled at the expiration of the fifth year to a year's profit, calculated on the average of the preceding five years, such profit to be

paid in cash, or to go in diminution of the future Premiums payable, or to be added to the sum assured by the Policy at the option of the Holder, after the calculation of the profits shall have been made in London.

After the expiration of 1851, the profits will be declared annually, and the payers of five complete Annual Premiums be regularly entitled to a participation therein with a like option as to the mode of application.

Parties assured in India for life shall, on their return to England for a permanency, and on the first half yearly Premium becoming due, be entitled to come upon the English rates of Premium, and be placed under the Rules and Conditions of the Society there obtaining.

All parties assured for life or for terms other than for life, whatever the number of payments or the permanency or otherwise of their residence in Europe, shall after completing a full year from the date of their quitting India, and on the first half-yearly Premium thereafter becoming due, be entitled to a reduction of their Premium to the English rates, and reduced rates being continued during their further residence in Europe.

Parties in the Military Service holding Civil Offices, and thus subject to no greater risk, thus members of the Civil Service, will be charged at the rate of Premium of a Civil life, but on return to their military duties the higher rate will be charged—due notice of such return must be given to the Secretaries.

Premiums are payable half-yearly in advance, but arrangements may be made with the Secretaries for the payment of Premiums annually or for a given number of years.

Assurance will be computed from the date of the Certificates, but no Assurance to be binding on the Society, until the first six month's premium shall have been actually paid to the Secretaries.

Policies becoming claims upon the Society will be paid three months after satisfactory proof of the death of the party assured shall have been received at the Society's Office.

Policies granted by the Indian Branch, will be paid in India or London, at the option of the Holder, at the exchange of two Shillings per Company's rupee, provided notice shall have been given to the Secretaries, at least three months previous to a lapse occurring, of the place at which it is desired the payment may be made. If no notice shall have been given, the payment will be made at the place at which the last Premium previous to lapse may have been paid.

All payments or receipts on account of the Society of Sterling money in India, or of Rupecs in England, will be made also at the fixed rate of two Shillings per Company's Rupee.

In cases of lives of more than ordinary hazard, an increased rate of Premium will be charged proportionate to the risk; such increased rate will be regulated by the strictest attention to justice between the Society and the Assured.

All applications for Assurance must be accompanied by a Medical Fee of Eight Rupees.

Notice of Assignments of Policies will be duly registered at the office of the Agents.

Applications for Assurance to be made to the Secretaries, Messrs. Gordon, Stuart and Co., who are prepared to grant Policies, to the extent of 30,000 Rupees on any one life; approved of by the Directors, and who will afford information regarding the business generally, and rules of the Society in London, as relates to Assurance on Lives or survivorships, the purchase and sale of Annuities and reversionary interests, the granting Endowment on existing children and other ordinary business of the family Endowment Society.

The Society has agents at the other Presidencies, the Colonies and at the principal stations in the Lower and Upper Provinces. The Directors desire to invite the attention of the Public to the real and solid advantages which the adoption of the new Rules and Rates now published as taking effect from 1st July 1856, presents to them.

- The Rates charged on all Policies issued from this date are at a much reduced and fixed figure, not subject to any fluctuation.
- The Rates will be found in comparison with other Tables to be Lower than those of any other Assurance Office in India, which factcannot fail in itself to commend the LAUDABLE SOCIETY to a fair participation in public and

private support.

3. This Office being a Society founded on the acknowledged and sound principles of MUTUAL ASSURANCE divides the whole of its profits amongst the assured, whereas other Institutions work for the benefit of a separate and dis-

- tinct Proprietary body.

- 6. Policies are granted for various limited periods from one year to seven years, and also for the whole duration of Life at fixed rates of Premium
- 7. An Insurer, after one year's residence in Europe, or other country approved by the Directors is entitled to a reduction of 10 per cent. on these rates.
- 8. To suit the convenience of Policy-holders Premium will be received quarter or half-yearly.

Rs. 1,800 annually, less than in other offices, some of which require Co.'s Rs. 2,400 Rs 50,000 for Co.'s Rs. 2,950 annually, while some other Offices charge Co.'s Rs. in the MEDICAL, INVALID, and GENERAL.

RETURNED TO THE ASSURED.

ABSTRACT OF INDIAN PROSPECTUS.

SECURITY.

A capital of half a million sterling, fully subscribed by an influential body of Proprietors, in 10,000 shares of £50 each.

DATA.

Mr. Neison, the Resident Actuary of this Company, in order to prepare a report on the Bengal Military Fund, was, by a resolution of the Hon'ble Court, of date September 1847, permitted to examine the records of the India House for the period from 1760 to 1847. Two years elapsed before his investigation was completed, and the result fully established the following facts:—(1) That the said records afford the only satisfactory data whence to calculate the Premiums for Assurance of the Lives of Europeans in India. (2) That the climate of this country is by no means so fatal in its effects to Europeans as has been hitherto supposed. (3) That the rates of Premium, which have been for many years, and are now charged by some Life Offices in this country, are exorbitant.

The Directors solicit the attention of the Public to the fact, that this is the only Company whose rates are deduced from the records of the India House.

PREMIUMS.

These are generally lower than the rates of any other Company, as will appear from a reference to the subjoined Tabular view of the Annual Premiums for Assurance of Co's Rs. 1,000 at death, with profits, in each of the Life Offices in India.

PROFITS

Are ascertained at regular intervals of five years, and an entire two-thirds divided amongst Policy-holders on the participating scale. At the Twelfth Annual General Meeting of the Society, held in the Office in London on 24th November 1853, the first Bonus on Indian Policies arising out of the Profits up to 30th June 1853, was declared, and nearly 2 per cent per annum was added to the amount assured by Policies effected on the participating scale. Notwithstanding the very moderate Premiums of this Company, ample additions have been made to the mathematical rates for India to cover contingencies and charges of management, and it is confidently hoped that even larger profits than as above will be returned to the Assured at this Branch.

THE GENERAL ADVANTAGES

Not already noticed, afforded by this Society, may be briefly enumerated as follows.

Policies issued for any amount from Rs. 500 to 80,000.

Policies held by parties on their own lives indisputable on any ground whatever, except fraud or non-payment of the premiums, but subject to forfeiture during the period of twelve months from their date, in the event of the life assured dying by his own hands, or by duelling, or by the hands of justice.

Assignment of Policies recorded without charge, and from the date of such recording, the assurance not subject to forfeiture on any ground whatever, except fraud or non-payment of the due premiums.

Age and interest admitted on the Policies in all cases where satisfactory proof is given.

Assurances may be revived within three months of the date on which the premium became due, on satisfactory proof of health and payment of moderate fine.

Policies on which five annual premiums have been paid, purchased at a fair value.

Two-thirds of the estimated value will be advanced on the security of policies on which, at least, five years' premiums have been paid.

Civil rates charged on the lives of Military officers holding Civil appointments, for the term of such appointments.

Immediate reduction to English rates on the Assured proceeding to Europe or any other part of the world which the Directors may consider equally healthy, there permanently to reside; and if such residence be temporary only, the said reduction to take effect after one year's residence.

The whole of the funds of the Indian Branch invested in Government, Real, and Indian Securities.

Claims paid three months after proof of death, or discounted immediately after such proof, if preferred.

Policies may, at the time of being effected, be made payable in London at the rate of Two Shillings sterling per Company's Rupee.

In addition to the advantages already mentioned the following is a summary of what are more particularly the

ADVANTAGES TO THE EUROPEAN RESIDENTS IN INDIA.

Notwithstanding the material modifications which have been made in the trans of other offices since this Society commenced operations in India, the rates of premium will be found generally lower than those of any other Company, and especially favorable for Military men.

There is no charge for Entry-Money, Policy or Medical Fees, nor any expense whatever beyond the Premium, in obtaining Policies.

Premiums may be paid in one sum, or by yearly, half-yearly, quarterly or monthly payments.

Fifteen days of grace allowed for payment of Premiums, and in the event of death taking place during the currency of these days, the risk binding on the Company, if payment of the Premium be made before the days of grace expire.

In all cases this Company pays the Medical Examiner 10 Rupces for his report.

Persons assured with the Society through the Indian branch, have permission to proceed to and reside in any part of the world, except the West Coast of Africa, without prejudice to the assurance, so long as they continue to pay the original rate of Premium applicable to India, stipulated in their Policies.

This Society transacts generally every description of business involved in the contingencies of European life in India. Rates of Premium for all kinds of Assurance, may be ascertained from either of the Secretaries.

Full particulars as to the Constitution, Conditions, and rates of the Company, together with Forms and Instructions to parties wishing to effect Assurances, will be forwarded free to any part of India, on application being made to either of the Secretaries or to any of the Agents of the Society.

Receipts for Premiums are not considered binding on the Company, unless signed by two Directors.

The Directors of the Indian Branch of this Society, desire to call the particular attention of the Public to their rates of Premium for Insurances for limited periods.

It will be seen that for temporary Assurances, or as security for loans granted for short periods, or for advances for limited terms, Policies can be effected with the "Universal" on equally favorable conditions as to rates, as in any other Society; and the holders of such insurances have the most complete guarantee for the prompt and satisfactory settlement of their claims in the large invested Capital of this Institution, held by the Indian Branch, at present amounting to Half a Million Sterling, or Fifty Lacs of Rupees, which is greatly in excess of the Capital of any other similar Society in India.

The following are examples of these short termrates. CIVIL.

COINAGE-BRITISH INDIAN.

Under the proclamation of the Governor General in Council, dated 11th November 1840, the coins now issued from the Company's Mints are:—

- 1st. The Rupee, to have on the obverse, the head of Her Majesty Victoria, with the words, Victoria Queen. On the reverse, the denomination of the coin in English and Persian in the centre, encircled by a wreath, and around the margin the words, East India Company. The coin to be milled on the edge with a serrated or upright milling. Weight—180 grains Troy, or one tola standard quality—eleven twelfths silver, one twelfth alloy. Value—the same as the Company's rupee of 1835, the Madras, Bombay, Furruckabad, and Surat rupee, are equal to fifteen sixteenths of the late Sicca Rupee.
- 2. Half, and quarter rupees, and two anna pieces, to bear in all respects a due proportion to the rupec.

Money changers, shroffs, and others, are required to take notice of the Provision in Act No. XVII of 1835, against clipping, filing, punching, or otherwise defacing the legal coin. The silver coins issued from the Mints of Government, under Act XVII of 1835, if not cut, clipped, marked, or otherwise wilfully impaired, are legal tender for their full value, until, by gradual wear, they have lost two per cent of their original weight.

The above are the only legal coins now in circulation throughout the whole of the Company's territories, besides the copper coin, namely, the half anna copper coin, weighing 200 grains: the quarter anna weighing 100 grains, and the one pie, weighing 33 and 1-3d grains.

Silver is the legal currency of the country. Gold was also a legal tender at 15 rupees to a Gold Mohur: but by an order of the Government of India dated 22d December 1852, gold coins were forbidden to be received in the Government Treasuries. Copper coins are only a legal tender to the extent of one rupee.

The following table exhibits the scheme of the British India monetary system:—

Bank Notes of the Bank of Madras for Company's Rupees, in even sums to any amount, not less than 10 Rupees are in circulation, and may be received at the Government Treasuries in payment of Revenue.

15 Rupees—1 Gold Mohur. 100,000 Rupees—1 Lakh.

100 Lakhs.=1 Crore, equal in value to 1 million sterling.

The Parah of 5 Marcals (used for Chunam, &c.) is a square measure, the sides 20 inches and depth 10, containing 4000 cubic inches: and the "Garce" is 400 Marcals of 185-2 cubic feet, or 5-152 tons of water.

The Standard Madras Puddee or "Measure" is generally a Cylinder, 4 inches in diameter and 8 inches deep, containing 100 cubic inches, as in the above Table.

SALT.

Salt continues to be sold in the Madras Presidency by the Garce and Marcal. But the accounts are kept in Indian Maunds: 120 Maunds being reckoned to a Garce.

At 120 Rupees a Garce, one measure of Salt costs 7 2-10th Pice, and 4 Marcal, Annas 4 P. 9-6.

^{*} The average weight of the Gold Star Pagodas is 52'4 grains. So that 10 such Pagodas weigh 524 grains, which is 23 grains less than an ounce and a quarter Avoirdupois.

An Acre is 4840 square yards. And 640 Acres or 484 Cawnies=1 square mile.

In some districts the Cawnie is divided into Annas or sixteenths, each Anna being 3900 square feet or a square of 60 feet each way.

 $[\]dagger$ This is the distance that would be walked in an $\,$ average ghurri of 24 minutes at the rate of 3 and 3 quarter English miles per hour.

If the application is not made by the plaintiff, in person, the Agent shall file in writing the particulars of the demand, signed by the Plaintiff.
- 2. Where an Infant applies to take out Summons for any cause of action (other than for wages or piece work, or for work as a servant) he must procure the attendance

of a next friend at the Office of the Clerk, at the time of taking out the Summons, and no Summons shall be issued, until the next friend has undertaken, in the form in the Schedule, to be responsible for costs, and on entering into such undertaking, he shall be liable in the same manner, and to the same extent, as if he were a party in an ordinary suit, and the cause shall proceed in the name of the infant by such next friend, and such undertaking shall be filed by the Clerk, and no order of the Court shall be necessary for the appointment of such next friend. If the Plaintiff fail in, or discontinue his suit, and shall not pay the amount of costs awarded by the Court, to be paid by him to the Defendant, such proceedings may be taken for the recovery of such amount from the next friend, as for the recovery of any debt, or damage, ordered to be paid by the same Court.

- 3. When an Infant Defendant appears at the hearing, and names a person willing to act as guardian, and who then assents so to act, such person shall be appointed guardian accordingly, but if the Defendant do not name a guardian, the Judge may appoint any person in Court willing to become a guardian, or in default of such person the Judge shall appoint the Clerk of the Court to be guardian, and the cause shall proceed thereupon, as if another person had been appointed guardian, but no responsibility shall attach to any person so appointed guardian.
- 4. Claims by husbands in their own right, may be joined with claims in respect of which the wife must be joined as a party.

- 6. Every Summons to appear to a suit or action, shall be served by one of the Bailiffs of the Court, four clear days before the holding of the Court at which the Defendant shall be summoned to attend, and in case the Bailiff shall not be able to serve the same within the time limited for that purpose, the Plaintiff on satisfying the Court that he has used due diligence in pointing out the Defendant, or his place of abode or business to the Bailiff, may by order of the Court, take out without commission fee, successive Summons, returnable at such time as the Court may order, in continuation of, and founded upon the first Summons, and the first Summons shall be deemed the commencement of the suit.
- 7. On applications to recover possession of tenements in pursuance of the Section 91 of Act 9 of 1850, the commission fee shall be calculed and the yearly rent or value of the premises sought to be recovered, but in cases in which no contract to pay rent is proved, or in which the action is brought to recover possession against trespasses, the commission fee shall be calculated, and taken, on the actual value of the premises, which value in case of dispute the Court shall determine.
- 8. The service of a summons to appear to a suit or action, shall be, by delivering a sealed copy thereof to the Defendant, or to such person, at the place of abode or place of business of the Defendant, as shall afford reasonable ground for presuming that the service thereof will come to his knowledge, and in all cases the Plaintiff or his Agent shall apply to the Bailiff, and shall accompany him, to point out the Defendant or his place of abode or place of business.
- 9. BOAT AND CATTAMARAN REGULATIONS. &c.

RULES AND REGULATIONS SUBSIDIARY TO ACT NO. IV OF 1842, "FOR THE BETTER MANAGEMENT OF BOATS AND CATTAMARANS IN THE MADRAS ROADS, AND FOR THE AMENDMENT OF CERTAIN HARBOUR REGULATIONS," AND TO THE RULE, ORDINANCE AND REGULATION COMMONLY CALLED THE MARINE POLICE REGULATIONS.

The above mentioned Act is given in the Madras Almanac for 1843, page 390.—Complier.]

- 1. It is hereby notified that beneath the Master Attendant's Office on the Beach, is an Office where Boats and Cattamarans can be procured, and where Registers of all Licensed Boats, Cattamarans, and their respective Owners and Crews, are kept, and are open to public inspection, and in which copies of the Act No. IV of 1842, for the better management of the Boats and Cattamarans, and for the amendment of certain Harbour Regulations, are suspended.
- 2. If a Boat or Cattamaran is required for any extraordinary service to a Ship or Vessel, either at anchor or under way beyond the limits of the Port, then the amount of hire which may be demanded may be referred to the Master Attendant or his Deputy for adjustment—N. B.—For the purposes of the foregoing Rule, a Ship at anchor in, or beyond 10 fathoms, and a Ship at any distance under sail beyond that depth of soundings in any line of bearing from the Master Attendant's Flag Staff shall be considered as without the limits of this Fort.
- 3. In cases of great emergency, by night or by day, the Owners of Boats and Cattamarans kept for the purpose of being let out on hire, shall aid and assist the Master Attendant and his Deputy by every means in their power, and shall induce the Boatmen and Cattamaranmen to perform the service required, and when great personal risk shall have been incurred, or arduous services performed, and those on whose account such duties are undertaken refuse to remunerate the Crew for the same, the Master Attendant will bring the merits of the case to the notice of Government.
- 4. The Boat and Cattamaranmen are not to be employed on board any Ship or Vessel in these Roads: any wilful breach of this regulation will be considered desertion and neglect of duty, and will render the persons offending liable to the punishments provided for such desertion and neglect by Section 15 of Act No. IV of 1842.
- 5. All Owners of Boats and Cattamarans, and all other persons, either belonging to any Ship or Vessel in the Madras Roads, or to the Boats and Cattamarans to be let on hire, are cautioned against the transhipment of any goods or passengers or ballast without first obtaining a permit from the Collector of Sea Customs or his Deputy, any person or persons found guilty of any such transhipment being liable to the penalties provided in Section 23 of the Marine Police Regulations.
- 6. All Owners of Boats and Cattamarans must make known to their respective Crews the full intent and purport of the several port signals, which, as occasion may require, will be displayed at the Master Attendant's Flag Staff, especially the recall signal for all Boats and Cattamarans, which is a white pendant with a red ball; and when this signal is hoisted, all Boats and Cattamarans must immediately repair to the shore.

- 7. The Crews of Boats and Cattamarans kept for the purpose of being let on hire shall not be changed or transferred from one Boat or Cattamaran to another, without the sanction of the Master Attendant.
- 8. The Accommodation Boats shall be kept in the same good order as heretofore, and are always to be provided each with an awning, and with seats and cushions, and in case they shall not, in the judgment of the Master Attendant, be kept in proper order, the Owners shall be deprived of their Licenses until the came shall be put in proper order for the reception of Passengers.
- 9. All Owners of Boats and Cattamarans are to make known to their respective Crews, that the Officer or Peon in charge of the Police or Revenue Boat, is authorized and empowered by Section XIX of Act No. IV of 1842, to stop, search, and detain any Boat and Cattamaran plying to and from the Ships and Vessels in the Roads, and that all Boatmen and Cattamaranmen who may impend or obstruct any Police Officers in the execution of his or their duty, will render themselves amenable to the penalties provided for in Section XIX of the above recited Act.
- 10. Should any difference or dispute arise between the Owner or Owners of Boats and Cattamarans let on hire, and any person or persons hiring the same, as to the amount of hire for services performed, the party or parties may refer the case for adjustment to the Master Attendant or his Deputy, in which case each party shall sign a paper agreeing to abide by the decision of the said Master Attendant or his Deputy, and such paper shall be retained in the Office of the said Master Attendant.

BATTA REGULATIONS FOR THE ROYAL NAVY.

REGULATIONS RESPECTING BATTA AND OTHER ALLOWANCES MADE BY THE EAST INDIA COMPANY TO OFFICERS OF THE ROYAL NAVY SERVING ON THE EAST INDIA STATION.

Despatch from the Honorable the Court of Directors to the Government of Fort St. George in the Marine Department, dated 10th March, No. 3 of 1852.

Para. 1. Having received frequent representations as to the operation of the Regulations respecting Batta and other allowances made by the East India Company to Officers of the Royal Navy serving on the East India Station, we have thought proper to revise those Regulations, and we direct that, in lieu of them, the following be henceforth adopted. The Batta payable shall be according to the subjoined scale, viz.:

To the Commander-in-Chief, not being below the rank of Rear Admiral, at the rate of	Rs.	30,000	per annum.
To a Commodore succeeding to the Chief Command by the death, resignation, or coming away of the Commander-in-Chief at the rate of	,,	15,000	,,
To a Captain, succeeding to the Chief Command by the death, resignation, or coming away of the Commander-in-Chief at the rate of	"	10,000	**
To the Secretary to the Commander-in-Chief at the rate of	,,	1,200	,,
To the Second in Command, not being below the rank of Commodore at the rate of	٠,	10,000	"
To the Secretary of the Second in Command at the rate of	,,	800	,,
To every Captain at the rate of	,,	5,000	,,
To every Commander at the rate of	,,	2,500	,,
To a Lieutenant Commanding a Vessel of War, but not a Transport at the rate of	,,	850	,,
To the Ward Room, or Lieutenant's Mess of a First, Second, or Third Rate Ship at the rate of	,,	2,500	,,
To the do. do. of a Fourth Rate Ship at the rate of	,,	2,000	,,
To the do. do. of a Fifth Rate Ship at the rate of	,,	1,700	,,
To the do. do. of a Sixth Rate Ship at the rate of	,,	1,250	,,
To the do. do. of a Sloop or other Vessel commanded by a Commander at the rate of	,,	850	,,

^{2.} The rate of a Ship is to be determined according to the classification inserted in the Navy List, published by authority of the Board of Admiralty.

Norte.—The allowance is never to be issued to two Officers at the same time.

To each Captain at the rate of ...

3. Payment of Batta to the Naval Commanderin-Chief shall commence from the date of his arrival at the first Port within the limits of his command, and shall cease on his departure from the last Port within

1,000

those limits, and during the same period the Secretary and the Flag Lieutenant of the Commander-in-Chief, shall also be entitled to Batta.

- 4. Batta shall not however be paid to any other Officers except while serving in that part of the Indian seas (or in the Gulfs or Bays communicating therewith) included within the 10th parallel of South Latitude, and the 105th degree of East Longitude; payment commencing on the arrival of the Ship on board which they may be serving, at the first Port within the said limits, and ceasing on her departure from the last Port within the same.
- 5. Further, in supersession of our orders of the 11th April 1848 addressed to your Presidency, and of all other orders hitherto issued relative to the accommodation of Officers of Her Majesty's Navy, when required to be on shore upon the public service, we direct that allowances in lieu of House rent and accommodation on shore, be paid to the Officers specified according to the subjoined scale, viz.:

To the Naval Commander-in-Chief, not being below the rank of Rear Admiral at the rate of ... Rs. 3,500 per annum.

To the Second in Command, not being below the rank of Commodore at the rate of ... , 2,500 ,,

Commodore or Captain succeeding to the Chief Command by the death, resignation, or coming away of the Commander-in-Chief at the rate of ... , 2,500 ...

- 6. These allowances being payable to the Officers in question whether actually resident on shore or not, for any period during which, according to the regulations laid down in this Despatch they may be entitled to Batta. These allowances being thus rendered continuous are intended to provide for the accommodation on shore of Naval Officers of superior rank in whatever part of the Company's territories they may happen to be; and as it has hitherto been customary to issue payments of Batta to Naval Officers at Madras only, it will be more convenient if the payment of allowances in lieu of House rent likewise, be henceforth paid only at the same place.
- 7. In accordance with our letter to the Government of Madras of 21st May 1844, the practice of requiring from Agents drawing Batta for Naval Officers, to give security for its refund, if overdrawn, must be carefully continued.
- 8. We shall communicate a copy of this Despatch to the Lords Commissioners of the Admiralty.

The foregoing Rules were ordered to take effect from the 10th March 1852, the date of the Honorable Court's Despatch, agreeably to the instructions contained in para. 9 of their Despatch dated 22d June, No. 10, of 1853.

DECISION ON THE CLAIMS OF VICE ADMIRAL SIR F. P——— AND REAR ADMIRAL SIR J. S——— TO THE BATTA OF NAVAL COMMANDER-IN-CHIEF.

Extract from the Minutes of Consultation, Marine Department, dated 7th October 1854. No. 225.

In Despatch, Marine Department, dated 10th March 1852, No. 3.

Batta to the Naval Commander-in-Chief shall commence from the date of his arrival at the first Port within the limits of his command and shall cease on his departure from the last Port within those limits," and in a marginal note it is explained, "the allowance is never to be issued to two officers at the same time."

- 2. It is certified by Sir F. P.—— that he hauled down his Flag as Commander-in-Chief on the East India and China Station and resigned the command of Her Majesty's Ships and Vessels to Rear Admiral Sir J. S—— on board the "Barracouta" at Point de Galle on the 15th April 1854. While from a Memo. issued by the latter Officer on board the "Rapid" at Singapore, dated 5th April 1854, it would appear that pursuant to an order of the Lords Commissioners of the Admiralty of the 21st February, he announced to the Captains and other Officers of the Naval Squadron that he had assumed the Charge of the Station on the 27th March 1854, the date of his leaving Point Galle to proceed to Hongkong.
- 3. Though it appears it was not until the 5th April last that Rear Admiral Sir J. S—— actually hoisted his Flag on the "Rapid" at Singapore and issued his "General Memorandum" to the Officers of the Squadron, announcing his having assumed the command on the 27th of the previous month under special orders, it is clear from the terms of the order of the Lords Commissioners of the Admiralty that he was fully authorized, in the event of a certain contingency occurring, to consider kimself as Commander-in-Chief on the East India and China Station from the time of his departure from Point de Galle (the first Port within the limits of his Command) which was on the 27th March 1854. It seems to the Government therefore that Sir F. P—— was virtually superseded in the Command from this latter date, as he could no longer be regarded as Commander-in-Chief while there was another so recognized on the Station under competent authority, and the Batta payable by the East India Company should have accordingly ceased from that date.
- 4. This view of the claims of Sir F. P—— and Sir J. S—— is supported by the decision of the Honorable Court communicated in their Marine Despatch of the 22d March 1842, No. 3 paras. 7 and 8. Though the circumstances of Sir G. B—— and Rear Admiral E.'s cases are somewhat different, yet the principle on which the decision was founded is the same. Sir G. B—— claimed Batta as Commander-in-Chief from the 7th June 1840, the date of the Rear Admiral E.'s arrival at Mew Island in the Straits of Sunda, to the 6th July following the day on which he was actually superseded by Rear Admiral E. on his arrival on the coast of China. It was ruled that Admiral E.'s right to the allowance commenced from the date of his arrival at Mew Island, and that of Sir J. B—— necessarily ceased at the same moment, though this Officer had actually performed the functions of Commander-in-Chief in the interval and had previously drawn Batta as such.
- 5. The Civil Auditor will adjust the allowances of Sir F. P—— and Sir J. S—— according to the view of their respective claims now communicated.

- Extract from a Despatch from the Honorable the Court of Directors, addressed to the Government of Fort St. George, dated 30th April No. 8 of 1856, Marine Department.
- Para. 11. The Batta in dispute was for the interval between 27th March 1854, when Sir J. S———— assumed the Command-in-Chief on the East Indian Station under special instructions from the Admiralty and 15th April 1854, when Sir F. P———— formally resigned the Command and hauled down his Flag.
- 12. You correctly construed the Regulations established by us in anticipation of such a case by deciding the question in favor of Sir J. S———.

GRANT OF BATTA TO HER MAJESTY'S SHIPS EMPLOYED OUT OF THE PRESCRIBED LIMITS.

Resolutions of Government, Marine Department, 30th January 1855, No. 17, 27th February 1855, No. 39, 26th September 1855, No. 214 and 5th July 1856, No. 188.

In the case of Her Majesty's Ships employed out of the prescribed limits on service for the protection of Commerce and British interests in the Straits of Singapore, &c. the payment of the usual Batta has been authorized for such period as the Vessels were so employed.

RATE OF BATTA TO BE ALLOWED TO A "MASTER IN COMMAND."

Despatch from the Honorable Court of Directors to Government of Fort St. George, Marine Department, dated 19th September, No. 14 of 1855.

- 1. In reply to your letter No. 6, dated 6th July last, enquiring at what rate Batta is to be allowed to a Master in command of one of Her Majesty's Ships on the East Indian Station, no provision for such a case being made in the Revised Batta Regulations of March 1852, we direct that the allowance to a "Master in command" of a Vessel of War (not a transport) be the same as that specified in the Regulations for a "Lieutenant in command," viz. at the rate of Rs. 850 per annum.
- 2. The claim of Mr. J. R.——, Master Commanding H. M.'s Schooner "Saracen," will be settled in accordance with this Rule.

RESPECTING PAYMENTS OF THE BATTA OF A "COMMANDER" TO LIEUTENANTS IN COMMAND OF ONE OR MORE HIRED TRANSPORTS.

Despatch from the Honorable Court of Directors in the Marine Department, dated 29th August, No. 11 of 1849.

- 1. Your letter No. 3 of the 13th February last, transmitting a Memorial from Lieutenant Densten, R. N., has brought to our notice a larger question than the one involved in the particular case of that Officer.
- 2. Lieutenant Densten seeks to be exempted from refunding the sum of Rs. 3,204, batta awarded to him in the first instance, on the supposition that he had been in command of a hired transport, but of which reimbursement was subsequently demanded in the discovery that he had been employed as Agent for transports, not as a Commander of a Transport, in the War with China.
- 3. It appears that ever since the year 1808, it has been customary to pay Batta to Lieutenants of the Royal Navy Commanding a Division of Transports at the rate assigned in our Orders of December 1786, for Officers of the rank of

- "Commander," but the practice seems to have originated entirely in an opinion expressed by Rear Admiral Sir Edward Pellew, that Lieutenants so situated were entitled to the Batta in question.
- 4. It further appears that during the last ten years Batta at the same rate has also been paid to Lieutenants Commanding single hired armed Transports, but for such payments the only authority cited is a passage in our Despatch, dated 30th January 1839, wherein, in reply to a reference from your Government on the question, we sanctioned "the payment to Lieutenants while in command "of any of H. M's Vossels of War, of the same amount of Batta as would be "paid to Officers of the rank of Commander in the same situation."
- 5. Neither in these words, nor in the question you put to us, was any mention made of Officers Commanding Transports. By Her Majesty's Vessels of War were meant only Vessels actually belonging to Her Majesty's Fleet, and whose names appear in the lists of the Royal Navy; certainly not private Vessels temporarily hired by the Crown for the conveyance of Troops or Stores, even though, for the purpose of defence they may be armed with a certain number of Guns.
- 6. It is obvious then that our despatch of January 1839 did not authorize the grant of Batta to Lieutenants commanding single hired transports, nor are Lieutenants commanding divisions of Transports entitled to such an allowance, which is not authorized either by the original Orders of December 1786, or by our Despatch just mentioned.
- 7. All payments of the Batta of a "Commander" to Lieutenants in Command of one or more transports have hitherto been irregular and must be discontinued, but we shall not require the refund of any such payments as may have been made before the receipt of this despatch. The utmost we can allow in future to Lieutenants of the Royal Navy attached to the Squadron serving in the East Indies who may be placed in such situations, is the proportion of Batta to which they would be entitled as Members of a Lieutenant's Mess in a Ship of War; and as this proportion would vary in different Ships a Medium of the several rates of Batta payable to a Lieutenant in Ships of the several ratings may be calculated and taken as the rate applicable to a Lieutenant in command of one or more transports. It is to be understood that the grant of any allowance of Batta in respect of the Command of Transports is to be confined to Officers actually attached to the squadron on the East India Station.
- 8. With regard to the particular case of Lieutenant Densten, it is obvious that the Batta which he has been called upon to refund ought never to have been paid to him; as however the money was actually awarded to him and has moreover been expended in the belief that the award was irrevocable, we shall not insist upon his refunding the amount. The order for retrenchment may therefore be withdrawn.

LEGISLATIVE COUNCIL.

The 20th September 1856.

The following Act, passed by the Legislative Council, received the assent of the Right Honorable the Governor General on the 19th September 1856, and is hereby promulgated for general information:—

Аст No. XIX ог 1856.

An Act to enable the Governor General of India in Council to suspend the operation of certain Acts relating to the Emigration of Native Laborers.

Whereas, by several Acts passed by the Governor General of India in Council, the emigration of Native Inhabitants of India to certain British Colonies is authorized, subject to certain regulations for the protection of such Emigrants; and Governor General of India in Council should

have power, from time to time, to suspend any of the said Acts so far as they relate to emigration to any Colony or place in which the said Governor General in Council shall have reason to believe that proper measures have not been taken for the protection of the Emigrants immediately upon their arrival thereat or during their residence therein, or for their safe return at or near to the time at which the Government of such Colony or place was bound to find them a return passage to India: It is enacted as follows:-

Whenever the Governor General of India in Council shall have reason

Governor General in Council empowered in certain cases to prohibit by notification the emigration of Native laborers to any Colony to which emigration is allowed by law.

II. After the notification shall have been so published, the operation of any Act by which the emigration of Natives of India to such Colony or place is allowed, shall be suspended from the day specified in the notification, so far as such Act authorizes emigration of Natives of India to such Colony or place; but such suspension shall not affect any act done, offence committed, or proceedings commenced before such suspension.

III. During the time of such suspension, any Act in force for the time being which prohibits the emigra-tion of Natives of India, or the aiding or abetting of such emigration, or the making of any contract for labor to be performed by any Native of India out of the territories of the East India Company, shall take effect and be in force, so far as relates to the Colony or place specified in the notification, in the same manner and to the same extent as if the Act suspended had never been passed.

Revocation of suspension.

their safe return to India, and for providing return passages to India for such Emigrants at or near to the time at which they are entitled to such return passages, it shall be lawful for the said Governor General in Council to notify in the Calcutta Gazette that the emigration of Natives of India to such t'olony shall be allowed from a day to be specified in such notification; and thereupon any Act which may have been suspended by virtue of this Act shall, from the day so specified, be revived and have the same force and effect as if it had not been suspended, except as to acts done, offences committed, and proceedings commenced during the time of such suspension.

The first band of Emigrants, consisting of about 50 young men, chiefly of East Indian descent, left Madras for Sydney, under the protection of this Society, in the Ship "William Prowse," in December 1852: and the result of this partial experiment having proved highly satisfactory to the Colonists, as well as to the Emigrants themselves; the Society with the aid of the Madras and Colonial Governments, embarked 100 more with 24 Compositors to the same destination on the 30th August 1854, per Ship "Palmyra." These emigrants were also all provided with suitable situations. But from despatches since then received from the Government of New South Wales the Society have for the present determined to discontinue active operations.

RULES FOR CHAPLAINS AND ASSISTANT CHAPLAINS.

RULES FOR THE GRANT OF LEAVE TO CHAPLAINS AND ASSISTANT CHAPLAINS.

(From New Furlough Regulations.)

Section XXXI. Chaplains and Assistant Chaplains may take Furlough on Private Affairs and on Medical Certificate, also privilege leave and leave for short periods on Private Affairs and on Medical Certificate in or out of India, on the same terms and conditions as Military Officers, with the following modifications:—

1st.—Chaplains being allowed to retire after twenty years' service, the period of Furlough on Private Affairs, is in their case limited to the present term of three years. The Furlough may however either be taken in one period, or be divided into two periods, whether of eighteen months each, or of two years and one year, respectively, and if divided, the first Furlough may be taken, as at present, after seven years' residence, and the second Furlough after a further residence, of ten years in India. As respects Chaplains and Assistant Chaplains appointed before the 11th January 1854, when the period of Service was only eighteen years, their second Furlough, if they should exercise the option of taking Furlough in two periods, will be available after a second residence in India for a term of eight years.

2ndly.—No Furlough or Leave of Absence, whether on Private Affairs or on Sick Cortificate, taken in Europe or elsewhere out of India, in excess of three years, will be allowed to count as Service in India in the twenty years which qualifies Chaplains for their Retiring Pensions.

Section XXXII The Furlough Pay of Chaplains will remain as at present. With regard to their allowance during Sick Leave to any place out of India, they shall receive salary (but at a rate not exceeding £600 per annum) for the first six months of absence, and, for the remaining twelve months, an allowance equal to the Furlough Pay of their standing. If the leave be extended, an allowance equal to Furlough Pay may be drawn for a further period of eighteen months.

Secy. to the Govt. of India.

By order of the Right Honorable the Governor in Council.

MODIFICATIONS OF AND CONSTRUCTIONS UPON THE RULES FOR REGULATING THE FURLOUGHS AND LEAVES OF ABSENCE OF CHAPLAINS AND ASSISTANT CHAPLAINS.

Extract from a Despatch from the Honorable the Court of Directors addressed to the Government of India in the Financial Department, dated 5th March, No. 21 of 1856.

FORT ST. GEORGE, May 20, 1856.

The following Notification by the Government of India is republished for general information;

FORT WILLIAM, FINANCIAL DEPARTMENT, the 29th April 1856.

NOTIFICATION.—The Right Honorable the Governor General in Council is pleased to direct that the following paras. of a Financial Despatch from the Honorable the Court of Directors, No. 21 of 1856, dated the 5th March, having reference to two Memorials from certain Chaplains and Assistant Chaplains on the Bengal and Bombay Establishments, regarding the provisions of the New Absence Rules and the present system of promotion and retirement of Chaplains, be published for general information :-

Letter from, dated 80th . lugust 1855, No. 115.

Forward a Memorial from the Chaplains and Assistant Chaplains on the Bombay Establishment, regarding the New Absentee Rules.

Letter from, dated 30th August 1855, No. 116.

Forward a Memorial from certain Chaplains and Assistant Chaplains on the Ben-gal Establishment on the same subject, and also with reference to the system of promotion and retirement of ('haplains

Para. 2. The requests which are submitted by the Memorialists have reference principally to the provisions of the New Absentee Rules, but the Memorial from Bengal contains also certain specific requests in regard to the present system of promotion and retirement of Chaplains. The Rules under which the furloughs and leaves of absence of our Chaplains and Assistant Chaplains are for the future to be regulated, occupied our serious attention when the general question was before us, and we are not prepared now to sanction their revision.

- The construction which was placed upon the Rules by your Government Resolution of the 10th February 1855 has been somewhat modified by us (vide Financial Despatch, dated 5th September 1855. No. 78,) and you are also aware that we have determined that the New Rules shall not have retrospective effect so as to deprive ('haplains of the privilege of counting as Service leave already taken under the Old Rules. The knowledge that these modifications had been made was not in the possession of the Memorialists at the time their Memorials were framed
- 4. Adverting, however, to the allowances which were drawn by Chaplains and Assistant Chaplains under the Old Rules, when absent in India under Medical certificate, we have resolved to grant to them, during absence under such certificate only, within the limit of one year, their full salaries, subject to a reduction of one-third for the whole term of regulated absence, save and except that if the salary be not more than Rupees 500 per month no deduction shall be made, and if it be only so much more than Rupees 500 that the prescribed deduction of one-third would reduce the allowance below that sum, only the excess beyond Rupees 500 shall be deducted.
- With reference, moreover, to the "privilege" leave to Chaplains, which, in accordance with the Rule of the Military Service, may be taken for one month in each six months, we are willing to comply with the request of the Memorialists, that such leave may be allowed to accumulate up to three months as a maximum period. Chaplains will thus be enabled to take three months' leave without deduction of allowances after eighteen months' continuous duty, provided the convenience of the Public Service will allow of the grant.

By order of the Right Honorable the Governor General of India in Council.

(Signed) C. Hugh Lushington,

Secy. to the Govt. of India.

By order of the Right Honorable the Governor in Council.

. T. PYCROFT, Chief Secretary.

Extract from a Despatch from the Honorable the Court of Directors addressed to the Government of Fort St. George, dated 17th September, No. 24 of 1856.

Letter from, in Ecclesiastical Department, dated 6th May 1856, No. 6.

Forwarded a further Memorial from Chaplains and Assistant Chaplains on the subject of the new Furlough Regulations.

Para. 11. The requests preferred in this Memorial may be summed up under three heads; 1st. That the option of continuing under the Old Rules may be allowed to Chaplains. 2d. That the present rate of Furlough pay may be increased, and 3d. That the question regarding the terms on which leave may be taken in India by Chaplains, may be reconsidered.

- In our Despatch in this Department to the Government of India, dated the 5th March 1856, we intimated that we had resolved to grant to Chaplains and Assistant Chaplains during absence in India under Medical Certificate, within the limit of one year, their full salaries subject to a reduction of one third for the whole term of regulated absence, save and except that if the salary be not more than Rupees 500 per month no deduction shall be made; and if it be only so much more than Rupees 500 that the prescribed deduction of one third would reduce the allowance below that sum, only the excess beyond Rupees 500 shall be deducted.
- 13. We have also determined that Chaplains and Assistant Chaplains may be allowed to accumulate their "privilege" leave up to three months as a maximum period. They will thus be enabled, provided the convenience of the Public Service will allow of it, to take three months' leave without deduction of salary, after eighteen months' continuous duty.
- 14. We must adhere to our decision withholding from Chaplains the option of adhering to the old Civil Absentee Rules, and we cannot accede to the request of the Memorialists for an increase of the established rate of Furlough pay.

2. We have already apprized you in para 4 of our Despatch, dated 2d May 1855, No. 34, that you have correctly interpreted our intention in regard to the conditions of Chaplains' leave, whether taken in India or beyond Sea.

With respect to the allowances of Chaplains and Assistant Chaplains whilst absent on leave in India for short periods, either of

private affairs or medical certificate we consider that they should be treated as Staff Officers, and as the latter receive the pay and allowances of their regimental rank, together with half net staff pay, we approve of your suggestion that Chaplains be granted during such short absences, furlough pay, and, in addition thereto, half the difference between their full pay and their furlough pay.

G. hension into which you have fallen with regard to the construction of Section III of the Military Fur-lough Rules. You consider that this Section provides for a retrospective computation of the time of service for retirement in cases of furlough and leave of absence beyond Sea only, but this is an error. The wording of the Rule, to which we would

draw your particular attention, is altogether opposed to such a construction :-"To those Officers who adopt them, the new Regulations will apply retros-pectively in respect of furlough and leave of absence beyond Sea and in com-"puting their time of service for retirement, so that their furloughs or leaves of "absence, whether under the Old or the New Rules, and whether on private "affairs or on sick certificate, within or beyond India, will count for service to "the authorized extent only, in computing the time for retirement on full "pay."

With regard, however, to Chaplains and Assistant Chaplains, as the option of abiding by the old Rules Military Staff Officers may, however, retain the advantages of the old Rules by giving up their staff appointments is withheld from them, in common with Military Staff Officers,* we shall not, in their case, require re-

trospective application of the Rule in respect of leave taken by them in India up to the date of the promulgation of the new Rules; but any such leave taken in future will count as part of the maximum period of three years which Chaplains are permitted to reckon as Indian Service for the Retiring Pension. It is to be understood that the leave ordinarily called "Privilege" leave is not included in the above computation

TRAVELLING ALLOWANCE TO ECCLESIASTICAL OFFICERS.

NOTIFICATION.

FORT ST. GEORGE, 18th February 1856.

By direction of the Right Honorable the Governor in Council and in accordance with instructions received from the Government of India, the following Rule declaring the travelling allowance to be made to Ecclesiastical Officers will in future be observed.

1. On joining a station in the interior after arrival in India, a Chaplain or Assistant Chaplain will be allowed the same rate of travelling charges, and be subject to the same Rules in respect to joining his station as a Civil Servant; on any subsequent transfer from one station to another, the same allowance will be made if the transfer take place not at the desire of the Chaplain removed, but by order of Government.

ECCLESIASTICAL DEPARTMENT.

NOTICE.

The Right Honorable the Governor in Council is pleased to direct the publication of the following;

No. 1219.

Extract from a Despatch from the Honorable the Court of Directors addressed to the Government of India in the Financial Department, No. 113, of 1855, dated the 28th December.

Letter from, dated 26th July 1855, No. 99. Forward Copy of Correspondence and with reference thereto request definite instructions as to the exact period when in the case of Chaplains their retiring Pensions can be claimed.

Para, 2. The period of service required from Chaplains and Assistant Chaplains is 18 years for those appointed before the 11th January 1854, and 20 years for those appointed subsequently, including in each case three

years for a furlough. The period of Indian residence is therefore in the one case fifteen, and in the other seventeen years.

3. If a Chaplain or Assistant Chaplain should not avail himself of the privilege of furlough, he will be permitted to retire on the regulated pension after the completion of the required period of Indian residence.

T. Pycroft, Chief Secretary.

A PRECIS OF THE NEW ABSENTER AND FURLOUGH RULES AS AFFECTING THE POSITION OF CHAPLAINS AND ASSISTANT CHAPLAINS.

1. Chaplains and Assistant Chaplains may take Furlough on Private Aftairs and on Medical Certificate, also short leave on Private Affairs, on the same terms and conditions as Military Officers, with the following modifications:-

years' service, the period of Furlough on Private Affairs is in their case limited to the present term of three years. The Furlough may however either be taken in one period, or be divided into two periods, whether of eighteen months each, or of two years and one year respectively, and if divided, the first Furlough may be taken as at present after seven years' residence, and the second Furlough after a further residence of ten years in India. As respects Chaplains and Assistant Chaplains appointed before the 11th January 1854, when the period of service was only eighteen years, their second Furlough, if they

should exercise the option of taking Furlough in two periods, will be available after a second residence in India for a term of eight years.

No Furlough or leave of absence, whether on Private affairs or on Sick Certificate, taken in Europe or elsewhere out of India, in excess of three years, will be allowed to count as service in India in the twenty years which qualifies Chaplains for their Retiring Pensions.

No 663.

Extract from the Proceedings of the Most Noble the Governor General of India in Council, in the Financial Department, under date the 10th February 1855.

Read an Endorsement from the Home Department, No. 94, dated the 18th Ultimo, transferring for consideration and orders a Despatch from the Government of Fort Saint George, No. 1, dated the 9th Idem with enclosure, submiting with reference to the new Civil Absentee Rules, certain questions from the Venerable the Archdeacon of Madras—connected with the Chaplains of the Indian Establishments.

With reference to the 1st of the points submitted by the Archdeacon, viz.

RESOLUTION. for what periods leave of absence can be obtained by Military Officers, and consequently by Chaplains, within the limits of India, both on medidal certificate and on private affairs without loss of allowances, and should they, in such cases be subject to any deductions from their salary, in what proportions and under what rules those deductions are to be made, the Most Noble the Governor Ge-

neral in Council observes that no leave either on medical certificate or on private affairs can be taken without loss of allowances with exception to the ordinary indulgence of one month's leave in 6 months; and that in all other cases Chaplains and Assistant Chaplains absent on leave in India for the prescribed period on private affairs or on medical certificate will, as in the case of the superior class of Warrant Officers, for whom no specific rate

Copy herewith for of net Indian Pay is prescribed, be allowed Furlough Pay, and in addition thereto half the difference between their full or Indian Pay and Furlough Pay, subject to the orders of the Honorable Court as prescribed in the Resolution of the 26th Ultimo.

With regard to the 2d point, whether, with reference to the 2d modification of the Military Rules to which Chaplains are now made subject, leave of absence in India, on medical certificate or on private affairs, in addition to 3 years' furlough will or will not "be allowed to count as service" in the period "which qualifies Chaplains for their retiring pensions," and if it will not so count, whether this rule has retrospective effect, His Lordship in Council considers that the rule which applies to Military Officers will also be applicable to Chaplains and Assistant Chaplains; and as it was ruled, on the 19th Ultimo, that Chaplains must

ruled, on the 19th Ultimo, that Chaplains must come under the new Military Furlough Rules with the exceptions specified in the Honorable Court's Despatch, No. 2, of the 14th June 1854, it would seem clear from

Rule 30 of the new Military Rules and the 2d part of Section XXXII of the Civil Rules, that no leave of absence taken in Europe or elsewhere, in or out of India, or whether the leave be on sick certificate or on private affairs, beyond 3 years' furlough; (with exception to the leave allowed under Rule 29 of the new Military Rules and the ordinary indulgence leave) can be allowed to count as service for the future, except possibly in the case of a Chaplain who has served 30 years, but it is not clear that this rule is intended to have retrospective effect, inasmuch as Rule 3 of the Military Rules is made to apply retrospectively to cases of furlough and leave of absence beyond Sea only, and the question will therefore be referred to the Honorable Court for decision.

With respect to the 3d point whether the new rules are obligatory on Chaplains now in the service, or whether the choice of continuing under the former regulations is conceded to them as to Military Officers, His Lordship in Council would direct the attention of the Government of Madras to the 2d para. of this Resolution, and would state that all Chaplains must be brought under the new Military Rules without the option of availing themselves of leave under the old Military Regulations.

With respect to other questions, viz. the amount of salary to which the Reverend F. G. Lugard, Chaplain of Vepery, will be entitled for the first 6 months on proceeding to England on medical certificate, and whether he can retain his appointment during absence from India and if so for what period, His Lordship in Council observes that para. 2d of the Honorable Court's Despatch of the 14th June last, places Chaplains essentially on the footing of Military Officers in staff employ (who alone draw a moiety of their Staff salary during the first 6 months of their absence on sick leave out of India) and as Military Officers holding Staff appointments are allowed to be absent under Rule 13 of the Military Rules for a period of 15 months without losing their appointments, Mr. Lugard should be allowed to do the same. His allowances for the first 6 months of his absence being regulated by the rule laid down for allowances to Chaplains during absence on leave on medical certificate and private affairs in India in the Resolution of the 26th Ultimo referred to above, viz. Furlough pay, and in addition thereto half the difference between his full or Indian Pay and Furlough Pay, provided however that the two united do not exceed the limit of 600£ per annum prescribed in Section XXXIII of the new Civil Absentee Rules for cases of absentees out of India.

ORDER.

Letter from Govt of Madras, No. 1, dated the 9th January 1855. Ordered, that a Copy of the foregoing Resolution be forwarded to the Home Department for communication to the Government of Fort St. George, and that the paper noted in the margin be returned.

Ordered also, that a copy be sent to the Civil Auditor for his information.

RESOLUTION.

month in the year; and aths if absent on leave beyond the Presidency.

The Most Noble the Governor General in Council observes that under orders from the Government of Bengal, dated the 20th October last, the Reverend I. Coley,

Chaplain of Darjeeling, was allowed leave on medical certificate for three months, commencing from the 1st October, and that on the 22d November following the Civil Auditor was informed from this Department (with reference to an enquiry on the subject) that the salary bills of Mr. Coley, during the period of his absence, must be audited in the Civil Audit Department, the amount of salary to be drawn being regulated by the rules in force in the Military Department.

With advertence to the above decision the Military Department now forwards for orders a letter from the Civil Auditor requesting explicit instructions in regard to the allowances of (haplains and Assistant Chaplains while on leave for short periods on medical certificate and on private affairs, whether under the provisions of the New Military Furlough Rules they are to be treated as Reginental or as Staff Officers, and, if the latter, what amount of deductions from salary they are to be subjected to.

It is remarked by the Military Auditor General on this subject that the rules for the grant of furlough and leave of absence to Military Officers as established in the Honorable Court's Military Despatch, No. 18, dated 30th December 1853, and explained in their subsequent Despatch, No. 25, dated 20th September 1854, refer only to absence beyond India on medical certificate or on private affairs, and not to leaves of absence whether on sick certificate or on private affairs in India, or for brief periods to Ceylon, the Mauritius, or other places out of India. It appears further to the Military Auditor General that in strict keeping with this decision, the modifications in the Furlough Rules for Chaplains and Assistant Chaplains (see Honorable Court's Military Despatch, No. 2, dated

* *ds pay when absent on leave on private afairs continuously for more than one month in the year—5-6ths pay on leave on medical certificate if absent continuously for more than one will be the prevailing for Ecclesiastical Servants when absent with the year—5-6ths pay on leave on medical certificate if absent continuously for more than one

The Most Noble the Governor General in Council observes however that it was considered in this Department when the question was under notice how Chaplains were to be treated in cases of applications for leave in India, that as they had been declared by the Honorable the Court of Directors to be subject to the rules prescribed for Military Officers in regard to furlough on private af-

fairs and on medical certificate (with exception to the modifications stated in Section XXXIII of the Civil Absentee Rules) it must have been intended by the Honorable Court that they should be subject to the same rules as respects other descriptions of leave, nor can any sufficient reasons be now discovered for supposing that the conclusion then arrived at was incorrect. His Lordship in Council directs therefore that the orders of the 29th September shall continue to be abided by until the views of the Honorable Court are known; and meanwhile the allowances of Chaplains and Assistant Chaplains may be regulated in all cases by the Military Rules with the exception specified in XXXIII of the new rules for the grant of leave of absence to Civil Servants, Chaplains, &c. and, further, as suggested by the Military Auditor General, Chaplains and Assistant Chaplains absent on leave in India for the prescribed periods on private affairs or on medical certificate, may, as in the case of the superior class of Warrant Officers for whom no specific rate of net Indian Pay is prescribed, be allowed Furlough Pay, and in addition hereto half the difference between their full or Indian Pay and Furlough pay, subject to the orders of the Honorable Court.

CHAPLAINS TO WHAT TRIBUNALS AMENABLE.

Extracts from Court's Letter to the Supreme Government of the 23d May 1827.

Para. 22 of Ecclesiastical Letter from Bengal of the 31st December 1824. In reference to a question submitted by the Government of Bombay relative to the extent to which Military Chaplains are to be held responsible to the Military Authorities, and correspondence with the Lord Bishop as to the liability of the Company's Chaplains to Martial Law, Court's Orders on the Para. 2. From the best consideration we have been able to apply to the several documents to which we have been referred in this paragraph, we are induced to think that considerable misapprehension has existed on the subject to which they relate.

3. When our Ecclesiastical Establishment was placed on the footing on which it now stands, it became a necessary part of the arrangement that the Indian Clergy, should be submitted to

subject are requested.

sary part of the arrangement that the Indian Clergy should be submitted to the general superintendence of the Bishop and rendered subject to the Ecclesiastical Jurisdiction for all offences of Ecclesiastical cognizance, but it was never intended to except this portion of our servants from the Jurisdiction of the temporal Courts in the event of their being charged with any offences of a Civil nature, or any crimes against the peace and well being of society.

- 4. We wish it therefore to be distinctly understood, that the Chaplains on our Establishments are amenable to the Ecclesiastical Tribunals for such offences only as would render the Clergy of the Established Church amenable to the Ecclesiastical Tribunals in England, and for all other offences they are liable to be tried as all other Europeans in India are,—by the Ordinary Tribunals of the country.
- 5. If however the offence should be committed out of the Jurisdiction of the Ordinary Court, and in places where the rest of the community are subject to Military Law, in such a case, and in such a case alone, we deem it right that our Chaplains should be subject also to Military Law for all offences of temporal cognizance.

CHAPLAINS' VISITS TO OUT-STATIONS.

Extract from Court's Despatch, 12th April 1842.

- "In Section 27 of the Regulations respecting leave of absence and deputation and travelling allowances which we have recently approved, you will find a rule on the subject of travelling allowances on joining a Station, and when any change takes place except at the desire of the Chaplain or Assistant Chaplain.
- 3. But to avoid inconvenience and guard against the possibility of misunderstanding, we think it desirable that for every circle of stations the Lord Bishop should be requested to frame a plan determining the periods at which each place shall be visited by the Chaplain or Assistant Chaplain officiating in such circle, which plan being approved by Government shall continue in force till varied by the same authority. As minute local information will be necessary to the successful formation of such plan, we can only offer a few suggestions on the subject. The frequency of ecclesiastical visits should be governed in a great degree by the extent of the Christian population of the place to be visited. A place may contain not more than 3 or 4 members of the English Church, and though it might not be right to exclude those few persons from the benefit of Christian ordinances. it is obvious that in the present state of our Ecclesiastical Establishment such a place could not be visited frequently without injury to others of greater importance. An annual visit might in some cases be all that could reasonably be afforded; while to others, visits twice, three or four times a year might be expedient; and to others again, which might be more populous, it might be desirable that visits should be made once in six weeks, or once a month.
- 4. When a circle of Stations may from the deficiency of our Establishment, or any other cause, be left without a resident Clergyman, we are of opinion that the Chaplain or Assistant Chaplain of a neighbouring district should, as desired by the Lord Bishop, be appointed to visit the station thus deprived of clerical services. In such cases the most convenient course will be for the Lord Bishop to bring the subject to the notice of Government, and submit a plan of visitation. Such plan being approved, the Chaplain or Assistant Chaplain who can most conveniently discharge the required duty should be specially appointed thereto, and thereforward be entitled to draw travelling allowances in conformity with the provisions of the plan, and in accordance with our Financial Despatch of the 30th October 1839.
- 9. We should lament that the practice of visiting stations at which no Clergyman is permanently resident should be discontinued, and it would be unjust to subject the Clergy to the expense attendant on such visits. Under these impressions we deem it proper to sanction the payment of such reasonable charges not exceeding those authorized in our Despatch of the 30th October 1839, before referred to: and we are encouraged in this view by the fact that although Chaplains and Assistant Chaplains when absent from their duty are subject to the same deductions as Civil Servants, no charge is incurred in providing for the duty of the absente. The deductions may thus be regarded as a fund, meeting to a certain extent the extra charges incurred by occasional or provisional visits of the Clergy to Stations in which they do not reside."

OFFICIAL RETURNS OF THE CLERGY.

Ecclesiastical Department.

With a view to ensure regularity and completeness in the Official Returns of the Reverend the Clergy, it is directed by the Archdeacon, under instructions from the Honorable the Court of Directors, and with the approbation of Government, that in future the following regulations be observed, viz.:

- 1. That when any Chaplain or Minister applies for permission to return to Europe, or for any permanent leave of absence from his station, he shall forward with his application a declaration that he has duly made his Official Returns to the Registrar, or is prepared to do so, up to the day on which his departure from his Station is to take place.
- 2. That the same rule is to apply to Clergymen removing from one Station to another; and that every Chaplain so removing shall before quitting his Station, not only forward his Returns up to the day of his departure, but transmit also a declaration to the Authorities that he has done so.
- 3. That, in case of the death of a Chaplain at his Station, a copy of the entries in the Registers from the date of his last Quarterly Returns to the period of his demise, shall be made by the local public authority in whose official session the original public Registers may happen for the time be lodged or come, and be immediately forwarded by such local Officer to the Registrar; the same being, however, first duly examined and authenticated by the Chief lay public authority of the Station; this being considered the best mode at present of providing for the completeness of the General Quarterly Returns which are transmitted to England by the orders of the Honorable the Court of Directors.

Whereas a certain Table of Fees to our Registrars was lately intended to be adopted and certified by our late well beloved John Mathias, Lord Bishop of Calcutta, in and for our several Archdencouries; and whereas in consequence of the death of the said John Mathias, and of the Archdeaconries of Madras and Bombay having been since made separate Dioceses, and an consequence also of our disap-proval of many of the Items in such Table from the curtailments in the stipends of the Clergy ;-We Daniel, Lord Bishop of Calcutta have thought fit to revoke, and accordingly do revoke and cancel a certain instrument under seal bearing date the Twentieth day of July 1831, under which it was intended to certify such Fees; And whereas we still consider that a reasonable certain and consistent Table for all the business hitherto usually charged for and to be done, should be certified and established to prevent exaction, and contention, and in order that nothing may be unreasonably demanded or exacted or unlawfully taken by those employed, but such as seem to us suitable, customary and unobjectionable in their nature, and at the same time afford a moderate professional remuneration to those Registrars whose services are thus rendered: We therefore as far as we lawfully may and can, having considered and given our lest consideration to the subject, do certify the foregoing graduated scale to be in our opinion reasonable and such as may not be (with reference to the usages in the Dioceses elsewhere) improperly taken by our Registrars and Secretaries for business considered to be of a voluntary and private kind, and where the acts done are not exclusively for Government objects or of the State, and of a nature for which public provision is made.

And we order that a Table of these Fees be placed up in some conspicuous part of the Registry.

In testimony whereof we have affixed our hand and Seal dated this thirty-first day of May, in the Year of Our Lord One Thousand Eight hundred and Forty-two, and in the Eleventh of Our Consecration.

Parties des irous of being married should apply direct to some Surrogate residing near them; but from places where there is no Surrogate, application should be made to the Registrar, who will procure a commission, under the episcopal seal, authorizing some person to administer the usual oath and grant the necessary license. None but a Clergymau of the Church of England can marry by virtue of an episcopal license. Parties who cannot on account of distance obtain the services of a Clergyman to marry them, must state the fact, and apply to the Town Major, Fort St. George, who will obtain the permission of the Right Honorable the Governor for their marriage, under which the Senior Judicial Officer of any station is authorized by Government to marry them.

In the case of a minor in H. M. or the Honorable Company's Services, the written consent of the Governor must be obtained previous to the publication of banns, or the grant of a license.

Further information respecting marriages can be obtained on application to the Registrar of the Diocese (F. Orme, Esq.)

T. PYCROFT,

FORT ST. GEORGE, 21st October 1856.

Extract from a Memorandum submitted by the Hon'ble Company's Acting Solicitor, under date the 5th September 1856.

- 1. In order to a valid marriage under the provisions of 14 and 15 Vic. Chap. 40, and Act 5 of 1852, the requirements of those Acts must be strictly and substantially complied with.
 - 2. These requirements, are as follows:
 - 1. The notice to the Marriage Registrar, as required by Sec. 1 of Act 5 of 1852.
 - 2. The filing of such Notice by the Marriage Registrar, as required by Sec. 2 of Act 5 of 1852, and the entry of a true copy of such Notice in the "Marriage Notice Book," as required by Sec. 2 of Act 5 of 1852.
 - 3. The publication of such Notice, as required by Sec. 3 of Act 5 of 1852.
 - 4 The making of the Oath of Declaration (negativing any impediment of kindred, or affinity, or other lawful hindrance to the Marriage,) as required by Sec. 6 of 14 and 15 Vic. Chap. 40.
 - 5. The issue by the Marriage Registrar of the Certificate of Notice having been given and of Oath or Declaration having been made, as required by Sec. 2 of 14 and 15 Vic. Chap. 40, and Sec. 6 of Act 5 of 1852.
 - 6. The solumnization of the marriage in the presence of a Marriage Registrar, as required by Sec. 9 of 14 and 15 Vic. Chap. 40.
 - 7. The delivery at the time of marriage to the Marriage Registrar of the Certificate (previously issued by him) of notice having been given and of Oath or Declaration having been made; and
 - 8. The Registration of the Marriage by the Marriage Registrar present at the marriage, as required by Sec. XI of 14 and 15 Vic. Chap. 40.
- 3. The analogy between the most important of these requirements and the course to be pursued where the marriage is intended to be solumnized by License is very apparent.
- 4. The Oath or Declaration which Sec. 6 of 14 and 15 Vic. Chap. 40 requires to be made prior to the issue by the Marriage Registrar of the Certificate of notice given, &c. is very similar in substance to the declaration which must be made before a Surrogate before he can grant a License, and the production and delivery up at the time of a marriage under the Act of the certificate of notice given (coupled with the actual presence of the Marriage Registrar) is the authority for the solemnization of the marriage, just as the production and delivery up at the time of the marriage by License of the License itself is the authority for solemnizing such a marriage.

SIR,—I am directed to acknowledge the receipt of yorr letter, No. 5, dated the 3d Instant, desiring to be informed as to how far the provisions of Act V of 1852 are applicable to Native Christians in Travancore, and requesting to be furnished with any opinion that may have been recorded on the subject.

- 2d. In reply I am directed to state that the Act in question and the Statute whereou it was founded are only permissive, not merely as far as Native Christians are concerned, but as far as all Christians are concerned. They apply only to those who choose to have their marriages solemnized under the provisions of these special laws.
- 3d. The common law still applies to marriages solemnized in the old form by Priests and the Statute law to Cantonment Marriages, and if other Marriages were good before, they are so still.
- *No. 20 of 1852.

 4th. The accompanying Copy of a Despatch* from the Honorable the Court of Directors which relates to the permissive character of the Statute, is forwarded for the information of the Right Honorable the Governor in Council. The Statute and the Act, I am directed to observe, apply to the Territories of Foreign States in alliance with the East India Company; and of course, therefore they apply to British subjects in such States who avail themselves of it. But its application to Christian subjects of such Foreign States and resident therein, is quite another question, the Honorable Court remark, in puragraph 3 of their above quoted Despatch, that the Statute "will be seen to be generally unsuitable to Natives of India standing in no personal relation to England."

LEGISLATIVE DEPARTMENT.

No. 20 of 1852.

OUR GOVERNOR GENERAL OF INDIA IN COUNCIL.

Para. 1. In your letter in this department of the 1st of May last, No. 10 you have recommended to our early consideration a subject connected with the new Act or Marriages in India which had been brought to your notice by the Reverend T. Boaz, L. L. D.

- 2. Dr. Boaz points out that under that Act the consent of the Father or Guardian is required for the marriage of any parties under the age of twenty-one years, and represents that Hindoos are for other purposes recognised as being of legal age at sixteen years and that the general practice of Natives of India is to marry at a much earlier period than is customary in Europe, as the consent of Parents and Guardians to the marriage of Native Converts to the Christian religion is likely to be refused, he solicits that an application may be made to Parliament for amending the Marriage Act in this respect.
- 3. The Act in question is not an "Indian Dissenters Marriage Act," as it is erroneously designated in the representation submitted to you, and its provisions which were advisedly made only permissive, not obligatory, will be seen to be generally unsuitable to Natives of India standing in no personal relation to England. They have been framed in order to remove all doubts with regard to the validity for all purposes of marriages solemnized in India and also to afford easy means of proving the fact of any such marriage at any future time—two points on which feelings of intense anxiety and uneasiness had prevailed. We admit the difficulties regarding marriages among Native converts to Christianity, to which you have drawn our attention, but these difficulties have not in any degree arisen from the New Act and as we do not perceive any means by which they can be obviated without consequences of a more objectionable nature, we are unwilling at present to renew the application to Parliament on the subject.

TO THE CHIEF SECRETARY TO GOVERNMENT, MADRAS.

SIR,

I have the honor to forward to you the enclosed two letters, from No. 2 of which you will see that Mr. J. R. Snelleksz has the intention of holding me responsible in case I grant a Marriage Certificate to Rozario, who has taken out a Notice for a Marriage under the name of Snelleks on the 20th instant. This person has signed himself in letter No. 1 Snelleks, leaving out the z, he declares that he can bring witnesses that he is the illegitimate son of a person of that name, and he submits also a document signed by the Joint Magistrate, E. Cullin, Esquire, which I herewith enclose.

As I find nothing to guide me in the Marriage Register Act, I beg to refer the case to you, and request you to oblige me with an early reply.

Extract from the Minutes of Consultation, dated 16th September 1856. Read the following letter from the Rev. E. LASEBON, Marriage Registrar, Cochin.

(Here enter 29th August 1856.)

Resolved that the above letter be forwarded to the Government Pleader and that his opinion be requested whether a Marriage Registrar is in any way required to interfere in such matters as those now brought forward by the Rev. Mr. Laseron, whether he can be held answerable for accepting such an application as that made by Rozario, alias Snelleks, and generally whether a Registrar is bound to verify the names of parties in the Notices of Marriage, Schedule A. Act V, 1852—or, at least, would be considered responsible, should either of the names in such notices prove incorrect, and should he himself have been cognizant of the doubt regarding them at the time when the notice was given.

No. 406.

FROM THE ACTING HONORABLE COMPANY'S SOLICITOR.

TO THE CHIEF SECRETARY TO GOVERNMENT.

SIR,

M. C. 16th September 1856, No. 357, Ecclesiastical Department. With reference to the Extract from Minutes of Consultation noted in the margin, I have the honor to state as my opinios:—

- 1st. That the Marriage Registrar of Cochin ought not to file or act upon the notice of marriage tendered to him by Mr. J. L. DeRozario, therein styling himself J L. R. Snelleks, on the ground that such notice is not in accordance with the provisions of Section 1 of Act 5 of 1852, which requires that the notice shall state (amongst other things) the "name and surname" of each of the parties intending marriage; and it being clear from Mr. DeRozario's own admission that "Snelleks" is neither his christian or surname or even a name which he has acquired by repute, but a name which he now proposes to assume.
- 2d. That a notice within the meaning of Section 1, of Act 5, 1852, must state the *true* name and surname of each of the parties intending marriage, and it is beyond question that Snelleks is not Mr. DeRozario's *true* name.
- 3d. That by filing and acting upon the notice in question he (the Marriage Registrar of Cochin) would be voluntarily making himself a party to a void marriage.

The words in Section 1 of Act 5 of 1852 "shall state therein the name and surname, &c." are the same words that are used in the English Marriage Act, 6th and 7th, William 4, Chap. 85, which is an Act of precisely the same nature as Act 5 of 1852.

I have not been able to find any cases which have been decided upon the construction of the 6th and 7th, William 4, Chap. 85, but it seems to me that there is great analogy between the course prescribed by the last mentioned Act and the Indian Marriage Acts, as regards "Notice" and "publication of notice" and the publication of banns.

The 26th George 2, Chap. 33, (now repealed) was the first of the English Marriage Acts requiring the sanction of the Church for their validity. Section 2 of this Act provided for the delivery of a notice for the publication of banns

containing (amongst other things) " the true christian and surnames" of the persons intending marriage, and Sec. 8 of the same Statute provided that all "marriages solemnized without publication of banns" should be null and void. With reference to this Act, Burns in vol. 2, page 461 of his work on Ecclesiastical Law, says "according to the provisions of the Marriage Act, marriage, "except in the case of licence, is to be performed by proclamation of banns," which is to designate the individual, in order to awaken the vigilance of pa-"rents and guardians and to give them an opportunity of protecting their "rights. It therefore requires that a true name should be given to them evi-"dently considering that a name assumed for the occasion is a name that will "not answer the purposes of the provisions", and Lord Stowell in "Wakefield "vers. Wakefield" says accordingly "the Court has conceived itself to be carrying "the intention of the law into effect where it has annulled marriages where a " false name has been inserted in the banns, though no fraud were intended, " upon the ground that such proclamation was no proclamation referring to that " marriage, but to another transaction, the marriage therefore was without pro-"clamation of banns and consequently illegal. There was a fraud, a want of "fidelity and truth in the application of the banns to the marriage, though "there might be no fraud in the original intention. It is therefore clear that if " there is a true name, that true name must be used, it may be a name less no-" torious to the world than some name which the party has thought fit to assume, " but it is not less the true name on that account; it is the name which it is " presumed relations, parents and guardians are the best acquainted with, and "therefore the name which ought to be applied upon such an occasion, pro-"vided the party is possessed of such a name."

The same Judge (Lord Stowell) in other Judgments says,-" A false des-" cription of residence is by a particular clause of the modern Marriage Act rendered a mere impedimentum impeditivum, imposing on the Clergyman if the "fact be known to him, the duty of not proceeding with the marriage, but not invalidating the ceremony if once performed. The publication of false names " is different, though no such difference is marked in that Statute, it forms an " impedimentum dirimens invalidating the marriage in toto, and this arising " from the very nature of the thing and the intent and use of the publication. The "Court has had occasion to observe that it may in some cases be difficult to say what are the true names, particularly in the case of illegitimate children. "They have no proper surname, but what they acquire by repute; though it is "a well known practice which obtains in many instances to give them the sur-" name of their mother whose children they certainly are, whoever be their fa-"ther. However if they are much tossed about the world in a great variety of " obscure fortunes, as such persons frequently are, it may be difficult to say for " certain what name they have permanently acquired, as was the case in Wake-"field v. Wakefield. In general it may be said that where there is a name of baptism " and a Native surname, those are the true names unless they have been over-"ridden by the use of other names assumed and generally accredited." In Pouget v. Tomkins, Lord Stowell said, "The clear intention of the Act is that "the true names of the parties should be published, and if they are not so pub-"lished it is no publication; no notice is given and no opportunity is afforded "to any one to allege an impediment. It has been constantly held therefore " since the case of Early v. Stevens, which was in 1785, and I believe the ear-"liest case under the Marriage Act, that a publication in false names is no " publication."

The present English Marriage Act (requiring the sanction of the Church) is the 4 Geo. 4, Chap. 76, Section 7 of this Act provides for the delivery of a notice for the publication of the banns containing (amongst other things) the "true Christian names and surnames" of the persons intending marriage, and Section 22 of the same Statute provides that if any persons shall knowingly and wilfully intermarry "without due publication of banns" the marriages of such persons shall be null and void. Section 1 of Act 5 of 1852 provides that the notice of

marriage to be given to the Registrar shall contain (amongst other things) the "name and surname" of each of the parties intending marriage. This Statute does not use the word "true," as the English Statutes do, but I do not consider that this variance affects the question, for it must be assumed that the words "name and surname" used in the Indian Statute means the true and correct names and surnames of the contracting parties.

The authority of cases which have been decided since the passing of the 4 Geo. 4 Chap. 76, appear to me to establish the position that the publication of banns in a false name (where both the contracting parties are at the time cognizant of the fact) is no publication at all, and that a marriage consequent on such a publication of banns is null and void.

The principle of the decisions above referred to appear to me equally applicable to the case of a party giving a false name to a Marriage Registrar and a subsequent marriage in such false name; and I am of opinion that Mr. IDeRozario's marriage, supposing the notice to have been given in the name of Snelleks and the subsequent proceedings, including the marriage, to have been taken and solemnized in the same name, both parties knowing from the outset that Snelleks was not the husband's name, but a false and assumed name, would be null and void.

I do not consider that a Marriage Registrar is bound to verify the names of parties described in notices of Marriages submitted to him under Act 5 of 1852; but I think it is his duty to inquire of parties submitting such notices to him whether their names are therein truly stated, and that if he has reasonable ground to doubt the accuracy of such statements he should not file or act upon the notice until his doubts have been removed by further enquiry.

I am clearly of 'opinion that a Marriage Registrar would not incur any penalty or responsibility by filing and acting upon a notice of marriage which did not contain the true names of the parties intending marriage, if he were ignorant of the mis-statements and nothing had occurred which might reasonably have aroused his suspicion; and Peannot find that a Marriage Registrar by filing and acting upon such a notice, even, with full knowledge at the time of its inaccuracy, would subject himself to any penalty or responsibility, but Section 16 of Act 5 of 1852 declares that any person who shall knowingly and wilfully sign any false notice for the purpose of procuring any marriage shall, on conviction, suffer the penalties of perjury. I think however that a Marriage Registrar filing and acting upon a notice which he knows or has reason to believe false, would justly incur the animadversion of Government, for such serious results to families may arise from laxity or carelessness on the part of Marriage Registrars in giving effect to the provisions of the marriage Acts, that they cannot, in my opinion, exercise too much caution in the performance of their duties.

I return the enclosures which accompanied the above extract.

Two of the Native Missionaries, in turn, preach every Lord's day in Tamil at 11 A. M. in Madras, and in the Triplicane Branch School House on the Mount Road. The European Missionaries and they in turn, preach in English at 6½ P. M. in the Hall of the Free Church Mission Institution, Black Town. There is also a prayer meeting in the same place every Wednesday evening at 64 P. M. The Gospel is preached to the Native population in their own tongues, on the Mount Road Premises, every Sunday and every Wednesday afternoon between 41 and 6. The Rev. S. Ettirajooloo was sent up in May 1852 to Nellore to superintend the School and to begin a new Mission there. The Rev. J. M. Mackintosh went to Nellore in 1854. During the past year the average attendance at the Vernacular services in Madras, Triplicane, Chingleput and Nellore, has been about two Thousand, of whom one-third were adults.

In conformity with an Act of the General Assembly of the Free Church of Scotland, held at Glasgow on the 24th day of October 1843, the Missionaries at Madras were constituted a PRESBYTERY OF THE FREE PROTESTING CHURCH OF SCOTLAND, on the 13th March 1844. On the 26th day of November 1851, they ordained Rajahgopaul, Venkataramiah, and Ettirajooloo to the full powers of the Christian Missionary and the Christian Missionar of the Christian Ministry, and set them apart to act as Ordained Missionaries in connexion with the Madras Free Church Presbytery.

General Assembly's Mission of the Free Church of Scotland.

Commenced in Black Town, 3d April 1837.

FREE GENERAL ASSEMBLY'S INSTITUTION, Esplanade, Black Town, for Native Education, and for raising up Native Teachers and Preachers, under the superintendence of the Rev. John Braidwood, A. M., the Rev. A. B. Campbell, the Rev. Months. superintendence of the Rev. John Braidwood, A. M., the Rev. A. B. Campbell, the Rev. W. Moffat, the Rev. A. MacCallum, the Rev. J. G. Cooper, and the Rev. A. Venkataramiah.

The Rev. P. Rajahgopaul and Mr. Whitely superintend the Triplicane Branch School on the Mount Road. The Mission last year opened a new Branch School in Black Town, under the superintendence of Mr. Huffton and the Missionaries.

The Rev. J. M. Mackintosh, A. M., and the Rev. S. Ettirajooloo superintend the Branch School and Mission at Nellore, with new branches at Goodoor and Caligherry. The Rev. R. B. Blyth, A. M., superintends the Branch School and Mission at Chingleput, as well as the Schools at Conjeveram and Wallajabad. Wallajabad.

The Parent Institution is designed to fulfil the three-fold end of a College for rearing up Native Preachers, a Normal Seminary for training Teachers, and a School for general instruction. Eight Branch Schools exist in connection with it. These are at Triplicane, in Salay Street near the Mint, at Conjeveram, at Wallajabad, Chingleput, Nellore, Goodoor, and Caligherry. The average attendance at all the Schools during 1855 has been above 2,200 Hindus and Mahomedans on a roll of upwards of two thousand five hundred. The Hindu pupils are of all castes and classes, from the Brahmin to the Pariah, no distinction being made by the Missionaries. The entire number includes above six hundred Hindu and Mahomedan girls, the former nearly all of caste, and about a hundred and eighty Mahomedan males.

The education given embraces a knowledge of the Scriptures as the primary aim of the Missionaries, and all the branches of an enlarged secular course of instruction. The essential character of the Central Institution with its eight branch Schools for youths and eleven for girls (Caligherry being as yet unprovided with one of the latter) is that of being Seminaries for teaching Christian knowledge. This is communicated through the medium of English, Tamil, Teloogoo, and Hindustani.

The Committees of the Foreign Mission of the Free Church and of the Edinburgh Medical Missionary Society have united in sending Mr. D. H. Paterson, Surgeon, as a Medical Missionary to cooperate with the Missionaries of the Free Church in Madras.

THE PLAN

- 1. That the Society be denominated THE MADRAS TRACT AND BOOK SOCIETY.
- 2. That its primary object be the circulation of Religious Tracts in English and the Native languages, on the same principles with those of the Religious Tract Society in London.
- 3. That a secondary object be the publication of School Books, and other elementary and useful works, in the Vernacular languages; and in English, with or without a Vernacular translation.
- 4. That the ordinary income of the Society be devoted to its primary object, the circulation of Tracts and Books strictly Religious, and that a Special Fund be formed for other Publications under the name of Book Fund, to which distinct contributions, in money or paper, may be made.

- 5. That the Tracts to be circulated by this Society, be those published by the Religious Tract Society in London, and such others as local circumstances may require, though always of the same tenor with the former.
- 6. That this Society pay annually, or half-yearly, so much money into the Funds of the Religious Tract Society in London, as the amount of its receipts may warrant; and that the above Society be requested to supply this Society with such Tracts as they may require.
- 7. That each Subscriber be entitled to receive Tracts, estimated at reduced prices, to the amount of one-half of his subscription.
- 8. That each Subscriber of one fanam or upwards, per month, shall be considered a member of the Society.
- 9. That the business of the Society be conducted by a Committee, consisting of as many members as convenient, together with the Treasurer, Secretary, Assistant Secretary, and Depositary; five of the members to constitute a quorum.
- 10. That there be an Annual Meeting of the Subscribers as early in each year as may be convenient, when the Committee, and other Office-bearers, shall be chosen, the accounts presented, and the proceedings of the foregoing year reported.
- 11. That the Committee be authorized to nominate Corresponding Members, from among such persons at out-stations, as shall feel inclined to co-operate with the Society.

EDUCATIONAL NOTIFICATION.

- 1. With reference to paras. 51 to 62, of the Honorable Court of Directors' Educational Despatch to the Government of India, dated the 19th July 1854, the Director of Public Instruction gives notice that he is prepared to receive application for Grants-in-aid of Schools, either already established or proposed to be established by private subscriptions or endowments.
- 2. These grants will be made with a special view to the extension and improvement of the secular education of the people, and will be given impartially to all schools, whether male or female, Anglo-Vernacular, or Vernacular, (so far as the requirements of each particular district, as compared with others and the funds at the disposal of Government may render it desirable) which impart a sound secular education, and the managers of which may consent to submit to the conditions mentioned below. It will be essential to the consideration of applications for aid that the schools on behalf of which they are preferred, should be under the management of one or more persons who, in the capacity of proprietors, patrons, trustees, or members of a committee, elected by the society or association by which the school may have been founded, will be prepared to undertake the general superintendence of the school, and to be answerable for its permanence for some given time.
- 3. No grants will exceed the amount of funds raised from local or other sources for the purposes for which the grant is sought; and as a general principle, except in the case of normal schools for training teachers, grants will be made only for specific purposes, and not in the form of simple contributions in aid of the general expenses of a school.
- 4. Except in the case of normal schools for training teachers, grants will be restricted to those schools in which some fee, however small, is exacted from the scholars.
- 5. All applications for grants must be accompanied by a declaration that the applicants are prepared to subject the school, on behalf of which the application is made, to the inspection of a Government Inspector, such inspection and examination having no reference to religious instruction, but only to secular education. The applicants must further declare their willingness to conform to the conditions hereunder specified for the regulation of such grants, and no grant will be made until it shall have been ascertained from the report of an Inspector.
 - 1st. That the case is deserving of assistance.
- 2nd. That the grant applied for will not supersede the effects of associations or individuals.

- (F.
- 6. The following are the specific objects for which grants will be given:-
- 1st. The erection, enlargement, or repair of school buildings.
- 2d. The provision of school furniture.
- 3rd. The augmentation of the salaries of the teachers, or provision of additional teachers.
- 4th. The provision of stipends for pupil teachers, and of gratuities to teachers who undertake to instruct them.
- 5th. The provision of school books maps, and school apparatus at reduced prices according to the circumstances of the case.
- 7. The following are the conditions upon which grants will be made for the objects above specified:—
- 1st. It will be a condition of all grants towards the erection, enlargement, or repair of school buildings, that such rules as shall be laid down in regard to the dimensions and arrangements of the school buildings, with reference to the number of scholars they are designed to accommodate, shall be duly observed and that the permanent assignment of the buildings for school purposes shall be adequately secured.
- 2nd. Applications for grants for the provision of school furniture must be accompanied by a declaration on the part of the applicants that they will be personally responsible for the due preservation of the furniture of the school, and for its being reserved for the purposes for which it is supplied.
- 3rd. Applications for grants in augmentation of the salaries of teachers, or for providing additional teachers, like other applications for aid will be referred to a Government Inspector for report on the merits of the school and qualifications of the teachers, and their continuance will depend upon the periodical reports of the Inspector on the merits and proficiency of the teachers, as ascertained at his periodical examinations of the school.
- 4th. Grants for the payment of stipends to pupil teachers will be made only to those schools in regard to which the Inspector may report that the master is competent to instruct such pupil teachers; and the continuance of such stipends as well as the amount of gratuities to be assigned to the masters for the instruction of the pupil teachers, will depend upon the proficiency of the latter.
- 5th. Grants of school books, maps, or apparatus at reduced prices will be accompanied by the condition that the books shall be appropriated bonâ fide to the use of the masters and scholars, and that due means shall be taken for their preservation.
- 8. Grants will also be given in aid of scholarships and of stipends for normal students, the rules for which will be notified hereafter.
- 9. No payments will be made by Government, until the proportion of funds, which under the conditions of the grant is to be contributed from local or other sources, shall have been actually paid.
- 10. It is to be distinctly understood that grants-in-aid will be awarded only on the principle of perfect religious neutrality, and that no preference will be given to any school on the ground that any particular religious doctrines are taught or not taught therein.
- 11. The Government of India have intimated that the foregoing rules are to be considered provisional and that they may be eventually superseded by a code of rules applicable to the whole of India.

Office of the Director of Public Instruction, August 17th, 1855.

A. J. ABBUTHNOT, Director of Public Instruction.

THE GOVERNMENT NORMAL SCHOOL.

This Institution has been established by Government for the purpose of supplying well qualified Masters for the Schools now in existence or hereafter to be established in the Presidency.

It was opened in presence of the Governor of Madras, the Director of Public Instruction, and several leading men of the Presidency in March 1856.

It consists of two departments. The one is the Normal School proper and provides for the instruction of the Normal pupils, the other is in fact a large elementary school in which from 250 to 300 boys receive instruction from Masters and from the Normal Students, for whom a division of it forms a practising school.

Twenty-five Government Scholarships of 30, 20 or 15 Rupees per mensem are attached to the Institution and are awarded, when vacant, to such candidates for admission as pass the most satisfactory examination in certain prescribed subjects, (See Notice.)

The educational Staff at present consists of a Principal and an Assistant Training Master, for the Normal School Proper; and of a Master, six Assistants and six Vernacular Moonshees for the Primary, but we know that an entire reorganization has been proposed by the Principal and recommended to Government by the Director of Public Instruction, and this is likely to be carried out without much delay. One great object of the proposed change is to render the professional training of the students more complete than present arrangements admit of.

The site of the Institution is the building in Vepery formerly occupied by the Grammar School.

Some years must elapse before its success can be rightly judged of, as more depends on the character of the men whom it sends out than on their attainments as shewn in an examination. The possession of accurate and extensive knowledge is a necessary characteristic of a School Master, but of little use, rather injurious indeed, unless under the guidance of sound principles.

EDUCATIONAL NOTICE.

- 1. It is hereby notified for general information that a Government Normal School for training Teachers was opened at Madras on the 3d March 1856, in the premises at Vepery, formerly occupied by the Vepery Grammar School.
- 2. The design of the institution is to provide competent Teachers for employment as Masters or under Masters in the Anglo-vernacular Schools which have been or may be hereafter established throughout the Presidency (whether public or private), and to raise up a class of training Masters with a view to the eventual improvement and extension of vernacular education by the establishment of Schools in the Provinces for the training of Teachers for vernacular Schools.
- 3. Candidates for admission as students of the Normal School must be at least 17 years of age, and free from any bodily infirmity tending to impair their usefulness as School-masters.
- 4. They will be required to produce certificates of moral character and conduct, and to show, on examination, a competent knowledge of the following subjects.

English, comprehending a competent knowledge of grammar, and ability to read and explain any moderately easy passage from a standard prose author.

Writing, from Dictation.

History, including an acquaintance with the leading facts in the Histories of England and India.

General Geography, and particularly the Geography of India.

Arithmetic, comprehending the four simple and compound rules, Reduction, Vulgar Fractions, Simple Proportion and Simple Interest.

The Tamil or Telugu Language, (at the Candidate's election) including translation into English and vice versa. Candidates will also be required to answer such grammatical questions bearing on the passages selected for translation from the vernacular languages as may test their ability to parse and their knowledge of the construction of the vernacular languages selected.

5. Twenty-five Scholarships of the amounts noted in the margin are attached to the Normal

						tached to the Horman
Ten Ten Five	do	of of of	Rupees	15 20 30	do	School, and such as are now vacant will be award- ed on the result of an ex- amination to be held on
						the 19th January 1857.

6. The subjects of examination will be as follows:

FOR SCHOLARSHIPS OF THE 3D OR LOWEST CLASS the subjects above specified.

FOR SCHOLARSHIPS OF THE 2D CLASS.

Algebra, as far as Simple Equations.

Euclid, the two first books.

The Tamil or Telugu Language, (at the candidate's election) including translation into English and vice versa with grammatical questions as in the examination for Scholarships of the 3d Class. The passages selected for translation will be somewhat more difficult than those given in the examination for admission and for Scholarships of the 3d Class.

FOR SCHOLARSHIPS OF THE 1ST CLASS.

English, including an intimate knowledge of grammar and ability to paraphrase and explain any ordinary English author, prose or poetical.

General History, and particularly the Histories of England and India.

The Tamil or Telugu Language, (at the Candidate's election) including translation into English and vice versa with grammatical questions and an abstract or precis in the Vernacular language of a passage selected from a standard English author, such as may test the candidate's facility and correctness of expression in vernacular composition.

- 7. Each scholar will be considered a probationer for the first two months after his election, to enable the Principal of the Normal School to form an opinion as to his aptitude for the art of teaching. Subject to this provise and to the condition of the scholarship holder manifesting due proficiency at the periodical examinations of the Institution, each scholarship will be tenable for two years; at the end of which period, or sooner, if he obtains a certificate of qualification, the holder will be appointed as a teacher in a school, on a salary of Ruper, 50 per mensem or higher, according to the grade of his certificate; or in the event of there being no vacancy at the time of his passing his final examination, he will be allowed to retain his scholarship until a vacancy occurs.
- 8. Each Scholar on his election to a scholarship will be required to sign a written agreement to the effect that he will not voluntarily quit the Institution, until he shall have obtained his certificate of qualification as a teacher, and that he will subsequently serve for not less than five years in the Educational Department, failing either of which conditions, he will refund such sums as he may have received on account of his scholarship.
- 9. Persons intending to present themselves as candidates for admission into the Normal School, either as scholars or as free students should send their names and testimonials to the Principal of the Normal School on or before the 12th January 1857.

The examination will commence on the 19th January 1857.

THE Agricultural and Horticultural Society of Madras was established on the 15th July 1835, chiefly by the exertions of Dr. Wight. Its success has been most gratifying, and its sphere of usefulness is now widely extended.

The Garden at present occupies a space of about 12 acres, originally granted by Government. A large portion is laid out as an ornamental pleasure ground, forming an agreeable promenade for the Public; and the remainder is devoted to nurseries for the propagation of such trees, shrubs, and plants, as are in general request. An extension of the nursery for seedlings and cuttings is now in progress, with the view of forming a ground work for a system of practical Indian Arboriculture, and of enabling the Society to meet public demands.

The number of ordinary Members fluctuates from 80 to 100, besides 4 Honorary, and 2 Extraordinary. An extensive correspondence is maintained with Botanists, Planters, and Agriculturists, in various parts of the world. Large importations of seeds are made annually from the Cape of Good Hope and England—these are distributed gratuitously to Members, and also to the poorer classes, Ryots, Pensioners, and Market Gardeners.

Annual shows of Horticultural produce take place, which are numerously attended—and on these occasions medals and pecuniary rewards are awarded to successful exhibitors many of whom are Natives.

A Subscription of Rupees 7 per quarter entitles a Member to a large supply, annually, of Flower and Vegetables Seeds suited to the climate. Grafts of Fruit trees and shrubs are also distributed to Subscribers, according to the available Stock in the Garden.

Memorandum.—All Ladies and Gentlemen visiting the Society's Garden will be shown every attention, although they may not be Subscribing Members. On Tuesday Evenings, with the permission of the Right Honorable the Governor, the Garrison Band attends at the Gardens, and seats are arranged for Visitors.

This Institution was established in thr year 1808, for the purpose of affording to old, infirm and diseased Natives, assistance in food, clothing, lodging and medical attendance. Since that period it has entertained nearly 300 persons daily; and during the famines which devastated the country in 1824 and 1833, it was the means of saving vast numbers from starvation and death. Throughout the famine of the latter year no less than 30,000 individuals were on an average maintained every day. Wretchedness under every variety of form is here admitted; and the bare existence of wretchedness alone is sufficient to obtain immediate relief.
